Current Amount: None

Type: New Lease – negotiated

FRF Rate: $18.00

Source of Funding: Campus Plant Funds

Comment: UoM will lease the entire Lambuth campus. The initial plan is to use eight buildings consisting of approximately 250,000sf with the ability to expand.

ESC Action: 08/05/2011. Assistant State Architect Alan Robertson stated that, because a physical quorum was not present, statutory requirements had to be met. He then proceeded with reciting the following Resolution for a Conference Call Meeting:

"The purpose of this meeting is to consider the approval to enter into a lease agreement with waiver of advertisement between the University of Memphis and Lambuth University. TCA 8-44-108 provides that if a quorum of members is not physically present at the meeting, other members may be retained for a vote via electronic or other means of communication if certain statutory requirements are met.

The law allows this Commission to meet by telephone conference call upon a determination by the Commission based on the existing facts and circumstances that the matters to be considered at this meeting require timely action by the Commission, that physical presence by all members is not possible within the period of time requiring action, and the participation by some members by telephone is a necessity. If the Commission makes such a determination, any member participating in a meeting by telephone is deemed present in person at the meeting for purposes of a quorum requirement and voting."
Due to the importance and need for timely action of the matters to be considered at this meeting, Treasurer Lillard made a motion to adopt the resolution for a conference call meeting, which was properly seconded. Roll call vote was taken, with all members responding "aye" in favor of adoption of the requirements.

Jurgen Bailey presented the transaction. Vice-Chancellor David Gregory was recognized and thanked everyone for their hard work and for accommodating this special-called meeting. He said it was the intent for the University of Memphis to begin offering classes pursuant to this lease agreement beginning on August 27, 2011. He said that, in order to do that, each day is important to get possession of the facility and get it ready to receive students by that date. He said that was the necessity of the action being requested.

Chancellor Gregory stated that the State Appropriations Bill, Section 72, Item 11, described that a feasibility study be conducted by the Tennessee Higher Education Commission with respect to the State acquiring the property and assets of Lambuth campus. He said the completed THEC study, dated July 28, 2011, recommends that it is feasible for the State to acquire this asset and to begin using it as a campus for the University of Memphis. Further, the Appropriations Bill then requires the Board of Regents to act to approve and accept the feasibility study and agree to any preconditions that are included as a part of the report, of which there are two. He said the Board accepted the report and agreed to the reconditions as set forth in the report and a lease agreement has been formulated that will allow for Memphis to begin to occupy the campus and prepare for the classes on August 27. Chancellor Gregory proceeded to give a general overview of the proposed use of the campus for the fall semester. He said it is the intent to lease the entire campus, but initially to only occupy seven buildings and one of the dorms.

Comptroller Wilson asked about the Fire Marshal meeting. Chancellor Gregory responded that they met with the State Fire Marshal and local inspectors as well as with their consultant, Bill Wamsley, and other staff, and found no issues as far as occupying the building right away. Comptroller Wilson asked if TBR had made the necessary certification of the Appropriations Act, and was told the certification of the buildings will happen as they acquire the asset. Comptroller Wilson asked Chancellor Gregory if he was comfortable with providing a safe place for the students with leasing the property for up to a year, and was told "yes".

Treasurer Lillard said the State intends to have the Tennessee Commissions Act (TCA 9-8-307) apply to this facility and to the facility used under this lease. He stated that by entering into this lease, the State does not intend to waive its right to sovereign immunity, and wanted to ensure that there was language in the lease addressing that issue relative to Items 20 (Liability) and 22 (Risk of Loss), which was confirmed by Steve Curry, Deputy Treasurer of Risk Management.

When asked about Lambuth's expectations regarding the State's obligation for maintenance or improvements, Chancellor Gregory responded that, according to a letter dated August 4, 2011, Lambuth's expectation of the University of Memphis under this lease period is not to enhance or do capital improvements to the campus, but to do routine maintenance to protect the asset. Comptroller Wilson asked that the letter be made a part of the record.

Secretary Hargett made a motion to approve entering into a lease agreement with waiver of advertisement between the University of Memphis and Lambuth University, which was seconded by Comptroller Wilson. A roll call vote was taken with all members voting "aye" as the motion was adopted. Comptroller Wilson thanked the Attorney General's Office for their hard work under difficult conditions accomplishing a lot in a short time frame.

There being no further business, the meeting adjourned at 10:50 a.m.

University of Tennessee, Knoxville, Knox County, Tennessee

Requested Action: Approval of a project budget, scope and source(s) of funding

Project Title: Demolition of Structures

Project Description: Demolish residential structures at 905 Montcastle and 2000 Lake Avenue and development of surface parking lot

SBC Number: 540/009-20-2011

Total Project Budget: $50,000.00

Source of Funding: $25,000.00 Campus Plant Funds (Auxiliary)
$25,000.00 Campus Plant Funds (Non-Auxiliary)

Comment: The structures were built in the 1940's, were damaged by a recent storm and no longer have any institutional use. The sites will be converted to surface parking. The Tennessee Historical Commission has formally responded to the request.

ESC Action: 08/22/2011. Approved project
TENNESSEE BOARD OF REGENTS

Land Transaction

Requested Action: Approval to obtain title work, appraisal, survey and exercise option to acquire or accept as gift required interest, not to exceed appraised value, with waiver of advertisement and one (1) appraisal

Purpose: Acquisition in fee to purchase the former Saturn dealership in Clarksville for the satellite campus site for Nashville State Community College. (7.708 +/- acres with dealership/improvements & additional 10 +/- acres adjacent to the rear/westerly line of the property.)

Estimated Sale Price: Fair Market Value

Source of Funding: Unexpended Plant Funds

Owner(s): C. M. Gatton Trust

Comment: The location of the Saturn dealership will provide a location very accessible to student and within close proximity to area high schools, Austin Peay State University and area services.

The property and land appraised separately with the State appraisal coming in at: $550,000 land & $1,900,000 dealership building for a total of $2,450,000. The appraisal the seller had completed came in at: $870,000 land & $2,700,000 for the dealership building for a total of $3,570,000 which is a difference of $1,120,000. The seller has offered the property to the State for $3,000,000 which is $550,000 more than the States appraisal and $570,000 less than the seller’s appraisal.

SSC Report: 08/15/2011. Jurgen Bailey summarized the transaction. Dick Tracy stated that BOR will complete an Environmental Phase One on the property. The campus has set aside $5M in funds to purchase this property and complete renovations. Cost to purchase the property is $3M and renovation cost is approx. $1.5M. Staff referred to Subcommittee with recommendation.

ESC Action: 08/22/2011. Subcommittee approved the request as presented.

08/15/2011. Peter Heimbach summarized the transaction. Staff referred to Subcommittee for discussion.

08/22/2011. Assistant Commissioner Peter Heimbach presented a request to revise the designer’s scope to utilize them to design the temporary hoteling space for the staff that is being relocated due to the renovation of the Capitol. He added that the request included recognition that the build out of those spaces will be done utilizing existing contracts.

Commissioner Emkes asked for an approximate time line of events. Commissioner Heimbach responded that construction of the Capitol piece is scheduled to begin 15 days after the Legislature finishes session next spring. Between now and then, he said, they need to have the design and build out of the hoteling space completed to allow staff to move from their positions in the Capitol, as well as the Governor's offices and Constitutional offices to the designated locations that are still being worked out. He said that construction is slated to take approximately five months.

Treasurer Lillard asked what the plan was for hoteling space with regard to the Governor and Constitutional Officers, or were they just doing the basement of the Capitol. Commissioner Heimbach responded that the hoteling space is for the temporary relocation of all the offices that will move during the renovation of the Capitol. He said the Governor's office is slated for the 27th Floor of the Tower, and that there have been discussions regarding the Constitutional Offices being located on the 3rd Floor.

Treasurer Lillard asked about his conversations with the Clerks of the two Houses regarding the Legislative aspect of the move. Commissioner Heimbach responded that the renovation portion is only to the Capitol and that there was no change in funding. He said the current funding of $14 million represented the Capitol, and the $29 million total budget represented all three buildings, which was not yet funded. Treasurer Lillard asked if the original scope covered more than the mechanical and electrical upgrades. Commissioner Heimbach responded that there is associated work along with that, but most has to do with miscellaneous pieces that have to be reworked because of the concealed location within walls. He said there are planned renovations to finishes in certain offices, but it would not be a complete overhaul. Treasurer Lillard asked if it involved aspects of plumbing, and was told it would involve changing out some fixtures and associated pieces that need to be replaced in order to have the plumbing function properly.

Treasurer Lillard asked about the general time frame for renovating the War Memorial Building and Legislative Plaza, and was told that they have not yet been approved for funding by the Legislature.

Secretary Hargett asked about relocation space in the Tower and was told that the original space was no longer available due to the Department of Safety moving into the Tower and the implementation of Central Purchasing on the 3rd Floor. After further discussion, the request was approved as presented.
