**Comment:** Per T.C.A. § 67-4-409, this property is on the state lands acquisition priority list and has been approved for purchase by the Commissioner of Environment and Conservation, the Commissioner of Agriculture, and the Executive Director of Tennessee Wildlife Resources Agency.

Fort Southwest Point has been approved by the Governor's Office to become the newest state historic park in the park system. The Fort was constructed in 1797 by federal troops in what was then the "Southwest Territory" of the nation. The parcel was listed on the National Register of Historic Places in 1972 for its historical and archaeological significance. Creation of the Fort Southwest Point State Historic Park would enable Tennessee State Parks to share stories of the Southwest Territory and early statehood, which are vital to the story of Tennessee and Tennesseans and core to its mission.

The portion of the property to be acquired by easement is shoreline. The portion of the property to be acquired in fee includes a visitor center, amphitheater and historical replicas of the original fort which have all been assessed and are in good condition. There is an existing operational budget for this new park that is adequate to address any needs associated with this acquisition.

**Acquisition Fee Parcel:**

Date of Last Transfer:	07/02/1958
Purchase Price:	\$0
Property Assessor's Value:	\$3,700,000.00 (larger tract)

**Minutes:** 07/21/2025 Commissioner Bryson asked when the transfer is scheduled to occur and when this property will become a state park. Mr. Avant replied that it will occur as soon as possible and added that the operating budget and staff are being put in place.

The Subcommittee approved acquisition in fee and acquisition by easement with waiver of appraisal.

**Comment:**                   This lease will provide office space for the Department of Children's Services. Two proposals from two proposers were received but only the proposal meeting the requirements of the solicitation was evaluated. The lease is anticipated to commence on or before June 2027.

The tenant may terminate this lease for convenience at any time after the 60<sup>th</sup> month of this lease term within 90-days' written notice to the landlord.

Based on a review of the financial aspects, occupancy requirements, and market indicators, this lease is deemed to be in the state's best interest at this time.

**Minutes:**                   07/21/2025       Commissioner Bryson asked whether the large tenant improvement allowance that Mr. Hull referenced is built into the lease amount. He added that the proposed rental rate is a significant increase on previous rent, acknowledging that the previous rental rate was low, and asked for an explanation of the increase. Mr. Hull responded that rental rates are going up to market prices today and the old rental rates are significantly lower, but that as we look at the new rental rates these are within the range of where market rates. Mr. Hull added that driver of the increased rental rates

is the construction costs for the tenant improvements. Commissioner Bryson stated that the expiring lease is only five years old and asked for confirmation that most of the increase is the result of the tenant improvement allowance because inflation hasn't been that high since the prior lease commenced. Mr. Hull confirmed that the cost of the tenant improvements is the main driver but added that inflation has driven up construction costs significantly after COVID. Mr. Hull noted that this lease like others only received one proposal, not multiple proposals from landlords which would help to get a lower rate.

The Subcommittee approved a lease.

**Comment:** This lease will provide office space for Department of Children's Services and the Department of Human Services. One proposal from one proposer was received and evaluated. The space will be renovated to meet the State's needs. The lease is estimated to commence on or before February 2026. The size of the space is increasing to accommodate additional staff and to meet programming needs of the agencies.

A procured lease was approved by ESC June 2022 that included renovation of space and construction of a building addition. Program changes including agency separation and safety zones resulted in significant changes and thus requiring a new advertisement. This lease will be terminated upon approval and execution of a new lease.
