

Tennessee Health Education and Lifetime Wellness Standards, Grades K-12

The Tennessee Health Education and Lifetime Wellness Standards are divided into three (3) parts to represent each of the following grade bands: Grades K-5, Grades 6-8, and Grades 9-12. Each set of standards was written by teams of Tennessee health education teachers and higher education faculty, as convened by the Tennessee Department of Education.

The Health Education and Lifetime Wellness Standards represent the knowledge or behavioral outcomes of a student at the completion of a grade or course. Creating developmentally appropriate learning experiences that meet the standard is the responsibility of the health education teacher and in alignment with school district documents. Each standard is observable and measurable and therefore can be assessed.

To most effectively use this document, the following are key definitions or descriptions in reference to the format:

Component: a grouping of similar knowledge or behaviors. Each set of standards has five (5) components specific to the grade level or course. See the introduction provided within each document for further explanation.

Subcomponent: a more refined grouping of similar knowledge or behaviors within a component. Each subcomponent is identified by a title. Each example below is specific to a grade level document:

Grades K-5 example: "Subcomponent: Nutrition," found in Component 1: Personal and Community Wellness, groups the standards specific to nutrition.

Grades 6-8 example: "Subcomponent: Prevention," found in Component 3: Safety and Prevention, groups the standards specific to prevention.

Grades 9-12 example: "Subcomponent: Mental," found in Component 2: Mental, Social, & Emotional Health, groups the standards specific to Mental Health.

Standard: a described knowledge or behavior as listed within a subcomponent and grade level. Each example below is specific to a grade level document:

Grades K-5 standard example: Standard 1.DP.3 "Demonstrate healthy personal hygiene practices (e.g., hand washing, shampooing, flossing)." This standard is applicable to grade 1 (1), located in the Disease Prevention (DP) component, and the third (3) standard listed for that given component.

Grades 6-8 standard example: Standard 6.SUA.1 "Identify differences between legal and illegal prescription drug use." This standard is applicable to grade 6 (6), located in the Substance Use and Abuse (SUA) component, and the first (1) standard listed for that given component.

Grades 9-12 standard example: Standard HS.PW.2 "Evaluate personal nutritional and energy needs." This standard is applicable to the high school (HS) lifetime wellness

course, located in the Personal Wellness (PW) component, and the second (2) standard listed for that given component.

Component Extension: an idea to further challenge students in a particular subcomponent, found only in the Grades 9-12 standards.

Tennessee Lifetime Wellness Standards Grades 9-12 (High School)

The Tennessee Lifetime Wellness Standards Grades 9-12 document is divided into five components: Personal Wellness (PW); Mental, Emotional, and Social Health (MESH); First Aid and Safety (FAS); Human Growth and Development (HGD); and Substance Use and Abuse (SUA).

Key Ideas:

- 1) The Tennessee Lifetime Wellness Standards Grades 9-12 state skills, knowledge, and behaviors students should demonstrate at end of the high school lifetime wellness experience.
- 2) Each component is divided into subcomponents as a means to organize similar standards.
- 3) The standards need not be taught in the order presented. The component and subcomponent numbers are only for organization and identification.
- 4) The standard is the action, knowledge, or behavior expected (e.g., HS.PW.2 Evaluate personal nutritional and energy needs).
- 5) Unique to the Grades 9-12 Standards is "component extension." Component extensions are ideas to further challenge students in a particular subcomponent.
