

This list is provided for the convenience of persons or firms seeking archaeological services and does not indicate nor imply any sanction, certification, or approval by the State of Tennessee. This list may not be all-inclusive; however, all consultants who request inclusion will be listed. The Division of Archaeology does not accept responsibility for the performance of any consultant. Those persons procuring archaeological services are advised to independently verify that the archaeologist that will be in direct (day-to-day) charge of the project is qualified and experienced in the type of work to be performed. Permits for work on federal or state property have specific, but different, professional requirements.
