

## What is the Independent Living Program?

The Independent Living Program provides services to eligible individuals of all ages who are blind or who have a severe visual impairment to enable them to live as independently as possible in their homes and communities.

Independent Living Rehabilitation Teachers provide direct services to individuals on a one-on-one basis and coordinate services which may be available from other agencies and organizations. The program reaches out to individuals in all areas of the state, including those living in rural counties.

**There are no fees required for the program.**

**Services are provided through State and Federal funding.**
