Public Chapter 932 of 2008, known as the Competitive Cable and Video Services Act, (“CCSVA”), became law on July 1, 2008 and is codified as Tenn. Code Ann. § 7-59-102 through § 7-59-318. The CCSVA opened markets for cable and video services to competition by allowing providers to receive state-issued certificates of franchise authority. Applicants must provide a plan to facilitate the participation of minority owned businesses when establishing, providing, or expanding cable or video services and related support facilities pursuant to § 7-59-313(c).¹ Tenn. Code Ann. § 7-59-313(a)(1) defines a minority owned business as:

...a business that is solely owned, or at least fifty-one percent (51%) of the assets or outstanding stock of which is owned, by an individual who personally manages and controls the daily operations of the business and who is impeded from normal entry into the economic mainstream because of:

(A) Past practices of discrimination based on race, religion, ethnic background or sex, including, but not limited to, women;
(B) A disability as defined in § 4-26-102, including, but not limited to, disabled veterans; or
(C) Past practices of racial discrimination against African-Americans.

Tenn. Code Ann. § 7-59-313(a)(2) defines a minority owned business plan as:

...a business plan for actively soliciting bids from minority owned businesses and letting contracts to such businesses when establishing, providing or expanding cable or video services and related support facilities. The plan shall include the following information:

(A) A proposal for purchasing goods and services from minority owned businesses;
(B) Information on programs to provide technical assistance to such businesses; and
(C) A statement of intent to follow its minority owned business participation plan.

The goals of a minority owned business participation plan are “…to maximize participation of minority owned businesses through both prime and second tier business contracting opportunities and shall strive to achieve a level of minority owned business participation representative of the population demographics of this state.”²

¹ Tenn. Code Ann. § 7-59-313(c) states, “Notwithstanding any provision of this part to the contrary, a state-issued certificate of franchise authority shall not be issued by the department to any applicant that fails to include a minority owned business participation plan in the applicant’s application. The department shall review each application to confirm that the minority owned business participation plan includes all information required pursuant to this section.”
Annual Review

Tenn. Code Ann. § 7-59-313(d) requires the Tennessee Public Utility Commission to conduct an annual review of the plans:

Notwithstanding any provision of this part to the contrary, the department shall annually review each holder of a state-issued certificate of franchise authority to determine compliance with the holder’s minority owned business participation plan. In conjunction with the review, by January 31 of each year, each holder of a state-issued certificate of franchise authority shall prepare and submit an annual report to the department concerning the holder’s minority owned business participation plan and compliance with the plan. The department shall annually prepare a compliance report to be delivered to the governor and the clerks of the senate and the house of representatives. The compliance report shall also be posted on the web site of the department.\(^3\)

    BellSouth Telecommunications, LLC d/b/a AT&T Tennessee

    AT&T Corp (f/k/a AT&T Communications of the South Central States)
    Teleport Communications America, LLC (f/k/a TCG MidSouth, Inc.)

Please feel free to contact me if you have any questions.

Very truly yours,

Dennis Wagner
AT&T Tennessee’s
Minority Owned Business Participation Plan

AT&T Tennessee hereby sets forth its business plan for actively soliciting bids from minority-owned businesses and letting contracts to such businesses when establishing, providing or expanding cable or video services and related support facilities.

I. Definitions

A. For the purposes of this plan, unless the context otherwise requires:

1. “Minority owned business” means a business that is solely owned, or at least fifty-one percent (51%) of the assets or outstanding stock of which is owned, by an individual who personally manages and controls the daily operations of such business and who is impeded from normal entry into the economic mainstream because of:

   a. Past practices of discrimination based on race, religion, ethnic background, or sex including, but not limited to, women;

   b. A disability as defined in T.C.A. § 4-26-201 including, but not limited to, disabled veterans; or

   c. Past practices of racial discrimination against African-Americans; and

2. “Minority owned business participation plan” means a business plan for actively soliciting bids from minority owned businesses and letting contracts to such businesses when establishing, providing or expanding cable or video services and related support facilities. Such plan shall include the following information:

   a. A proposal for purchasing goods and services from minority owned businesses;

   b. Information on programs to provide technical assistance to such businesses; and

   c. A statement of intent to follow its minority owned business participation plan.
II. AT&T’s Supplier Diversity Policy Statement

It is the policy of AT&T to promote, increase and improve the quality of the overall participation of minority, women and service-disabled veteran owned business enterprises in its purchases of materials and services.

Maximum practicable opportunity shall be given to minority, women and disabled veteran-owned business enterprises to participate as suppliers of materials and services to AT&T.

AT&T also encourages subcontracting opportunities for minority, women and disabled veteran-owned businesses by requiring Supplier Diversity Participation Plans from its prime suppliers.

III. AT&T’s Proposal for Purchasing Goods and Services From Minority Owned Businesses

AT&T promotes the purchasing of goods and services from minority owned businesses through its extensive AT&T Supplier Diversity Program. Supplier Diversity Program staff at AT&T assist current and potential diversity suppliers in identifying and developing business opportunities with the company.

AT&T Supplier Diversity Programs are designed to promote, increase and improve the quality of the overall participation of small, minority, women and disabled veteran business enterprises in AT&T’s supply chain. AT&T looks for opportunities to work with diversity suppliers in all aspects of its business – from advertising to central office engineering, computers, outside plant construction and network provisioning. Promoting the participation of a diverse supplier base not only provides better business solutions, it also cultivates greater customer loyalty, bidding advantages, and public policy support in the communities AT&T serves.

AT&T’s diversity program has three main components – a program to encourage minority suppliers; a program to encourage minority hiring by AT&T’s prime suppliers; and participation in diversity organizations.

Specifically, AT&T has a specific program pursuant to which it seeks to hire diverse suppliers. As part of the program, AT&T provides potential suppliers with information and contacts to assist those firms seeking to do business with AT&T. AT&T’s Supplier Diversity Managers and Strategic Sourcing Managers work closely with minority suppliers to find opportunities to do business with AT&T. AT&T provides coaching and mentoring to its strategic diversity firms to ensure they continue to meet AT&T’s supplier requirements. AT&T encourages diversity suppliers to gain quality certifications such as ISO 9000 and TL9000 to remain on the competitive edge.

Another of the essential efforts within the AT&T Supplier Diversity Programs is AT&T’s Prime Supplier Participation Program. AT&T’s Prime Supplier Program helps its prime suppliers increase the utilization of minority, women and disabled-veteran owned businesses in its supply chain through subcontracting and value added reseller arrangements. The program specifically helps prime suppliers (a) establish or enhance their own supplier diversity programs; (b) develop
an annual plan with AT&T outlining how the supplier can provide better business solutions by working with diverse companies; and (c) report quarterly results to AT&T showing progress towards the supplier’s diversity goals.

AT&T also is an active corporate member in important organizations such as the National Minority Supplier Development Council, the Women’s Business Enterprise National Council and the Association for Service Disabled Veterans. AT&T also holds memberships with numerous minority Chambers of Commerce that work to promote supplier diversity. AT&T also provides funding to support several executive management training programs for minority owned businesses. The programs funded are among the most highly-regarded, graduate-level executive training programs in the country, providing valuable coaching and tangible business benefits to suppliers.

IV. Information On Programs To Provide Technical Assistance To Such Businesses

AT&T provides information for minority owned businesses on its website at www.att.com. In addition, as set forth above, AT&T has an active mentoring process to encourage minority owned businesses to become suppliers of AT&T.

V. Statement Of Intent To Follow Its Minority Owned Business Participation Plan

Pursuant to this plan, AT&T Tennessee shall strive to maximize participation of minority owned businesses through both prime and second tier business contracting opportunities and shall strive to achieve a level of minority owned business participation representative of the population demographics of the state of Tennessee.

By January 31 of each year, AT&T Tennessee will prepare and submit an annual report to the Tennessee Regulatory Authority concerning AT&T Tennessee’s minority owned business participation plan and compliance with such plan.

Compliance of Minority-Owned Business Participation Plan

Google Fiber has developed policies and procedures necessary for successful implementation of its plan. Google Fiber is maximizing participation of minority-owned businesses through both prime and second-tier business contracting opportunities by:

1. Identifying a pool of minority-owned businesses through the Governor’s Office of Diversity Business and Google LLC’s supplier diversity database and encouraging minority-owned businesses to participate in bids on contracts and subcontracts.

2. Implementing training and education programs for Google Fiber’s internal contracting personnel on increasing sourcing from minority-owned businesses.

3. Encouraging prime suppliers to increase minority-owned business participation in their subcontractor selection process, promotion of minority-owned business opportunities, and use of goods and services supplied by minority-owned businesses.

4. Developing opportunities to partner with or utilize the services of minority-owned businesses by leveraging Google LLC’s established Small Business Supplier Diversity Program for minority-, women-, veteran- and LGBT-owned small businesses of $15M or less and fewer than 50 employees. Further details regarding this program can be found at https://www.google.com/diversity/suppliers/

5. In 2018, approximately 20% of total supplier expenditures in the franchised area went to diverse vendors.
Exhibit B

Google Fiber Tennessee, LLC’s
Minority-Owned Business Participation Plan

Pursuant to T.C.A. § 7-59-305(11), Google Fiber Tennessee, LLC ("Google Fiber") submits this minority-owned business participation plan for actively soliciting bids from minority-owned businesses and letting contracts to such businesses when establishing, providing, or expanding video services and related support facilities. As addressed in more detail below, Google Fiber strives to maximize participation of minority-owned businesses through both prime and second-tier business contracting opportunities and strives to achieve a level of minority-owned business participation representative of the population demographics of the state.

Definitions

For the purposes of this plan, unless the context otherwise requires:

1. “Minority-owned business” means a business that is solely owned, or at least fifty-one percent (51%) of the assets or outstanding stock of which is owned, by an individual who personally manages and controls the daily operations of the business and who is impeded from normal entry into the economic mainstream because of:

   A. Past practices of discrimination based on race, religion, ethnic background or sex, including, but not limited to, women;

   B. A disability as defined in T.C.A. § 4-26-102, including, but not limited to, disabled veterans; or

   C. Past practices of racial discrimination against African Americans; and

2. “Minority-owned business participation plan” means a business plan for actively soliciting bids from minority-owned businesses and letting contracts to such businesses when establishing, providing or expanding cable¹ or video services and related support facilities. The plan shall include the following information:

   A. A proposal for purchasing goods and services from minority-owned businesses;

   B. Information on programs to provide technical assistance to such businesses; and

¹ Google Fiber provides video services, not cable services.
C. A statement of intent to follow its minority-owned business participation plan.

Google Fiber’s Diversity Policy Statement

Google Fiber is a second-level (through Google Fiber Inc.), wholly-owned subsidiary of Google LLC, a Fortune 500 company. Google LLC is one of the leading technology companies in the world. Google LLC has a longstanding commitment to provide and expand opportunities for minorities and minority-owned businesses. For example, Google LLC has established training programs to teach minority-owned businesses how to market themselves and generate business leads. Additionally, it also offers internships and scholarships for minority students to train them in various technology fields, including computer science, and offers additional programs to expose students to the technology industry. A major objective of these internships and programs is to increase diversity within Google LLC and its subsidiaries and the technology industry as a whole.

Google Fiber, like Google LLC, is committed to affording opportunities for minority-owned businesses. Specifically, Google Fiber is committed to the goals of T.C.A. § 7-59-313 and to taking steps to support and increase the participation of minority-owned businesses in the provision of video services and related support facilities. Google Fiber provides opportunities for such businesses to compete for contracts and subcontracts for goods and services. As part of its procurement process, Google Fiber makes efforts to identify and inform qualified minority-owned businesses of opportunities to supply goods and services to Google Fiber. Furthermore, Google Fiber seeks to increase awareness of such opportunities so that companies not otherwise identified will have sufficient information to participate in the procurement process.

Proposal For Purchasing Goods And Services From Minority-Owned Businesses

Google Fiber seeks to make available opportunities for minority-owned business suppliers. Alexander Smith, Manager of Supply Chain Operations, will oversee and administer the plan and will be responsible for promoting Google Fiber’s efforts to provide opportunities for minority-owned businesses. The Google Fiber team has developed policies and procedures necessary for successful implementation of the plan. Google Fiber will continue to search for and develop opportunities to partner with or utilize the services of minority-owned businesses and encourage such businesses to participate in and bid on contracts and subcontracts. Google Fiber tracks qualified minority-owned businesses and seeks to use the goods and services of such businesses. Google Fiber also works to provide information and educational activities to train Google Fiber’s employees to identify, encourage, and promote the use of minority-owned businesses.

Google Fiber recognizes that its suppliers play an important role in offering subcontracts and other opportunities to minority-owned businesses and members of historically disadvantaged communities. Google Fiber emphasizes with all of its suppliers its expectations that the suppliers will work to increase diversity in hiring, promote minority-owned business
opportunities, and use goods and services supplied by minority-owned businesses. Google Fiber assists them in identifying such companies and business opportunities.

To reach minority-owned businesses and to support and increase the participation of minority-owned businesses in the provision of video services and related support facilities, Google Fiber uses the list compiled by the Governor’s Office of Diversity Business and may collaborate with a number of third party or community organizations.

Information About Programs To Provide Technical Assistance To Minority-Owned Businesses

As mentioned above, Google Fiber provides information about business openings, prospects, training and education programs, and other initiatives of interest to minority-owned businesses. Additionally, Google Fiber works with various third party and community organizations to provide support for training and development of minority-owned businesses.

Statement Of Intent To Follow Its Minority-Owned Business Participation Plan and File Annual Reports

Google Fiber agrees to comply with the provisions of this plan in accordance with T.C.A. § 7-59-313. Specifically, Google Fiber strives to maximize participation of minority-owned businesses through both prime and second-tier business contracting opportunities. Google Fiber also strives to achieve a level of minority-owned business participation representative of the population demographics of the state.

In accordance with T.C.A. § 7-59-313(d), Google Fiber will prepare and submit an annual report to the Tennessee Regulatory Authority concerning the status of Google Fiber’s minority-owned business participation plan and compliance with the plan.

Dear Mr. Kettles:

We have attached the Minority-Owned Business Participation Plan (the “Plan”) that Gibson Connect, LLC (“Gibson Connect”) previously adopted and submitted as part of its application for a state-issued video franchise. The Plan remains in effect and has not been amended.

Gibson Connect is a new video provider in the start-up phase of its business. Since its application for a state-issued video franchise, Gibson Connect has been working to set up its new services. We hope to begin providing video services to our first customers by April 2019. During this start-up phase, we have had limited need to purchase supplies or services from any vendors. In fact, other than small incidentals and legal services, our only significant vendor contracts have involved the negotiation of various video content agreements and the negotiation of a contract with a voice provider.

As Gibson Connect begins providing video services over the next year, we expect our contracting activity to increase significantly. Gibson Connect remains committed to fulfilling the requirements of its Minority-Owned Business Plan for the purchase of goods and services. We will continue working to identify minority-owned businesses by fostering relationships within relevant communities, and we will make available information within these communities on opportunities to work with Gibson Connect. As with our parent company, it is the intent of Gibson Connect to maximize participation of minority-owned businesses, and we will aim to achieve a level of minority-owned business participation representative of the population of the demographics of the state of Tennessee.

If you have questions or need anything else, please do not hesitate to contact me.

Sincerely yours,

Charles Phillips
