Tennessee Department of Mental Health and Substance Abuse Services (TDMHSAS)

Overview

TDMHSAS Vision:

A state of resiliency, recovery, and independence in which Tennesseans living with mental illness and substance use disorders thrive.

TDMHSAS Mission:

Creating collaborative pathways to resiliency, recovery, and independence for Tennesseans living with mental illness and substance use disorders.

TDMHSAS Goal:

To expand access to high quality behavioral health services to Tennesseans on the path to recovery from mental illness, substance use, and co-occurring disorders.

TDMHSAS Customers:

Individuals and families struggling with mental illness and substance use issues, providers, local communities, judicial system, legislators, other state agencies, and consumer/advocacy groups.

TDMHSAS Services:

Education, prevention, early intervention, evaluation, treatment, recovery support services, licensing oversight for community organizations providing behavioral health services, outpatient and inpatient care, operation of regional mental health institutes, and research and public policy.

Public Safety Strategic Goal:

Lead in partnership with State agencies and community partners to prevent and treat the prescription drug abuse epidemic in Tennessee

Health and Welfare Operational Goals:

1. Actively work with RMHI leadership continuing efforts to improve outcomes for patient care while containing cost
2. Maintain and improve community mental health and substance abuse services
3. Educating Tennesseans and working to improve their understanding of mental health and substance abuse issues and getting people to early intervention services

Customer Focused Government Goals:

1. Actively work with RMHI leadership continuing efforts to operate cost effective, efficient, and outcomes-driven hospital services
2. Expand access to low-cost, high-quality, outcomes-oriented community mental health services
3. Expand access to low-cost, high-quality, outcomes-oriented community substance abuse services
4. Provide evidence-based interventions focusing on specialized populations

Organization of the Department

Division of Administrative and Regulatory Services (DARS) oversees monitoring, general services, procurement, major maintenance, capital outlay projects, administrative oversight for the Regional Mental Health Institutes (RMHIs), licensing of all Tennessee agencies providing mental health, substance abuse, personal support services, and investigating complaints of abuse, neglect or fraud against licensed organizations.

Office of Strategic Initiatives provides support to the department's executive leadership team and seeks to find and secure opportunities that help further the mission and vision of the department. The Office of Strategic Initiatives is responsible for planning, developing, administering special projects and initiatives to expand the service delivery for Tennesseans living with mental illness and substance use disorders.

Office of Fiscal Services oversees general accounting functions including accounts receivable and payable and interactions with state and federal funding sources.

Office of Faith-Based Initiatives actively engages faith communities and organizations as a means of increasing outreach, educational activities, access, and visibility to individuals seeking recovery services. The Office of Faith-Based Initiatives oversees the Faith-Based Community Coordinators as well as the Lifeline Peer Project, Hybrid Lifeline, and Collegiate Recovery which were established to reduce the stigma of mental illness and addiction in their respective regions and demographic focus. Additionally, this office provides oversight of the Certified Recovery Congregation Program.

Division of Substance Abuse Services (DSAS) is responsible for planning, developing, administering, and evaluating a statewide system of prevention, treatment, and recovery support services for the general public, persons at risk for substance use disorder, and persons abusing substances.

Division of Clinical Leadership (DCL) promotes high quality services through consultations, Title VI training, clinical oversight, education, the development and revision of clinical policies, best practice guidelines, and the advancement of research.

Division of Planning, Policy, and Legislation (DPPL) coordinates departmental legislative, rulemaking, and CPO Policy 2013-007 subrecipient monitoring activities, provides planning and support for the Statewide and Regional Planning and Policy Councils, prepares the Mental Health Block Grant Application, SAMHSA Annual Report, Joint Annual Report to the Governor, Three-Year Plan, and the Annual Needs Assessment.

Office of Research supports the Department's mission by collecting, analyzing, and disseminating data in collaboration with customers to maintain dashboards, evaluate programs and services, and to develop an array of quality data products to inform mental health and substance abuse service needs, utilization, outcomes, and impact.

Division of Mental Health Services (DMHS) administers and supports a diverse array of services and supports for individuals of all ages living with mental illness, co-occurring disorders, and/or serious emotional disturbances. DMHS creates, expands, and oversees community-based programs and community support services including affordable housing programs; homelessness prevention services; a full continuum of 24-hour crisis services; wellness and recovery services; peer recovery services; supported employment services; suicide prevention services; geriatric services/PASRR services; disaster MH services; and a comprehensive System of Care-based child, youth, and family supports services.

Division of Hospital Services (DHS) provides oversight of operation of the four Regional Mental Health Institutes (RMHIs) and three private contracted hospitals in East Tennessee for administrative, quality management, program services, and nursing services.

Office of Forensics and Juvenile Court Services (OFJCS) provides oversight of forensic evaluations for adult and juvenile courts and mandatory outpatient treatment services.

Division of General Counsel (DGC) provides comprehensive legal support to the Department including legal and administrative proceedings, conducts internal investigations, reviews contracts for legal sufficiency and administratively processes them, and serves as the privacy officer and counsel for the Department. The General Counsel serves as the Department's chief legal advisor and the Assistant Commissioner overseeing the DGC.

Office of Human Resources (OHR) assists the Divisions and Offices across the department in obtaining and maintaining a workforce that can fulfill the Department's mission and objectives.

Office of Communications (OC) develops internal and external communication including the drafting, production, and distribution of news releases and statements to the media, publication of quarterly

Goal 1: Actively work with RMHI leadership continuing efforts to operate cost effective, efficient, and outcomes-driven hospital services

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Hospital Services (DHS)	Improve resource connections for the uninsured by increasing the number of completed Behavioral Health Safety Net of TN (BHSN) enrollment applications made at the time of discharge from each Regional Mental Health Institute (RMHI)	Increase the number of individuals connected with community resources at the time of discharge from an RMHI	> 900 BHSN applications complete across four RMHIs	Number of BHSN of TN applications completed at the four RMHIs
	Improve resource utilization across systems by increasing the use of telehealth to conduct admission evaluations across all four RMHIs	Improve resource efficiency for RMHI admissions staff, law enforcement, and emergency department (ED) staff	> 4,000 telehealth admission evaluations at all four RMHIs	Number of telehealth admission evaluations completed across all four RMHIs
	Improve collection rates for those with a contracted payer source that are admitted to the RMHIs	Increase collection of revenue dollars by timely submission of clean claims using the Waystar Clearinghouse platform	Six-month rolling average collection rates on contracted payer claims for those admitted to a RMHI will meet or exceed 90% (calculated using 181-day delay)	Percentage of six-month rolling average collection rates on contracted payer claims for those admitted to a RMHI
	Provide access to inpatient services for uninsured individuals in Regions 1 & 2	Serve uninsured individuals needing inpatient services within Regions 1 & 2	>2,500 uninsured discharges from three contracted private hospitals in Regions 1 & 2	Number of uninsured discharges from three contracted private hospitals
	Provide access to psychiatric inpatient services at all four RMHIs	Serve individuals needing psychiatric inpatient services at all four RMHIs	>7,500 admission across all four RMHIs	Number of admissions across all four RMHIs
Office of Forensics and Juvenile Court Services (OFJCS)	Provide court ordered inpatient forensic evaluations and treatment services for defendants referred by outpatient evaluators	Provide inpatient forensic services in the least restrictive hospital setting	No more than 15% of all inpatient defendants will be admitted to the Forensic Services Program (FSP) for inpatient forensic evaluation and treatment	Percentage of all inpatient defendants admitted to the FSP for inpatient forensic evaluation and treatment

Goal 1: Actively work with RMHI leadership continuing efforts to operate cost effective, efficient, and outcomes-driven hospital services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Research	Create the State Hospital Readmission (SHR) data file with information about the clients served by RMHIs using the data warehouse	Use the SHR data file to profile population, diagnostic and readmission trends for clients receiving services in state psychiatric hospitals	One SHR automated data file will be compiled and contain information for about 7,500 individuals receiving services in psychiatric hospitals operated by the Department	Number of State Hospital Readmission (SHR) data files submitted to the Substance Abuse and Mental Health Services Administration (SAMHSA) by March 1
	Create standardized and ad hoc data products in collaboration with DHS to inform policy and practice	Prepare data products to illustrate trends and variations in services for psychiatric hospitals operated by or under contact with TDMHSAS	A minimum of four data products will be generated	Number of data products generated for DHS

Goal 2: Expand access to low-cost, high-quality, outcomes-oriented community mental health services

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Planning, Policy, and Legislation (DPPL)	Provide technical assistance to support effective operation of Regional Councils	Effective operation of Regional Councils	Four quarterly conference calls or in-person meetings with the seven Regional Council Leadership Teams	Number of quarterly conference calls with the Regional Council Leadership Teams
	Identify mental health and substance abuse service needs and supports in the community through annual needs assessment	Statewide needs assessment will be conducted annually	One statewide needs assessment per year will be completed with the seven Regional Councils, Adult Committee, Children’s Committee, and the Consumer Advisory Board	Number of statewide needs assessments per year
	Provide update to Statewide and Regional Councils re: how TDMHSAS is responding to various top needs identified by multiple regions (Department update)	Department update will be completed annually	One Department update will be completed annually to share with the Statewide and Regional Councils	Number of Department updates per year

Goal 2: Expand access to low-cost, high-quality, outcomes-oriented community mental health services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Policy, Planning, and Legislation (DPPL)	New members representing prevention/anti-drug coalitions will be added to each Regional Council as vacancies occur	Increase the number of prevention/anti-drug coalition representatives on each Regional Council	A prevention/anti-drug coalition member representative will be added to each Regional Council as vacancies occur	Number of prevention/anti-drug coalition member representatives on each Regional Council
	New members representing substance abuse will be added to each Regional Council as vacancies occur	Increase the number of substance abuse representatives on each Regional Council	A substance abuse member representative will be added to each Regional Council as vacancies occur	Number of substance abuse member representatives on each Regional Council
	New members representing a children and youth provider and/or family member will be added to each Regional Council as vacancies occur	Increase the number of children and youth providers and family members on each Regional Council	A children and youth provider and/or family member representative will be added to each Regional Council as vacancies occur	Number of children and youth providers and/or family members on each Regional Council
	New members representing a consumer and family member will be added to each Regional Council as vacancies occur	Increase the number of consumer and family member representatives on each Regional Council	One consumer and family member representative will be added to each Regional Council as vacancies occur	Number of consumer and family member representatives on each Regional Council
	Engage in rulemaking activity	Update the rule version of Tennessee’s controlled substances schedules I, II, III, IV, and V	100% of the rules will be filed to update Tennessee’s controlled substances schedules I, II, III, IV, and V	Percentage of rules filed to update Tennessee’s controlled substance schedules I, II, III, IV, and V
	Monitor legislative session and update Commissioner and staff	Produce an annual summary of legislative activity (“Legislative Summary”) from the current year’s legislative session regarding subject matter related to TDMHSAS	100% of the Department’s executive leadership team and RMHI chief officers will receive the Legislative Summary	Percentage of the Department’s executive leadership team members and RMHI chief officers who receive the Legislative Summary

Goal 2: Expand access to low-cost, high-quality, outcomes-oriented community mental health services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Research	Implementation of an integrated data warehouse to provide cross-division data to inform policy and practice	Operationalize a data governance plan describing how the data warehouse will automate federal reporting, standardize processes for data use and release across divisions, and define roles and decision rules for using the data warehouse	One annual Client Level Data (CLD) file containing basic client information combines information from DHS and DMHS.	Number of automated CLD files generated for federal Mental Health Block Grant (MHBG) reporting
	Conduct program evaluations that can be used to improve program quality in the community for mental health and substance abuse programs	Complete program evaluations for mental health and substance abuse programs in the community	Four program evaluations for TDMHSAS behavioral health programs will be completed	Number of program evaluations completed
	Complete the Uniform Reporting System Tables (URS) containing information about the characteristics of individuals receiving publicly funded mental health services in Tennessee for SAMHSA	Generate URS reports to comply with federal Mental Health Block Grant reporting requirements	The URS report will be compiled and include information about individuals receiving publicly funded mental health services	Number of URS data reports submitted to SAMHSA
	Create data products to compile information for policy makers, the public, and TDMHSAS leadership about behavioral health service needs, utilization, and impacts	Publish the data products about TDMHSAS service needs, utilization, and impacts	Complete 16 data products that will be made available to the public	Number of data products accessible on the Department's website
Office of Forensics and Juvenile Court Services (OFJCS)	Provide court ordered forensic evaluations on an outpatient basis for courts statewide	Maximize the delivery of forensic services in the community rather than on an inpatient basis	75% of defendants a year statewide will be forensically evaluated on an outpatient basis without the need for forensic inpatient services	Percentage of outpatient forensic evaluations completed in the community without a referral for inpatient forensic services

Goal 2: Expand access to low-cost, high-quality, outcomes-oriented community mental health services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Forensics and Juvenile Court Services (OFJCS)	Provide mental health and substance abuse screening to improve access to services for youth in juvenile courts	Establish systematic screening for mental health and substance abuse needs of youth in juvenile courts	2,500 screenings will be conducted with the Juvenile Justice version of the Child and Adolescent Needs and Strengths (CANS) survey in Juvenile Courts across the state	Number of screenings conducted in Juvenile Courts statewide
Division of Mental Health Services (DMHS)	Provide a twenty-four hours per day, seven days per week, three hundred sixty-five days per year (24/7/365) telephone call routing system for individuals experiencing a behavioral health crisis	Improve the effectiveness of the Crisis Services Continuum network of services statewide	128,000 of calls to the statewide crisis hotline	Number of calls to the statewide crisis hotline (855-CRISIS-1) (all ages) providing access and referral to crisis services to individuals experiencing a mental health crisis
	Mobile crisis services are non-hospital community-based services offered twenty-four hours per day, seven days per week, three hundred sixty-five days per year (24/7/365) for behavioral health situations	Improve the effectiveness of the Crisis Services Continuum network of services statewide	75,000 of individuals will receive a face-to-face crisis assessment	Number of Tennesseans (all ages) accessing emergency psychiatric services and assessment from a mobile crisis responder or at a crisis walk-in center
	Crisis services are customized to meet the individualized needs of each person in the least restrictive and most appropriate setting to alleviate or stabilize their symptoms as well as strengthen or develop their support system and coping skills to allow each individual to remain in his or her community	Improve the effectiveness of the Crisis Services Continuum network of services statewide	65% of individuals that receive a face-to-face crisis assessment will be diverted to less restrictive community care	Percentage of Tennesseans who received face to face psychiatric crisis assessments who were diverted from hospitalization and referred to less restrictive community care (Crisis Stabilization Unit (CSU) , Respite or Community Outpatient Services)

Goal 2: Expand access to low-cost, high-quality, outcomes-oriented community mental health services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Mental Health Services (DMHS)	CSUs are licensed by the state to offer twenty-four hours per day, seven days per week, three hundred sixty-five days per year (24/7/365) intensive, short-term stabilization and behavioral health treatment for those persons whose behavioral health condition does not meet the crisis for involuntary commitment to a psychiatric hospital or other treatment resource and who cannot be appropriately and/or safely managed in a less restrictive environment	Improve the effectiveness of the Crisis Services Continuum network of services statewide	9,000 of individuals admitted to a state supported CSU for treatment services	Number of admissions to the eight CSUs (adults) - Note: three new to be built in FY23
	Behavioral Health Safety Net of Tennessee (BHSN of TN) provides core, essential, outpatient, mental health services to uninsured Tennesseans who meet program eligibility criteria through a network of participating community mental health centers	Increase access to behavioral health services for uninsured/indigent adults and uninsured/underinsured children in Tennessee, and in geographic and population areas	40,000 served by the BHSN of TN	Number of uninsured/indigent adult Tennesseans having a serious mental illness (SMI) and number of uninsured/underinsured Tennessee children having a serious emotional disturbance (SED)
	Provide older adult services including agency and in-home counseling to seniors unable to access services outside of their home; care management, clinical social work, peer support, and geriatric psychiatry assisting seniors and their families to meet their behavioral health needs	Enable older adults to improve their quality of life through care management and to develop skills that will help them to live in the community as independently as possible	600 served by the older adult program	Number of older adults served annually with care management services such as outreach, screening, assessment, linkage, in-home therapy, and other supportive services

Goal 2: Expand access to low-cost, high-quality, outcomes-oriented community mental health services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Administrative and Regulatory Services (DARS)	Work cooperatively with other state health and social service agencies to address allegations of abuse, neglect, and mistreatment of service recipients	Improved and safer environments for service recipients	If appropriate, 10 individuals will be referred for placement on Department of Health (TDH) Abuse Registry thereby prohibiting their working with vulnerable population	Number of individuals referred for placement on TDH Abuse Registry
	Conduct a comprehensive review of licensure rules to identify recommended changes	Follows annual review of all licensure rules, recommend changes, as needed	Two licensure rules will be proposed for amendment	Number of licensure rules proposed for amendment
	Train licensure surveyors across all three regional offices on the use of the licensure database and policies for investigations and inspections	Training of all licensure surveyors across all three regional offices to ensure consistent application of licensure rules and procedures	100% of licensure surveyors will participate in training	Percentage of licensure surveyors participating in training
	Monitor department subrecipient agencies according to the department's fiscal year monitoring schedule to ensure subrecipient agencies' compliance with fiscal requirements of department grant contracts	Subrecipient agencies compliance with fiscal, state and federal requirements of department grant contracts.	100% of scheduled agencies will be monitored	Percentage of subrecipient agencies on department plan monitored
	Provide training and technical assistance to subrecipient grantees	Training and technical support to grantees regarding compliance with fiscal reporting requirements of subrecipient contracts	15 trainings or technical assistance events offered to contract agencies	Number of trainings or technical assistance events offered to contracted agencies
Division of General Counsel (DGC)	Ensure contracts are submitted to the Central Procurement Office on or before deadlines	Timely submission of contracts	85% of agency contracts will be timely processed	Percentage of agency contracts submitted by deadline

Goal 2: Expand access to low-cost, high-quality, outcomes-oriented community mental health services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of General Counsel (DGC)	Ensure state representation for RMHIs at commitment and conservatorship hearings and other hearings/court matters involving the Department	State representation of RMHIs at commitment and conservatorship hearings and other hearings/court matters involving the Department	100% state representation of RMHIs at commitment and conservatorship hearings and other hearings/court matters involving the Department	Percentage of state representation of RMHIs at commitment and conservatorship hearings and other hearings/court matters involving the Department
	Ensure state representation at administrative proceedings governed by the Uniform Administrative Procedures Act (UAPA) – Tennessee Code Annotated Title 4, Chapter 5	State representation at administrative proceedings to resolve disputes between citizens, state employees, and governmental agencies	100% state representation at administrative proceedings	Percentage of state representation at administrative proceedings

Goal 3: Expand access to low-cost, high-quality, outcomes-oriented community substance abuse services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Substance Abuse Services (DSAS)	Ensure individuals who inject drugs are receiving treatment	All contracted treatment providers will provide treatment services to individuals who inject drugs	40% of individuals who disclose they inject drugs will receive treatment services	Percentage of individuals receiving treatment services who disclose they inject drugs
	Provide an array of adult and adolescent recovery services to increase chances of long-term recovery *	Provide recovery services that promote long-term recovery	12,500 adult and adolescent consumers will receive long-term recovery support services	Number of individuals enrolled in long-term recovery support services
	Provide trauma-informed care services to individuals who have disclosed experience with trauma	Treatment agencies will provide assurance that individuals who have experienced trauma are receiving trauma informed care services	12,000 individuals who disclose experience with trauma will receive trauma-informed care	Number of individuals who have been screened for trauma
<i>*Noted in the 2022 Needs Assessment Summary</i>				

Goal 3: Expand access to low-cost, high-quality, outcomes-oriented community substance abuse services (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Substance Abuse Services (DSAS)	Establish new recovery homes (i.e. Oxford Houses) statewide *	Expand self-supporting and drug free homes through Oxford House International for individuals in recovery	Increase the number of recovery homes by 12 for a total of 147	Number of recovery homes (i.e., Oxford Houses)
	Provide Medication-Assisted Treatment (MAT) services (methadone, naltrexone, and buprenorphine) for individuals with opioid use disorder (OUD)	Increase the number of OUD diagnosed individuals receiving MAT	4,100 individuals will receive MAT services for OUD	Number of individuals receiving MAT services for OUD
	Provide training and technical assistance to SUD treatment providers on opioid and other substance use during pregnancy, access to gender-related responsive services, and other related information	Access to quality SUD treatment for women diagnosed with SUD who are pregnant and/or who have dependent children	The number of women who are pregnant and/or who have dependent children accessing SUD treatment will be 1,300	Number of women who are pregnant and/or who have dependent children accessing SUD treatment
	Ensure that women who are eligible, have the opportunity to participate in the Residential Recovery Court program	Admit women in the Residential Recovery Court program	Ten women who will access the Residential Recovery Court program	Number of women admitted into the Residential Recovery Court program
<i>*Noted in the 2022 Needs Assessment Summary</i>				
Office of Strategic Initiatives	The Tennessee Recovery Navigator Program seeks to connect individuals entering emergency departments to recovery services after being admitted due to an overdose, experiencing active withdrawal, or being identified as having a SUD	Increase the number of individuals being referred to the Tennessee Recovery Navigator Program by our partnered hospitals	3,100 individuals will be served by the Tennessee Recovery Navigator Program	Number of individuals served by the Tennessee Recovery Navigator Program

Goal 3: Expand access to low-cost, high-quality, outcomes-oriented substance abuse services

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Strategic Initiatives	The Tennessee Recovery Navigator Program seeks to connect individuals entering emergency departments (EDs) to recovery services after being admitted due to an overdose, experiencing active withdrawal, or being identified as having a SUD	Ensure the individuals being referred to the Tennessee Recovery Navigator Program by our partnered hospitals are consistently connected to treatment and recovery services	Of the individuals served by the Tennessee Recovery Navigator Program, 75% will be connected to treatment and recovery services	Percentage of individuals connected to treatment and recovery services by the Tennessee Recovery Navigators Program
Office of Faith-Based Initiatives	Certify recovery congregation/community organizations on the Tennessee Faith-Based Community Initiatives.	Expand access to recovery support services through the faith community	1,600 congregations will be contacted for expansion of faith-based program	Number of congregations contacted for expansion of faith-based program
	Certify recovery congregation/community organizations on the Tennessee Faith-Based Community Initiatives.	Expand access to recovery support services through the faith community	Increase the number of certified faith-based recovery congregations by 144 for a total of 1,204. The goal is to have 2,025 certified by year 2025.	Number of newly certified faith-based congregations/organizations certified

Goal 4: Provide evidence-based interventions focusing on specialized populations

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Forensics and Juvenile Court Services (OFJCS)	Provide training on standards and practices for certification for evaluators conducting court-ordered forensic mental health evaluations of criminal defendants ordered by Tennessee courts	Ensure that mental health professionals receive training for certification to conduct court-ordered forensic mental health evaluations by contracted community mental health agencies and the RMHIs	Four Forensic Evaluator Training sessions will be offered each fiscal year	Number of Forensic Evaluator Training sessions

Goal 4: Provide evidence-based interventions focusing on specialized populations (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Mental Health Services (DMHS)	Provide mental health prevention and early intervention services and supports to children under age 6 and their families	Regional Intervention Program (RIP) will ensure that young children and their families experiencing challenging behaviors receive services and supports	375 children under the age of 6 and their families will receive prevention and early intervention services and supports through RIP to ensure that young children and their families experiencing challenging behaviors receive services and supports	Number of young children experiencing challenging behaviors served by RIP
	Provides treatment options for juvenile courts to utilize across the state, specifically services and training that are evidence-based and outcomes oriented	Ensure resiliency, well-being, and overall connectedness to the community for juvenile justice involved youth	1,400 juvenile justice youth will be served in the community through the Juvenile Justice Reform Local Diversion Grant	Number of juvenile justice involved youth diverted to evidence-based and community-based services
Office of Faith-Based Initiatives	Educate the public, promote prevention, reduce stigma, and spread awareness through the Lifeline Peer Project	Increase the number of Lifeline Peer Project trainings provided	850 Lifeline Peer Project trainings will be provided within the community	Number of Lifeline Peer Project trainings provided
	Educate the public, promote prevention, reduce stigma, and spread awareness through the Lifeline Peer Project	Increase the number of individuals who receive a Lifeline Peer Project training	88,700 individuals will receive a Lifeline Peer Project training	Number of individuals who receive a Lifeline Peer Project training
	Educate the public, promote prevention, reduce stigma, and spread awareness through the Lifeline Peer Project	Educate the public, promote prevention, reduce stigma, and spread awareness through the Lifeline Peer Project	3,000 referrals to treatment, recovery support, and other services will be made through the Lifeline Peer Project	Number of referrals to treatment, recovery support, and other services through the Lifeline Peer Project

Goal 4: Provide evidence-based interventions focusing on specialized populations (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Faith-Based Initiatives	Educate the public and spread awareness surrounding Tennessee Faith-Based Community Initiatives on how it connects the community with recovery and support services	Expand awareness and education to the public on how Tennessee Faith-Based Community Initiatives connect the community with recovery and support services	550 Tennessee Faith-Based Community Initiatives trainings will be provided	Number of Tennessee Faith-Based Community Initiatives trainings provided
	Educate the public and spread awareness surrounding Tennessee Faith-Based Community Initiatives on how it connects the community with recovery and support services	Expand awareness and education to the public on how Tennessee Faith-Based Community Initiatives connect the community with recovery and support services	17,000 individuals will receive the Tennessee Faith-Based Community Initiatives training	Number of individuals who receive a Tennessee Faith-Based Community Initiatives training
	Educate the public, promote prevention, reduce stigma, and spread awareness through the Collegiate Recovery Initiative	Increase the number of Collegiate Recovery trainings provided on campuses	50 trainings will be provided to post-secondary institutions	Number of trainings provided
	Educate the public, promote prevention, reduce stigma, and spread awareness through the Collegiate Recovery Initiative	Increase the number of new individuals who receive a Collegiate Recovery training on campuses	1,250 new individuals will receive a Collegiate Recovery training in post-secondary institutions	Number of individuals who receive a Collegiate Recovery training
	Educate the public, promote prevention, reduce stigma, and spread awareness through the Collegiate Recovery Initiative	Increase the number of new post-secondary institutions contacted for expansion of the collegiate recovery program	110 new post-secondary institutions will be contacted for expansion of the collegiate recovery program	Number of new post-secondary institutions contacted
	Educate the public, promote prevention, reduce stigma, and spread awareness through the Collegiate Recovery Initiative	Increase the number of new recovery allies recruited on collegiate campuses	700 new recovery allies will be recruited on collegiate campuses	Number of new recovery allies

Goal 4: Provide evidence-based interventions focusing on specialized populations (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Division of Substance Abuse Services (DSAS)	Provide online and regional face-to-face educational and training opportunities for prevention, treatment, and recovery support professionals	Increase the knowledge of evidence-based programs and strategies for the prevention, treatment, and recovery support workforce	3,000 substance abuse professionals will receive training on prevention, treatment, and recovery support services	Number of substance abuse professionals receiving training
	Substance Abuse Prevention Coalitions will address prescription drug misuse in their communities	Decrease non-medical use of pain reliever for young adults, ages 18-25	Reduce the percentage of young adults, ages 18-25, who report using pain relievers for non-medical use from 7.75% to 5.2%	Percentage of young adults, ages 18-25, who report using pain relievers for non-medical use
	Regional Overdose Prevention Specialists (ROPS) will address the opioid crisis through naloxone distribution	Increase the number of naloxone kits distributed to individuals at high risk of overdose	Increase the number of naloxone kits distributed to individuals at high risk of overdose to 120,000	Number of naloxone kits distributed to individuals at high risk of overdose
Office of Communications (OC)	Produce news releases, media advisories, and Departmental promotional materials	Increase the awareness of the department's actions to execute mission and achieve vision	Distribute 20 news releases, media advisories, and Departmental promotional materials	Number of news releases, media advisories, and Departmental promotional materials
	Engage with the public, providers, and staff through social media posts	Provide education, awareness, and prevention information through Facebook and Instagram posts	300 Facebook and Instagram posts	Total number of Facebook and Instagram postings per year
	Promote and publish the Update, featuring department and provider news on a monthly basis	Communicate directly with vital stakeholders including but not limited to the state employee workforce, providers, advocacy groups, individuals receiving services, and lawmakers	Produce 12 Update Newsletters	Number of Update newsletters produced
	Distribute emails with current behavioral health news	Email summaries on current news, research, and trends to department staff and providers	225 email summaries will be sent	Number of email summaries

Goal 4: Provide evidence-based interventions focusing on specialized populations (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Communications (OC)	Provide the public online resources for mental health and substance abuse services, programs, and initiatives via our website	Promote prevention, early intervention, treatment, habilitation, and recovery support services via the web	800,000 unique web page views	Number of unique web page views
Division of Clinical Leadership (DCL)	Provide mental health and suicide prevention information to veterans	Increase veteran’s awareness of mental health and suicide prevention	400 veterans will receive mental health suicide prevention information	Number of veterans who receive mental health and suicide prevention information
	Develop and implement suicide prevention plans and activities in the faith communities	Prevent suicide in the faith communities	45 community faith leaders will develop and implement suicide prevention plans and activities	Number of faith communities who develop and implement suicide prevention plans and activities
	Ongoing implementation of Therapeutic Intervention, Education, and Skills (TIES) serving children at imminent risk of being placed in state custody	Through TIES, serve families with at least one caregiver with a substance use issue and with children at-risk of being placed in state custody	80% or more children have successfully remained in their homes with at least one caregiver with a substance abuse issue	Percentage of TIES children that have been safely and successfully maintained in their homes
	Monitor opioid treatment programs to improve quality of care	Enhance patient care, safety and improve patient outcomes in opioid treatment programs	Two monitoring visits per year will be conducted on opioid treatment programs	Number of monitoring visits to opioid treatment programs in compliance with standards
Office of Strategic Initiatives	The Tennessee Recovery Navigator Expansion Pilot seeks to implement evidence-based strategies to improve the care of individuals presenting to the pilot hospital ED with OUD; Specifically, the pilot seeks to support the hospital in utilizing ED buprenorphine induction for opioid related withdrawal	Support the pilot hospital in implementing ED buprenorphine induction guidelines and provide buprenorphine withdrawal management and referral options to appropriate individuals	112 individuals will be dispensed buprenorphine in the pilot hospital ED	Number of individuals dispensed buprenorphine in the pilot hospital ED

Goal 4: Provide evidence-based interventions focusing on specialized populations (continued)

Division:	Programs and actions:	What we expect to accomplish?	How many we will serve?	How we know we have succeeded?
Office of Strategic Initiatives	The Tennessee Recovery Navigator Expansion Pilot seeks to implement evidence-based strategies to improve the care of individuals presenting to the pilot hospital ED with OUD; the pilot seeks to connect individuals at high risk for opioid related overdose with the lifesaving intervention of take-home naloxone	Support the pilot hospital in creating procedures for dispensing take home naloxone directly to patients at high risk for opioid related overdose	36 individuals will be dispensed naloxone in the pilot hospital ED	Number of individuals dispensed naloxone in the pilot hospital ED
	The Project Rural Recovery Program seeks to engage and treat rural populations who are currently underserved to improve their health status	Provide mobile, integrated physical health, mental health, and substance use services to rural Tennesseans in 20 counties	703 unduplicated individuals will have 2 or more visits per year	Number of unduplicated individuals who have 2 or more visits per year
	The Project Rural Recovery Program seeks to engage and treat rural populations who are currently underserved to improve their health status	Provide mobile, integrated physical health, mental health, and substance use services to rural Tennesseans in 20 counties	2,134 unduplicated individuals will be served through the Project Rural Recovery Program per year	Number of unduplicated individuals served per year
