Q. What is the difference between Officer and Enlisted plates?

A. Tennessee National Guard officers are allowed Guard license plates each year at the normal state and county fee. One plate will display a number, based on rank of the officer within the Tennessee National Guard, as of 10 June of the issue year, example – “240”. The second plate will bear the same number with the designation “A” following the number, example – “240A”, “240B”. There will only be three plates with the same numerical designation, any additional plates requested beyond 3 will be enlisted plates.

A reminder - Enlisted plates are issued without regard to rank. Numbers are at random and no specific plate number is authorized.
