# Celebrate Success

“In order to be successful, teachers need to know how to use their knowledge and expertise to inform their practice; they need to receive support and encouragement for their efforts; and they need to participate in ongoing professional development to improve, refine, and extend their skills. Most importantly, they need to know how to work with others as equals and colleagues.”

Lyons & Pinnell, 2001

# Closing Words

“A network can be very helpful in solving the problems of change. Working across networks, in different contexts and with different problems, promotes out-of-the-box thinking. You get different ideas by looking at things from a different perspective.

Everyone involved in a network begins to see that he is not the only one who has problems, that she is not the only one who is experiencing success. Everyone sees that teacher development and educational change are ongoing.”
