Comment: When the State acquired this property, it was subject to an existing conservation easement related to the mitigation bank. The terms of that conservation easement required that if the State acquired title to the property, that the State would need to assign the rights under the easement to a third party who was also approved by the U.S. Army Corps of Engineers (the “Corps”) and so waiver of advertisement of this transaction is requested. The Grantee has agreed to accept an assignment of the conservation easement with some amendments approved by the original Grantor of the Conservation Easement, the State and the Corps. This disposal will not negatively impact the State property.
