
A Resolution of the State Board of Education

The Background:

With the onset of the COVID-19 public health crisis, and the subsequent disruptions to education across the state, Mr. Nick Darnell, State Board of Education Member for the first congressional district, proposes this resolution noting the need for ongoing and up to date student level learning information. The resolution requests the administration of state assessments, and further requests that the results of these tests not be used for any punitive accountability-related purpose.

The Recommendation:

State Board staff recommends approval of this item on first and final reading.
