

Instructions: FAE170 – Franchise and Excise Tax Return

General Information

Electronic filing and payment is required unless you have received a hardship exemption. Generally, hardship exceptions will include taxpayers who do not own a computer; taxpayers who do not have access to the internet; and taxpayers whose religious beliefs prohibit the use of computers and related technology.

Enter the beginning and ending dates of the period covered by this return. If applicable, short period dates may be entered. A return can cover a 52/53-week filing period, but cannot otherwise exceed 12 months. The tax period covered must coincide with the federal income tax return. If the taxpayer is included on more than one consolidated federal return, the taxpayer's short period dates should be entered and not the dates reflected on the consolidated federal return.

The due date of this return is the 15th day of the 4th month following the period end date as shown on the corresponding federal income tax return filed, even if that return was filed on a consolidated basis.

Enter the franchise and excise account number. This number may be found by using Tennessee Taxpayer Access Point (TNTAP) available on the Department's website at www.tn.gov/revenue.

Enter the FEIN and/or Tennessee Secretary of State Control Number. Also enter the North American Industry Classification System (NAICS) code.

Check all of the boxes in the top right of the return that apply to the taxpayer.

- a) Check the amended return box if the return reflects changes from a previously filed return.
- b) Check the final return box if all of the assets of the business have been liquidated and distributed and no further returns are required to be filed. If the final return box is checked, the Department may request a schedule of liquidation, distribution, or disposition of all assets and/or Final Return Worksheets (available on the Department's website).
- c) Check this box to claim the protections afforded by P.L. 86-272 and file only the franchise tax schedules.
- d) Check this box to indicate that the Consolidated Net Worth Election Registration Application has been filed. This election is a group election that is binding for five years.
- e) Check this box if the Consolidated Net Worth Election Registration Application was filed during the tax period with the revoke election box checked. Complete Sch. F1- Non-Consolidated Net worth.
- f) The election to use the alternative annualized income installment method of computing the required estimated tax payments can only be made on an original tax return and must be made annually. See the Estimated Franchise and Excise Tax Payments Worksheet for additional information and to determine the required quarterly estimates under this alternative method. The amounts from Line 23 of the worksheet should be reported on Schedule E, Lines 2(a) through 5(a).
- g) Certain manufacturers may elect to apportion net earnings and net worth using a single sales factor. A manufacturer is generally an entity whose Tennessee revenue (less passive income) is more than 50% from manufacturing or processing tangible personal property for resale and consumption off the premises. The election is made by checking this box, and it remains in effect for five years. The box should be checked for each year this method of apportionment is used. Schedule S is completed, instead of Schedule N, when this election is in effect.
- h) Check this box if a federal income tax extension was filed.

Date Tennessee operations began should be completed if this is the initial return. Taxpayers incorporated or otherwise formed in Tennessee must prorate the franchise tax on the initial return from the date formed or the date Tennessee operations began, whichever occurred first. Taxpayers incorporated or otherwise formed

outside Tennessee must prorate the franchise tax on the initial return from the date Tennessee operations began.

A taxable entity that is incorporated, domesticated, qualified or otherwise registered to do business in Tennessee that was inactive in Tennessee for the entire taxable period and owes only the minimum tax may file only page one of this return and omit the remaining pages.

Apportionment Schedules

Multi-state taxpayers that have substantial nexus both within and outside of Tennessee apportion their business earnings (Schedule J) and non-consolidated net worth (Schedule F1) using Schedules N, O, P, R, or S depending on the taxpayer's primary business operations. Taxpayers with the right to apportion use an apportionment ratio to determine the percentage of their total earnings or net worth that is attributable to Tennessee. See Tenn. Code Ann. §§ 67-4-2012 – 2014, 67-4-2110 – 2113 and TENN. COMP. R. & REG. 1320-06-01-.27 – .35, 1320-06-01-.38, and 1320-06-01-.42. The code and rules can be accessed from the Department's website at www.tn.gov/revenue. Values in the apportionment schedules must be reported at the same value used for federal income tax purposes.

Schedule N – Apportionment – Standard

This schedule is used to apportion net earnings and net worth when the consolidated net worth election has not been made. See Schedule 170NC, 170SF or 170SC for the net worth apportionment calculation when the consolidated net worth election has been made.
