

Welcome to CVS Caremark!

We manage your prescription benefits for Partners for Health. Our goal is to help you get the medicine you need in a simple and affordable way. We also provide tools and support to help you understand your benefits and make smart choices about your care.

You can pick up your prescriptions at a local pharmacy or have them mailed directly to your home for added convenience. This gives you flexibility to choose what works best for your schedule and needs.

Use our digital tools to save time and stay informed:

- Visit [the CVS Caremark website](#) or use the CVS Health® mobile app
- Find a nearby pharmacy with the Pharmacy Locator
- Compare drug prices at in-network pharmacies with our Check Drug Cost tool
- Sign up for email or text alerts to get important updates and reminders

Using a pharmacy in your plan's network can help lower your costs and avoid extra fees.

You can also fill a 90-day supply at certain pharmacies or by mail. Choosing a 90-day supply may help you save money, reduce trips to the pharmacy, and make it easier to stay on track with your medication.

Please review plan details carefully.

If there are any differences between the information contained here and the certificate/plan document, the information in the certificate/plan document takes precedence.
