Statewide

1) Alan Robertson presented a discussion regarding projects for Radio Towers Replacement at English Mountain and Fall Branch, and for THP Communication System at various locations statewide. He stated that this is part of an overall initiative by State government, including the departments of Military, TEMA, Transportation, TWRA, TBI, Agriculture, Environment and Conservation, Health and Correction. He said this request is based on the need to comply with the Federal Communications Commission P25 standards for narrow-banding conversions for all State interoperability communications equipment. He said that this discussion item proposes to address Phase I, with an upcoming Phase II, whose scope and funding have not yet been established by the Department. He stated that the THP purchased radio equipment to be used in this overall system through a statewide purchasing contract for $3,465,963 based on specifications that lead to a proprietary procurement through Motorola. He said they have learned that the purchasing of radios and two switches within the state will lead to requiring a proprietary relationship with Motorola. He said the concerns for contracting and the level of competition needed to be addressed.

Colonel Trott was recognized. He said he appreciated the Subcommittee's consideration of this most important building project in the history of the Tennessee Highway Patrol. He discussed the complex issues in detail and responded that this system is designed for everyone to be able to join in at a minimal cost. Treasurer Lillard voiced his concerns about seismic events and the importance of interoperability with local agencies and officials so they do not have to spend money to build their own towers. Comptroller Wilson asked Commissioner Gibbons to take a good look at this to make sure he was satisfied as this is a major project that they want to be sure is done right. Mr. Robertson suggested that more competition be provided in the contract by having Motorola bid out a portion of the construction as well as bringing in Tennessee design firms. Ms. Hagood said they were considering doing one contract and splitting it into two: one for design & construction and one for services. She said they want to do whatever would be the most effective and efficient way to do these contracts. Treasurer Lillard stated that having a single contract means you have recourse if something doesn't work, and that this system is one of those things that has to work as promised. After discussion, Treasurer Lillard stated he would like to know what they are going to build into the contractual agreements before approval, and asked for staff to come back with some definition of how they want to do the contracting. Subcommittee voted to place the matter on the next Executive Subcommittee agenda for action.

Chairman Emkes called the meeting to order at 3:35 p.m. to discuss the consideration of candidates for the position of State Architect.

Treasurer Lillard stated that all of the members had interviewed the candidates for the State Architect's position and that this was a particularly difficult process because all of the candidates were so highly qualified, presented themselves well and had great credentials and past history as professionals in the field. Based on the action of the November 10, 2010 meeting to delegate to the Executive Subcommittee the selection and approval of a State Architect, he made a motion to name Robert Oglesby as State Architect for Tennessee, and pending his acceptance, the coordination of a start date of approximately February 1, 2011, or as soon thereafter as possible.

Secretary Hargett said they were very fortunate to have had such a great pool of candidates from twelve states who expressed their interest in this position, and he seconded the motion. Treasurer Lillard made a motion that they accept by acclamation, which was properly seconded, and passed without objection. Regarding notification, Secretary Hargett stated that part of the motion was for the Human Resources Division of the Department of State, who had led the process, to extend the formal offer to Mr. Oglesby. Treasurer Lillard asked that staff contact all the other candidates and express the Subcommittee's views as to their credentials and inform them of the action taken by the Subcommittee. Commissioner Emkes stated he would like to thank the staff for their professional handling of the process and for work well done.

There being no further business, the meeting adjourned at 3:40 p.m.
