TCDDBHH Statewide Goal Plans:

1. A mental health provision may be needed for those who are Deaf, Deaf-Blind, and Hard of Hearing. Currently there are no facilities that provide mental and behavioral health services specific to these communities. TCDDBHH (DHS) assisted to form the Tennesseans for Behavioral Health Accessibility affiliation in partnership with Disability Rights Tennessee and the Tennessee Department of Mental Health and Substance Abuse Services (TDMHSAS). Strategies have been discussed and a survey has been developed to obtain more specific input from these communities.

2. More qualified professional sign language interpreters may be needed for persons who are Deaf, Deaf-Blind, and Hard of Hearing. Currently, Tennessee does not have a requirement for interpreters to maintain a license or certification for interpreting. TCCDBHH is reviewing ways to improve the level of certification and training.

3. TCDDBHH helped to develop the Emergency Awareness and Readiness Services (EARS) in 2008. This group has been active in training weather spotters, holding First Aid courses, and providing needed alerting devices such as visual smoke detectors. TCDDBHH has continued to work with EARS for improving on effective communication access with the live closed captioning on local news stations, and receiving news alerts via text messaging. Alliances have also been formed with the National Weather Bureau, Tennessee Emergency Management Agency, Federal Emergency Management Agency, Tennessee Association of the Deaf, Hearing Loss Association of America of Tennessee chapters, and several organizations for the Deaf, Deaf-Blind, and Hard of Hearing.

4. TCDDBHH is working with community centers to develop a Support Service Providers (SSP) program (also known as sighted guides) for Deaf-Blind people who require its services. Community centers have found it challenging to find SSPs. The TCDDBHH will assist the community centers with incentives, hiring, and training for SSPs, to increase access for Deaf-Blind consumers.
