Course-At-A-Glance

CTE courses provide students with an opportunity to develop specific academic, technical, and 21st century skills necessary to be successful in career and in life. In pursuit of ensuring every student in Tennessee achieves this level of success, we begin with rigorous course standards which feed into intentionally designed programs of study.

Students engage in industry relevant content through general education integration and experiences such as career & technical student organizations (CTSO) and work-based learning (WBL). Through these experiences, students are immersed with industry standard content and technology, solve industry-based problems, meaningfully interact with industry professionals and use/produce industry specific, informational texts.

Using a Career and Technical Student Organization (CTSO) in Your Classroom

CTSOs are a great resource to put classroom learning into real-life experiences for your students through classroom, regional, state, and national competitions, and leadership opportunities. Below are CTSO connections for this course, note this is not an exhaustive list.

- Participate in CTSO Fall Leadership Conference to engage with peers by demonstrating logical thought processes and developing industry specific skills that involve teamwork and project management
- Participate in contests that highlight job skill demonstration; interviewing skills; community service activities, extemporaneous speaking, and job interview
- Participate in leadership activities such as National Leadership and Skills Conference, National Week of Service, 21st Century Skills

Using Work-based Learning in Your Classroom

Sustained and coordinated activities that relate to the course content are the key to successful work-based learning. Possible activities for this course include the following. This is not an exhaustive list.

- **Standards 1.1-1.7** | Invite an industry expert to discuss foundations of education.
- **Standards 2.1-2.3** | Invite the school counselor to discuss career exploration.
- **Standards 4.1-4.4** | Invite an industry expert to discuss ethics and legal responsibilities in education.
- **Standards 5.1-5.4** | Create a portfolio to be evaluated by industry representatives.

Course Description

Educational Guidance and Social Services I is an exploratory course in the Education and Training career cluster for students interested in learning more about becoming a school counselor, school psychologist, school social worker, and other school services personnel. Upon completion of this course, proficient students will gain knowledge in foundations of education, exploration of careers, and ethics and legal responsibilities. Artifacts will be created for inclusion in a portfolio, which will continue throughout the full sequence of courses.

Course Standards

1. Foundations of Education

- 1.1 History of the Education System: Assess the impact of **significant events in the history of the U.S. education system**. Examples of events include but are not limited to: WWII, Sputnik and the space race, the passage of the Civil Rights Act and desegregation, The Great Society, the development of the Internet, No Child Left Behind, and national tragedies (e.g., 9/11).
- 1.2 Accountability Practices: Analyze the **structure of local school districts, state governing bodies, and federal authorities**. Identify and describe accountability practices within the state of Tennessee that apply to local school districts and federal authorities (e.g., Race to the Top, etc.).
- 1.3 Educational Theorists: Research educational theorists' philosophies that influence **teaching strategies and learning practices**. Distinguish differences between 19th-, 20th-, and 21st-century theories. Explain how these theories influence the evolution of education.
- 1.4 Learning Difficulties: Analyze the importance of evaluating and applying **developmental theories**. Identify **learning difficulties** and modify instruction to meet the needs of students.
