## Helpful Hints for Tax Rate Lookups

Below are some suggestions to help you retrieve your tax rate information using the Department of Revenue's jurisdictional database.

- Tax rate lookups should be made using either street address and city name, OR street address and ZIP Code.
- Addresses for US and state highways or state routes should be entered in the format shown in the following examples:
  - US Hwy 412
  - State Hwy 45
  - State route 79
- Addresses should not include any of the following:
  - Apartment numbers or abbreviations such as Apt.
  - Suite numbers or abbreviations
  - Rural route numbers or abbreviations, such as RR
  - P.O. Box numbers
  - Building names, numbers, or abbreviations, such as Bldg.
  - General delivery
- Jurisdictional database inquiries may return multiple addresses, each with a given score from 700-100. The score is an indication of matching accuracy. The higher the score, the closer the match.
