		All minutes were voted on individually and
		approved.
S. Loyd	Our Why	S. Loyd shared photos from a prom event at Mending Hearts, which is a treatment facility for
3. LUyu	Our winy	women in Nashville.
		Council Office is hiring for the following positions:
M. Shelton	OAC Office Staffing Updates	 Two (2) Accountant 3 positions serve as fiscal monitors for the Community Grants One (1) Policy Analyst ensure policies are in place for Council
		The most recent statement Council Office has is April 2024:
M. Shelton	Fiscal Update	> Total Available Cash is \$170,823.557.38
		S. Loyd stated that there is a large portion of the
		cash available committed and it is not just sitting.
		M. Shelton reminded Council members to please
M. Shelton	Travel Claims for Memphis Meeting	submit hotel receipts and completed travel claims to the OAC Office email provided.

		End of Fiscal Year is Sunday, June 30, 2024 and all claims must be approved by end of day Friday, June 28, 2024.
		M. Shelton discussed the ComptrollersPerformance Audit updates:Auditors gave permission to share this
		 information but it subject to change during the review of the report Information is not final. Final report will be sent to the Office and Council
		There are three (3) levels of items that they find or observe :
		 Issue is an item that is not in report Observation will be in the report Finding requires a Corrective Action Plan
		Preliminary Feedback:
M. Shelton	Comptroller's Performance Audit	 Issue: Commissioner Williams was not listed as an ex officio member in minutes Issue: Incorrect term dates on the Oaths of Office Council Office provided oaths for Council members who had incorrect term dates and CMI staff notarized oaths on day of this meeting (6.18.24) Issue: First meeting minutes did not reference the virtual option
		Observation: February 22, 2024 meeting minutes did not include 13 minutes of discussion and a motion
		 Observation: Inconsistency on how to treat interest/department expenses when calculating county payments -reference county payments \$27,000 in interest and not much more of department expenses

OAC Office did not taken this into consideration when paying counties on the first county disbursement On the second county disbursement S7 million of interest and over \$500.00 was used towards departmental expenses which were salaries and travel claims. M. Shelton advised the Comptroller auditors that the OAC Office would continue to carve out the interest and departmental expenses. This money will not be considered when paying the counties their 35%. Finding: Lack of policy and procedures M. Shelton notified the comptroller auditors that we have had a position approved by the Council for a Policy Analyst M. Shelton advised she was waiting for budget approval from the Governor. Also had to wait until the end of legislative session for the position to be approved by the Budget Office Then had to have the position created by the Department of Human Resources M. Shelton notified the Council that the Performance Hearing is scheduled for October 15th, 2024 at 9:00 a.m. CST in the Cordell Hull Building. Hearing will most likely be livestreamed. All are invited to attend and M. Shelton advised she will share more information closer to the date. M. Shelton OAC Member Terms Governor Lee's Appointees:		T	0.40.000 11.1

wi. Shelton OAC Weiliber Terms Governor Lee's Appointees.	M Shelton	OAC Member Terms		
	IVI. SHEILUH	OAC MEMBER TERMS	Governor Lee's Appointees.	

		OAC members appointed by Governor Lee is Stephen Loyd, Clay Jackson, Armando Fontes, Mike Flynn
		 Governor appointees serve a 3-year term Each member's term is noted on their bio on the OAC website These three-year terms end on June 30th,
		 2024 All four (4) members have requested to serve another 3-year term OAC Office sent request to the Governor's Office to review
		M. Shelton advised Governor's Office plans to have a response back from Governor Lee by July or August.
		Governor's Office is reviewing other Council's and hope that the members will continue to serve during the appointment process.
		C. Jackson noted that there will be an emergency meeting on July 15 th and he along with three other Council members have been reported.
		He further advised that the Governor's desire is for them to participate in the July 15 th meeting although their term will be officially expired without renewal and that during that interim period they still serve.
		M. Shelton confirmed, yes this is correct.
		E. Rickman-Vaden spoke on the importance of having a Community Advocacy Panel.
E. Rickman- Vaden	Community Advocacy & Outreach & Motion	During the March 18, 2024 OAC meeting, several family members of individuals who passed away due to opioid use disorder spoke during public comment about their loved one's living experiences
		There was a public comment from a guest in attendance requesting the Council to consider

including families with living experiences of opioid use disorder as a part of the Council in some facet.

The Council Office currently has hosted three (3) Town Hall meetings lead by Dr. Loyd that provided opportunities for the community to become more engaged in the work of the Council and communicate the gaps in the service delivery system

She noted that the Council Office would like to propose a Community Advocacy Panel composed of individuals and family members with living experiences of opioid use disorder that would provide recommendations to help improve outcomes of initiatives set by the Council Proposed working structure for the Community Advocacy Panel:

- Members will have no decision-making authority.
- The Council Office proposes the CAP have sixteen (16) members across the state: two (2) members from each of the state's seven (7) Planning and Policy Regions and two (2) members represented from organizations which is consistent with other state councils. (ex: National Alliance on Mental Illness; Tennessee Association for Alcohol, Drug and Other Addiction Services; Tennessee Association for Mental Health Organizations)
- There will be a selection process for those who receive a referral to serve. – Members will meet quarterly in a virtual format.
- Members will be provided onboarding. (ex: purpose, structure, expectations, etc.)

If Council approves the development of the Community Advocacy Panel, Council staff will begin developing the proposal for approval.

K. Moore questioned if the Policy Analyst would be part of developing this division/Panel.

M. Shelton noted that yes they would work with E. Rickman-Vaden to draft guidelines.

L. Tipton wanted to know what sectors these Panel members would come from.

L. Tipton requested that if the Council moves forward that he proposal includes some of the demographics that we are wanting to see represented across the state in different areas that received applications or intend to receive an application.

L. Tipton also noted there should be a process for the candidates to be approved that mirrors how Council members are appointed.

She requested that the Panel be more of an advocacy group comprised of members who have experienced opioid use with their family, sectors that they work in and diverse group.

C. Jackson asked if the Panel meetings would be considered working groups or subcommittees or Sunshine meetings as well.

- S. Boukli advised since Panel would not have any decision-making authority they would not per se be subject to the Open Meetings Act.
- S. Boukli did encourage the Council to draft policies or bylaws requiring those meetings to be public facing because that serves the spirit of the Council and include that Panel members do not have decision-making authority.

J.Urban advised if there is ever recommendations or requests that come out of this Community Board through the Council the Council will need

		to fully consider the organization and the action as its own point of business and not to adopt any recommendation from the board as sort of a rubber stamp. C. Jackson advised give consideration to always have at least one staff member and one Council member in attendance of Panel. C. Jackson also advised that he would like to include that the Panel be in attendance of Council meetings.
		C. Jackson made a motion to give the Executive Director the authority to begin a process for developing a community advocacy program.
		Motion seconded by T. Farmer.
		M. Shelton conducted a roll call for Council vote as follows:
		Armando Fontes—absent Brian Buuck-yes Casey Cox-yes Charme Allen-yes Clay Jackson-yes Karen Pershing-yes Ken Moore-yes Lisa Tipton-yes Mike Flynn-yes Shayne Sexton-yes Stephanie Vanterpool-yes Stephen Loyd-yes Tim Fournet- yes Tommy Farmer-yes Wayne Wykoff-yes
		S. Loyd advised motion carries. M. Shelton reminded the Council of their vote to
M. Martell J.Dunlop	SAS & County Updates	contract with SAS as a data vendor.
M. Shelton		She further advised that SAS has been compiling data points for the Council and creating

visualizations that they presented during the meeting.

J. Dunlop, lead analytical consultant with SAS. He discussed the existing 2023 and the beginning of 2024 county level disbursement data.

This is the funds being dispersed directly to the counties as well as their reporting on the allocation and spend on these funds.

This data is expected to come in both annually on the disbursement level as well as semiannually for the allocation and the spend data, and to be updated as that data arrives.

The data source is publicly available data that is being assembled by the Council on the disbursements as well as what is being published for these semiannual reports.

J. Dunlop further advised that they created visualizations to try and show things both statewide at a county level, the amount of disbursement, the proportion of spend allocation and to allow this to be filtered at the annual levels at the aggregate level overall years, as well as being able to dig into particular counties or areas of the state to view those trends as they occur.

He noted that there is additional filtering that is available within the dashboard itself for the Council and staff use in order to view that in a more detailed way.

In addition, there is an export feature in order to create these PDF output for the visualizations so that they're static output that can be distributed by the Council.

M. Shelton advised the Council that she will have access to the interactive dashboard at the office level and then it will print out PDF's that will post on the Opioid Abatement Council's website.

M. Shelton plans to post these documents in August.

M. Shelton also advised that she is going to meet with the counties through David Conner, who is with the Tennessee County Services Association.

She is also going to meet with the counties in July and let them see these visualizations because it represents the information they are sending back to us in their semiannual reports.

M. Shelton advised this will be put into production once the Council Office receives a semiannual report from the counties.

The visualization will then be updated and there will be a print out that the Council Office will post on the Opioid Abatement Council website.

J. Dunlop presented a demo showing the statewide funding level for this particular year.

He noted that the expectation is the PDF output is going to be annualized, so the sum total aggregate data will be available staff internally, but the individual PDFs will be produced at an annual level.

M. Shelton noted that the map shows how much money has ben dispersed to the county and then how much funding has been spent and this is aggregated across all 95 counties.

She noted that 26% of the funding that has been dispersed to the counties has been spent, and that is self-reporting from the counties and this is received from their semi-annual report.

M. Shelton noted that the website will have printable PDFs. It will not be interactive but the Council Office will have access to the interactive dashboard.

Once it is in production M. Shelton noted she will demonstrate this to the Council and advised that one this is in production individual counties can be tracked and eventually they will be able to track how the funding has been spent per strategy.

M. Shelton advised that the Council Office has directed the counties to put their funds in an interest-bearing account.

She advised she is working with counties to make sure that the reporting was done correctly, but this will be another printable so that the top counties that have spent all of their money and then going as it cascades down to the next county.

- M. Shelton advised once PDF is printed they will make sure that all the county's names are listed on the map or they will not add any of the names for consistency.
- M. Shelton advised she has weekly meetings with SAS and has had a great experience with the work they are doing.
- M. Martell presented on the two efforts they are partnering with the Council:
 - Fatal nonfatal statistical model which is a predictive model set to analyze fatal and non-fatal overdoses for Tennessee counties.

Release Timeline: August 2024

Data:

Publicly available reference datasets including Census, CDC, and TN DOH data.

Output:

Interactive Visual Dashboard that displays model outcomes and allows users to manipulate results.

Grant Reporting Analytical Dashboard for county-level disbursement, allocation, and spend of state provided funding.

Release Timeline: Early September

Data:

Grant Disbursements
Grant Spend

Output:

Interactive Visual Dashboard on grant reporting showing disbursement, allocation, and spend of grant funding.

M. Shelton informed the Council that she met the Chief Data Officer for the Department of Health, Stephen Espy and plans to partner with him and collaborate and have data exchange.

C. Jackson wanted to make sure that the bed board information is working with the reporting with SAS.

M. Shelton advised it is not working as of this meeting date.

Purpose of SAS:

- Council will be able to establish baseline metrics Better understand some of the underlying factors driving Tennessee's opioid/SUD numbers
- Better prioritize funding toward appropriate prevention, education, harm reduction, treatment, and recovery programs.
- Serve as a resource for the Executive Director and staff in providing key information and analytic capacity to

		support efficient and effective grant review and funding decisions. Provides additional transparency Lays the early foundation the Council can use to track changes in baseline metric trends to better understand impact and outcomes of overarching funding decisions
S. West	2024 Community Grants- Updates	S. West presented on the 2024 Community Grants updates as follows: Target Contract Start Date July 1, 2024 March – Grant awards approved by OAC 116 awards; 85 distinct organizations approximately \$81million year 1 approximately \$231 over 3 years April - Contract templates approved by OAC May - Grantees contacted by Grants Analysts to begin contracting process Grantees to provide Edison ID numbers Grantees to review draft contract and provide needed information Grantees to provide detail budgets June – Ongoing current efforts Continued consultations, support, and assistance to grantees Enter all agency budgets and contract information in BCMS
		 Working w/ F&A to make Edison changes Edison training for contract uploads w/ plans to upload into Edison late June July 1 Contract Start

		 Council Office recommends all grantees not to start projects spending funds until they have fully executed contracts Grantees can invoice back to July 1 for any actual true cost incurred after July 1 with a fully executed contract S. West noted the support that has been received from other staff from the Department of Mental Health and Substance Abuse Services.
		S. West informed the Council of one withdrawn award, which withdrew due to logistics that would prevent them from being able to move the project from moving forward.
		S. West explained the contracting process that it takes to execute a contract to grantees.
		Target Date for First Payments:
		 OAC Office is targeting August 2024 for the first payments to the Grantees
		Dependent upon completing all the required contracting and fiscal steps
		 No payments will be disbursed to a Grantee until the agency contract is signed and executed
		M. Shelton presented on what the Council Office has been hearing from the community as follows:
M. Shelton	What We Are Hearing From the Community	 Concerns that the funding was not equitably distributed across the state – particularly absent in West TN. Members have expressed that the review process itself should be openly reviewed and potentially altered to ensure that the process can more evenly support projects across the state.

		 There was some discussion of how the funded projects overlapped and either competed or complemented each other. Members wondered if there would be future emphasis on how any projects that were funded 'fit' in the already funded service delivery system. When projects were evaluating their effects, some seemed to overlap in ways that you wouldn't be able to discern which project had the most impact. There was some note of the conflicts of interest. Though these were obviously stated and very transparently documented, TAADAS folks questioned if the members of the Council who had projects submitted for funding or who intended to be involved as a subcontractor, shouldn't have been reviewed differently. Council members reviewing their colleagues' proposals could still be cause for bias.
		S. Loyd mentioned in other states some Council members do not score grants to clear up any concerns of conflict of interest. S. Loyd noted that several grant applications have been brought to his attention that he felt were really good ideas, but they didn't fit in one of those categories.
		He feels that this and innovation needs to be looked at more going forward.
M. Shelton	Preview: Community Grant Monitoring	Program Monitoring Grants Analysts will be providing program monitoring Fiscal Monitoring – To be created: 2 Accountants being hired will provide fiscal monitoring Monitoring plan based on risk assessment Monitoring tools Template to report information to OAC

Outcomes Reporting- 3 Levels

- > Statewide Population Health
 - Opioid Overdose-fatal and nonfatal (TDOH) measure
 - Statewide population health reporting which there is not a reporting component or the grantees for that.
 - Council is part of the statewide system; what impact are we along with every other agency making on the statewide system
- Strategy
 - Council Office will use process measures for this and
- Grantee
 - What impact is the grantee making at their own individual level
 - Grantee will select one **performance** measure.

The process measures and performance measures will be sent to the Council office on a semiannual basis.

M. Shelton informed the Council that the Community Grants Outcomes Reporting Plan was sent out to all grantees as an essential component to the semiannual report.

Grantees will input information from the 'Impact' question that was listed on their grant application.

- M. Shelton explained the Outcome Measures Worksheet and advised SAS assisted with the development of the document.
- M. Shelton advised she will host four (4) virtual meetings during office hours with the grantees to

		answer any questions on how to complete the Outcome Measures Worksheet.
		L. Tipton asked if the Council Office expects funds will be invoiced and received by August.
		S. West advised grantees will be in position to submit an invoice because their contract should be fully executed through the month of July, so beginning of August they can invoice with any cost for July and the payments would go out in office.
		L. Tipton questioned the relationship between what the Grants Analyst will be evaluating. And if it was more of what is considered internally, the qualitative outcomes process that will be based on the deliverables in the scope of each contract, which is similar to what the department usually does and then this tool will be the outcomes recording plan.
		M. Shelton advised the Grants Analyst portion has not been developed as of this date, but once it is the Council Office will present their role to the Council. S. West further noted that the Grants Analyst will be conducting program monitoring based off the contract.
		There will also be a semiannual report to inform the Council Office on the progress of contract outcome measures
		M. Shelton discussed the funds available for Community Grants that was presented in the February 22, 2024 Emergency meeting as seen below:
M. Shelton S. West	2025 Community Grants	➤ The chart showed the future expected maximum payments from distributors, J&J/Jansen, Publicis, CVS, Walgreens, Allergan, Teva, and Food City. •

- This chart also showed the current balance, minus payments going to the counties.
- The numbers shown were the funds available for the Community Grants.
- ➤ The estimated annual county payments were subtracted from the total payments going into the Trust Fund leaving a current balance (minus expected payment of counties next month) of \$90,731,368.00
- M. Shelton also discussed the approved 2024 & proposed 7-year budgets.
- S. West discussed the Proposed Budget for 2025 Community Grants
 - Started off with the 90 million that was in 2024.
 - Council determined they always would like to move \$10 million balance to reserve.
 - Proposed instead of the 16 million that Council initially was going to be able to put out Community grants this fall will 20 million
 - > Next year it would increase
- C. Jackson had concerns about the administrative cost.

He advised the OAC Office to be conscientious of this.

Options for 2025 Community Grants

- Targeted grants for specific strategy or specific geo area
 - Working with TDOH and SAS to possibly identify gaps & needs
- Allowing current Grantees with 1-year contracts to apply for additional funding

		 Look at the "next on the list" applications from 2024 Community Grants which were not funded (allows for new Grantee organizations) and are ready to implement Limit applications from currently funded Grantees Agencies are asking when the applications will open this year; maybe a combo for new applications and "next on the list"
		The OAC Office Workload:
M. Shelton S. West	OAC Office Workload-To Consider	 The Grants Analysts will begin program monitoring of the 115 contracts – onsite, desk, virtual Providing ongoing support and programmatic consultation Approving monthly fiscal invoices Reviewing semi-annual reports from all 115 Grantees, including Outcomes Reporting
M. Shelton	2025 Community Grants Proposed Timeline	M. Shelton discussed the proposed timeline for the 2025 Community Grants Proposed Timeline as seen below: Decision on grants July 2024 Announcement of Funding development August 2024 Announcement of Funding posted September 2024 Applications open October 2024 Applications close November 2024 Coring complete February 2024 Grantees approved March 2025 Contracts signed July 1, 2025
M. Shelton	2025 Community Grants – Next Steps	M. Shelton requested input from the Council on next steps for the 2025 Community Grants

- Any ideas and if there were anything further they would like to ask of the Council Office
- Any information that would be helpful in reviewing the options for the 2025 Community Grants
- Would the Council want the OAC Office to prepare suggestions for targeted grants or funding options

C. Jackson commented that only 15% of grants came from his grand division and only received 6% of the awards

He advised he was misquoted in the press stating that the "only reason the Council awarded 6% of grants to lesser grand divisions because there were no good programs in the West division.

- C. Jackson noted that the Council needs to take a closer look at where dollars went in 2024 and consider remediating some by considering geographic location in the scoring for 2025.
- L. Tipon commented that variety of agencies doing a variety of things with the variety of history with the state, with their communities, because in the scoring of the grants, it was incredibly obvious who had professional writers
- T. Farmer noted that the Council has come a long way. He discussed looking at how to better score applications moving forward.

He mentioned the importance of finding out if grantees were receiving funds from other entities.

- T. Farmer stated that even though Council may have funded a smaller portion of West TN, there was also a substantially smaller number of applicants.
- L. Tipton commented that the Council is at somewhat of a disadvantage in regards to

scoring and how individuals are perceived as the impact they are already making.

She felt it may be beneficial to have a mechanism if the Council decides to open an enhancement of grant writing support help.

She further stated that although she may not know what is going on in areas such as West Tennessee, but departments such as the Department of Children Services would and this could be helpful for different segments.

- C. Jackson noted that developing the Community Advocacy Panel could help to inform the Council on areas that was not expected.
- M. Shelton asked the Council if there is any other information that the Council would like for her to gather for the emergency meeting.
- S. Loyd advised he would like to see a distribution of what has already been put out.
- C. Jackson would like to see where the funding went in reference to the seven (7) Planning & Policy regions.
- K. Moore advised he would like to see a weighting based on population as to where the funding was applied. For example, how many dollars per person.
- M. Shelton advised the Council to begin thinking about the \$20 million that has been proposed in reference to their ideas and how this could work.
- M. Shelton advised there may have to be a different way of moving applications through the scoring process if the Council does not score.
- K. Moore noted that he would like to advocate for the Council members to continue scoring because it keeps them involved and informed.
- L. Tipton agreed that the Council should continue scoring.

		K. Pershing requested if there could be a section for the Council to make comments during the scoring of applications.
		Her concern was specifically on not being able to make comment on areas such as the indirect cost.
		M. Shelton encouraged the Council to give input on any revisions they feel should be made with the Smart Simple platform.
		W. Wykoff requested to know more about the outcomes of the granting.
		S. Sexton wanted to make sure that Council members stay educated on the trends that are happening and felt this would help them to be able to do a better job at scoring.
		He further stated they should find ways to improve the scoring process as a Council.
		T. Farmer stated that he would like to see what the investment is from the resources that were just put out and then see what the focus should be moving forward.
		Dr. Valentin Bolotnyy is a fellow researcher and
		economist at Stanford's Hoover Institution. He
		also stated that he is a part of the State and Local
M. Shelton V. Bolotnyy		Governance Initiative.
		V. Bolotnyy discussed the following:
	Hoover Institution-Stanford University	 Hoover Institution has a long tradition of research and policy work that is relevant for policymakers across the country SLGI model: mutually beneficial, collaborative state and local partnerships State agencies inform the questions we study and share data We conduct independent, non-partisan analyses

We publish analyses in high-quality academic journals and share lessons learned with officials

Proposal for Partnership with Tennessee's Opioid Abatement Council:

- We propose a Memorandum of Understanding (MOU) between researchers at the Hoover Institution and the Opioid Abatement Council
- Would allow the researchers to work with the Council to determine which grants to evaluate and to facilitate data sharing arrangements for such evaluations.
- Hoover Research Team Lead: Valentin Bolotnyy, Kleinheinz Fellow.
- PhD in Economics (Harvard)
- ➤ 10 years of research experience on mental health-related questions, including on involuntary hospitalization and medication adherence.
- Existing researcher partners include Allegheny County (PA) Department of Human Services, Texas Department of Public Safety, Massachusetts Department of Transportation
- V. Bolotnyy advised that they partner with state and local partners to evaluate and their role is to conduct independent and nonpartisan analysis in these partnerships and to publish this analysis in high quality journals and to disseminate the knowledge not just to their partners, but also across the country.

Partnership Value

We believe such a partnership will be mutually beneficial:

High-quality research will provide lessons on what works and what is not costeffective, helping inform future policy decisions

		Researchers will serve as independent evaluators (research will be free of charge), ensuring the analyses and recommendations are credible Academic publication will disseminate knowledge across academia and policymakers nationwide Stanford IRB approval would be obtained and all data security and privacy measures taken before starting work V. Bolotnyy advised the purpose of him speaking and connecting with Mary is because they think it would be mutually beneficial for the Hoover institution his group of researchers to partner with the Opioid Abatement Council on evaluations of the way that the money is being
		He further stated that he, M. Shelton, and S. Boukli are working on the Memorandum of Understanding, which he felt the Council voted on to allow his institution to work with the Council to determine which grants they would evaluate and to facilitate data sharing agreements for such evaluations. He advised they would be able to answer any mental health related questions, specifically questions around involuntary hospitalization and medication adherence for antipsychotics and for OUD medication, we have just to give you a sense of our portfolio.
S. Loyd	Public Comment	C. Jackson commented that the Council would like to learn lessons with Hoover Institution. The floor was opened for public comment. Peter Hosser, Rhodes college spoke on his concern for the funding in West Tennessee. Jacqueline, (Unknown last name) advised that she is an addiction medicine fellow concerned that without further support from the Council, she felt that her program would be at risk of not being able to continue.

She further stated that they see the true need of addiction medicine specialists in the hospital systems and in the communities.

She request that the Council to consider you to consider funding programs that will place other physicians out in the community.

Albert Richardson mentioned he is looking forward to the Community Advocacy Panel, specifically for Shelby County and feels it will have a significant impact across the state.

Paula Hopper, Serenity Recovery spoke about the work her organization is doing. She advised she looks forward to collaborating with the Council and revisiting their application processes.

Dean Graber advised he works with families in the communities as an individual. He felt the Community Advocacy Panel was a step in the right direction but questioned about the reason for the Panel not having decision making authority.

He requested having at least two Panel members gain seats on the Council.

Troy (Guest) certified Peer Recovery Specialist. He mentioned he attended a Smart Initiative conference and the conversation there was that many felt they needed to be educated more on what to do with opioid abatement funding to make an impact to the communities.

Addie (First Step Initiative) wanted to receive more information on how small grassroot agencies can receive funding.

Laura Brown advised the Council to consider the need for free civil services and advised there were not any funded this cycle.

		She advised that both Kentucky and Texas have
		considered free legal services as a vital part of
		the recovery process and have funded projects.
	Next Meeting	The next meeting will be a virtual emergency
M. Shelton		meeting and an in-person meeting that will be
		held in September in Middle Tennessee.
		There was a motion to adjourn by S. Sexton;
		seconded by A. Fontes
		M. Shelton conducted roll call for adjournment as
		follows:
	Meeting Adjourned	Armando Fontes–absent
		Brian Buuck-yes
		Casey Cox-yes
		Charme Allen-yes
		Clay Jackson-yes
S. Loyd		Karen Pershing-yes
M. Shelton		Ken Moore-yes
		Lisa Tipton-yes
		Mike Flynn-yes
		Shayne Sexton-yes
		Stephanie Vanterpool-yes
		Stephen Loyd-yes
		Tim Fournet- yes
		Tommy Farmer-yes
		Wayne Wykoff-yes
		There being no further business the meeting was
		adjourned at 12:15 p.m.
