

**Public Notice:**

**Tennessee Emergency SNAP Benefits for Current SNAP Recipients**

Tennessee will provide emergency SNAP benefits in addition to the amount you already receive, related to the outbreak of COVID-19.

Current SNAP households will receive an increase in their SNAP allotments for September 2021. Households will receive at least the minimum SNAP Emergency Allotment of \$95.00 for the September 2021 allotment.

This SNAP benefit is intended to address temporary food needs for SNAP households such as yours, supports social distancing, and provides aid during the pandemic related economic condition.

SNAP households will receive benefits on their regularly scheduled issuance date. These benefits will go on your current Electronic Benefit Transfer (EBT) card.

What do you need to do? Nothing - wait until you receive your regular SNAP benefits on your EBT card. In September 2021 you will receive an extra amount in emergency allotments.

For questions pertaining to the emergency SNAP benefits, you can contact the Family Assistance Service Center at 1-866-311-4287.
