HOW TO READ THIS REPORT

The Educator Preparation Report Card contains four (4) domains: Candidate Profile, Employment, Satisfaction, and Provider Impact. Each domain is comprised of multiple metrics. To date, data has not been collected for the Satisfaction domain, so it will be unscored this year. A provider must have at least ten total completers or licensed, job-embedded candidates and must generate a score on at least one half of the metrics in each domain in order to generate an overall performance category rating. For more information, please refer to the technical guide.

The 2018 Educator Preparation Report Card presents data on the State Board's key priority areas for preparing educators for Tennessee. This is calculated using the percentage of points earned across all metrics. Category 1 represents the lowest performance, and Category 4 represents the highest performance.

The 2018 Educator Preparation Report Card will include data on three cohorts of completers (2014-15, 2015-16, and 2016-17). Performance on each metric is displayed in the format shown in the graphic on the right.

The score of **77.2** earned this EPP **1.7** of **3** possible points on this metric. This score increased **8.6** percentage points from 2016.

- ① Scores in this range are below the scored range and earn an EPP no points.
- ② This is the scored range. Scores in this range earn an EPP partial points proportionate to their score.
- ③ This range is above the target score. Values in this range earn an EPP maximum points.

Completer Placement Across Tennessee

Nashville Teaching Fellows is a rigorous alternative certification program that recruits and trains talented career changers and recent college graduates to be outstanding teachers in high-need schools in Metro Nashville. As participants in the program, Fellows attend a rigorous five-week Pre-Service Training program to prepare for their own classroom in the fall. This training is centered on field experience where teachers learn high-leverage techniques that advance student learning. During the course of summer training, Fellows practice these techniques intensively, both with peers and with students in their summer school classrooms, and are coached in and outside the classroom by experienced teachers. Upon successful completion of summer training, Fellows continue to receive intensive coaching and content area support during the school year. Through a variety of evaluation measures Fellows must demonstrate that they are effective teachers in order to pass the program.

**Due to challenges experienced with statewide student assessment in the 2017-18 school year, state law held students, teachers, and schools harmless from adverse actions based on results of those assessments. The data included in this report ensure providers are held harmless if any of their completers chose not to count their 2017-18 evaluation results due to assessment irregularities.
