Minutes of Executive Subcommittee Meeting

1) Approved the Minutes of the Executive Subcommittee meetings held on August 28 and September 11, 2014.

OSA Policy & Procedures – Delivery Methods

1) Acknowledged a report of the following revision to Alternates and Tie Bids:

PROCUREMENT THROUGH DESIGN/BID/BUILD

B. Alternates

1. Alternates—There shall be limited to three in number no more than four (4) alternates unless the particular situation is deemed to warrant otherwise, as determined by the State Architect.

2. Alternates shall be additive (in accordance with designer's estimate).

3. Alternates shall be listed in descending order of priority (i.e., Alternate No. 1 has highest priority).

4. When using alternates as a part of bidding, the owner procurement agency and the State Architect, in consultation with the designer, shall establish a "Target", normally equivalent to the Maximum Allowable Construction Cost less contingency, to serve as a benchmark in the consideration of bids. If alternates are used, the Base Bid and one (1) of the alternates must be estimated by the Designer to cost less than the Bid Target, unless otherwise approved by the State Architect. If there has been a reduction in the scope of the project as a result of the Designer's estimate, then at least two (2) alternates must be included in the Bid Documents and at least one (1) alternate must be estimated by the Designer to exceed the Bid Target.

PROCUREMENT THROUGH DESIGN/BID/BUILD

E.4. Tie Bids

b) Resolution – When a tie bid exists, the following criteria will be added, in order, to the consideration of bids a lot or coin toss will be conducted until a successful bidder is determined.

1) Preference will be given to an in-state business over an out of state business.
2) Lot or coin toss will be conducted.
