Original Project Budget: $800,000.00
Change in Funding: $214,000.00
Revised Project Budget: $1,014,000.00

Comment: Five bids were received on April 25th with Brad Slater Construction submitting the low bid. Additional funds are for base bid only. There will be no additional designer fees. This bid exceeded the designer's cost estimate due to high subcontractor costs. Several subcontractors were contacted for each trade, and a few trades were much higher than anticipated. This is due to the current bid market, with a large work load and limited staff availability.

Memphis Tourism Development Zone, Memphis, Shelby County, Tennessee

Requested Action: Approval of a modification to Memphis Tourism Development Zone

Comment: This action will modify, pursuant to Chapter 816 of the Public Acts of 2018, the Memphis Tourism Development Zone (“TDZ”) approved on December 18, 2000, as amended on April 19, 2010, to include the Pyramid and the Pinch District as ancillary components of the existing Qualified Public Use Facility (“QPUF”). This modification would add Mud Island River Park and the Riverfront as additional ancillary QPUF components and allow the City of Memphis (the “City”) to spend its incremental tax revenue (the “Revenue”) to make improvements to Mud Island River Park and the Riverfront. This modification would neither increase the size of the TDZ nor extend the thirty (30) year maximum possible term of the TDZ (during which the City can receive the Revenue). This modification is in compliance with the Convention Center and Tourist Development Act of 1998 and Chapter 816 of the Public Acts of 2018.

Previous Action: 12/14/2000 SBC Referred to Executive Subcommittee with authority to act.
12/18/2000 ESC Approved the application for Cook Convention Center as a QPUF and Memphis TDZ as specified by statute. It was agreed that all points and procedures outlined in the letter agreement dated April 14, 2000 signed by Commissioner Ferguson (F&A) and Mayor Kinsey of Chattanooga would apply to the Memphis and all subsequent applications.
04/19/2010 ESC Treasurer Lillard stated that, assuming F&A has been able to certify the inclusion of the Pinch District and the Pyramid as Qualified Public Use Facilities in the Zone, he moved for approval of their application, subject to having a definitive agreement executed. Commissioner Goetz recommended that Real Property Administration report back to the Subcommittee relative to how these agreements exist and how to proceed going forward.
04/13/2017 SBC Referred to Executive Subcommittee with authority to act.
04/24/2017 ESC The Executive Subcommittee approved an agreement concerning Memphis TDZ.
12/14/2017 SBC Referred to the January Executive Subcommittee with authority to act.
01/22/2018 ESC The Executive Subcommittee approved the Department of Finance & Administration’s request to defer this item to a future ESC meeting.

Minutes: 05/22/2018 ESC Deputy Commissioner Eugene Neubert stated that this request preserves the original 30 year TDZ maturity date and that Finance & Administration is comfortable with the analysis the City of Memphis has provided. A conservative, flat line approach was used to estimate future revenues based on current revenues. Requests for additional debt or debt restructuring will come before the State Funding Board for approval should the city determine additional debt is necessary. Deputy Commissioner Neubert introduced Mayor Jim Strickland with the City of Memphis. Mayor Strickland introduced Doug McGowan, Chief Operating Officer and Paul Young, Director of Housing & Community Development with the City of Memphis and J.A. Bucy with Capitol & 5th Public Strategies. Mayor Strickland thanked the Governor, State Legislature, Constitutional Officers and the staff for those as well. Mayor Strickland stated that their revenue only grew by 1.5% and they try to pay off more than they borrow. They want to take a good downtown and make it a great one. The City of Memphis would like to modify current TDZ,
which is doing great, to spend money and growth on the riverfront and they would like to have an aquarium on Mud Island.

Paul Young, Director of Housing & Community Development, stated that great cities have great spaces and while the river is a great resource, they would like to enhance its appeal. The two amenities the City of Memphis would like to achieve from this modification are the rehabilitation of Mud Island and the development of an Aquarium Museum. The current TDZ has a $5 to $6 million annual surplus which, if continued, could create $100 million of investment for these components. Additionally, the city estimates an additional $25 million in growth attributable to new and ongoing projects. The ESC approval today would allow them to issue RFQs, and get letters of intent in order to make these projects a reality.

Commissioner Martin appreciated that the Mayor thanked the State and stated that there was a great bit of work both with the State and the City and the momentum is with the City of Memphis. Finance & Administration reviewed and worked through the term of the TDZ. There will also be enhanced reporting information that will be helpful long term to the State. Commissioner Martin stated that projecting numbers through the years but there has been a lot of good work and joint effort in this.

The Subcommittee approved a modification to the Memphis Tourism Development Zone.

Disposal – Fee

Requested Action: Approval of disposal in fee with waiver of advertisement and appraisals

Transaction Description:
- Location: Tennessee State University
  Davidson County – 0.73+/- acres – 10th Avenue North, Nashville, TN
- Grantee: Metropolitan Government of Nashville and Davidson County (Metro)
- Estimated Sale Price: Mutual Benefit
- Source of Funding: Plant Funds (Non-Aux) (REM Fees) (A)

Comment:
It has been discovered that the State owns the fee interest in the land under 10th Avenue North adjacent to the TSU campus. Metro currently has an easement over this land for the road and utility lines. This disposal will eliminate the State's interest in this property, allowing Metro to continue to operate 10th Avenue North without any State involvement. A quitclaim deed will retain a reservation for an aerial easement should TSU elect to construct a bridge over the road in the future.

The second 20 acre tract was across the road and was never used for the WMA; and because the agency has no other plans for this landlocked property it has been deemed surplus land by the agency.

Pursuant to TCA §70-1-306 and the conditions of the deed, the proceeds of the sale of this property will be deposited in the wildlife resources fund and used for the acquisition of habitat for endangered plant or animal species in the state.
