

Child Care Services Daily Update- May 8, 2020

The Tennessee Department of Human Services (TDHS) will continue to provide you with the most current information pertaining to Child Care programs. We will continue to remain diligent in keeping this site current.

Reminder: Child Care Payment Assistance for Essential Employees:

The Tennessee Department of Human Service launched a new category of child care payment assistance to support families that are working in essential workforce positions. The COVID-19 Essential Employee Child Care Payment Assistance program is available during this public health emergency.

This category of care has no income limits, and is designed to serve children 6 weeks to age 13 in DHS **licensed** or DOE approved care settings. This is a time limited category for the period of April 15th – June 15th to meet an immediate need for the essential workforce. We ask that you encourage families to enroll. Once the family is approved, the children will show on your Enrollment Attendance Verification (EAV) for you to invoice the state.

If you are not currently enrolled with the Child Care Certificate Program, we encourage you to do so in order to provide these new supports for families of children who work in essential services and are enrolled in your care. We are prepared to expedite the Certificate Program enrollment to provide timely payment.

We will be happy to assist you with enrollment. Please submit your agency contact information including name of agency, name of person to contact, and telephone number in the request for enrollment to ChildCare.Certificate.DHS@tn.gov. You will then be contacted by a Child Care Services staff member to discuss participation and complete the contract for enrollment. This one on one contact will allow the opportunity to discuss the procedures and answer any questions you may have about the program and the benefit for families, the community and you.

*****Please Note: The children of the new essential employee category of care will be paid through the EAV method. If you receive a Certificate authorizing care under this category, which will show as EMEE, be certain to list that child on the EAV if the approval occurred during the pay cycle and are not showing as pre-populated. In other words, if the child is not showing on your EAV and you have received a Certificate, please add that child to your EAV before submitting.**

All information for this category of care will be on our website:

<https://www.tn.gov/humanservices/covid-19/child-care-services-and-covid-19.html>

This child care payment assistance program is in addition to a network of temporary/emergency care locations that will be available through the YMCA and Boys & Girls Clubs for essential workers with

school-aged children. We greatly appreciate your participation in meeting the needs of all families during this time of uncertainty.

Guidance for Child Care Providers:

Now, as always, child care providers play a critical role in their communities, particularly for parents who work in the health care industry or other essential roles. Each child care provider must make the decision whether to be open or closed, based on their unique situation and the needs in their community.

For child care providers who are currently open or are seeking to reopen, the Tennessee Departments of Human Services and Education are recommending that programs [follow CDC guidance for child care programs that remain open](#). The Departments are also providing additional guidance to child care facilities throughout the state on proactive measures, including screening recommendations for staff and visitors. These proactive measures are intended to help limit the spread of COVID-19 and safeguard children, families, and child care provider staff.

- **Limiting Persons in the Facility:** Providers should prohibit persons from the facility with the exceptions of:
 - Facility staff
 - Persons with a legal authority to enter, including law enforcement officers, child care licensing staff, and Child Protective Services staff
 - Professionals providing services to children
 - Children enrolled at the facility
 - Parents or legal guardians who have children enrolled and present at the facility
- **Pick-up and Drop-Off Protocols:** Pick-up and drop-off should occur outside the facility, unless it is determined that there is a legitimate need for the parent to enter a facility. Hand hygiene stations should be set up at the entrance of the facility, with supervised use. Consider staggering arrival and drop off times and/or have staff come outside the facility to pick up the children as they arrive.
- **Screening:** Persons who have a fever of 100.4⁰ (38.0⁰C) or above or other signs of illness should not be admitted to the facility. Encourage parents to be on the alert for signs of illness in their children and to keep them home when they are sick. Screen staff and children upon arrival, if possible. Require staff to report any illness to their supervisor and require notification of COVID-19 positive case in employee's household. Examples of screening methods are available in the [CDC Guidance](#).
- **Limiting Class Sizes and Mixing:** All efforts should be made to limit congregation of children and class sizes to 10 or less.
 - **Groupings should include, to the extent possible, the same children each day to minimize exposure**

- Limit the mixing of children, such as staggering playground times and keeping groups separate for special activities such as art, music, and exercising. Clean or disinfect equipment between groups, when possible.
- **Face Masks:** When feasible, staff members and older children should [wear face coverings](#) within the facility as recommended by the CDC. Cloth face coverings should NOT be put on babies and children under age two because of the danger of suffocation. Consider explanations to assist children with understanding why staff are wearing face coverings, as appropriate.
- **Do not allow sick children to be cared for in the facility:** If a child becomes sick while at the facility, contact the parent or guardian immediately and separate the child from other children at the facility. Make sure emergency contact information is current.
- **Have a plan if someone is or becomes sick.**
 - Plan to have an isolation room or area (such as a cot in a corner of the classroom) that can be used to isolate a sick child. Additional information about isolation in related settings can be found here: [isolation at home](#) and [isolation in healthcare settings](#).
 - Be ready to follow CDC guidance on how to [disinfect your building or facility](#) if someone is sick.
 - If a sick child has been isolated in your facility, clean and disinfect surfaces in your isolation room or area after the sick child has gone home.
 - Send staff home if they become sick with COVID-19-like symptoms. Evaluate leave policies to accommodate the provisions of these guidelines. Covered employers and employees should be aware of the provisions of the federal Families First Coronavirus Response Act, which allows for paid sick leave or expanded family and medical leave for specified reasons, such as for self-quarantining or seeking a medical diagnosis for COVID-19 symptoms.
 - If COVID-19 is confirmed in a child or staff member:
 - Close off areas used by the person who is sick.
 - Open outside doors and windows to increase air circulation in the areas.
 - Wait up to 24 hours or as long as possible before you clean or disinfect to allow respiratory droplets to settle before cleaning and disinfecting.
 - Clean and disinfect all areas used by the person who is sick, such as offices, bathrooms, and common areas.
 - If more than 7 days have passed since the person who is sick visited or used the facility, additional cleaning and disinfection is not necessary.
 - Continue routine cleaning and disinfection.
 - Do not permit the child or staff member to return to the facility except as recommended by the child or staff member's medical provider.

For more details and recommendations, please refer to the [Centers for Disease Control and Prevention's Guidance for Child Care Programs that Remain Open](#), which covers topics such as:

- Social Distancing
- Child pick up and drop off procedures
- Cleaning and disinfecting toys and bedding
- Safely caring for infants and toddlers

- Food preparation and meal service
- Talking with children about COVID-19

Contact your Program Evaluator

As providers begin to reopen pursuant to federal, state and local regulations, the departments request the provider **contact their Program Evaluator** to keep them informed of the agency's status. Program Evaluators will be able to explain how monitoring and compliance will be determined for the immediate future, and can discuss any continuing challenges and impacts the provider may face to better inform the department on the needs of the child care community going forward.

During these extraordinary times, Program Evaluators are supporting providers during weekly calls to provide guidance and clarification on continued best practices to ensure safe, healthy and educationally rich environments for the children in Tennessee. These frequent touchpoints are also a continued source of information for providers in better understanding department programs which offer assistance to providers suffering financially as a result of tornados or COVID-19 pandemic.

Please note: This information is available on our website: <https://www.tn.gov/humanservices/covid-19/child-care-services-and-covid-19.html>
