Tennessee Academic Standards for Fine Arts Education

Introduction

As states are pursuing raised standards for student learning, it is important to recognize the essential role of arts education in the development of well-rounded students preparing for college, career, and life readiness. In fact, Tennessee has made significant artistic contributions across the national landscape, and Tennessee's school teachers and leaders will undoubtedly play an important role in nurturing environments of creativity and innovation that will lead to even greater contributions.

Tennessee Arts Education at a glance

The federal Every Student Succeeds Act (ESSA) lists the arts and music as a part of a "well-rounded" education, and Tennessee schools offer a rich history of supporting arts education. Tennessee is recognized nationally for significant contributions in arts and culture, and the state academic standards for arts education contribute to increased student access for quality arts education that impacts college, career, and life readiness for Tennessee students. While Tenn. Code Ann. §49-6-1025 speaks to visual art and music instruction for grades K-8, schools also offer courses in dance, theatre, and media arts instruction.

- (a)** The course of instruction in all public schools for kindergarten through grade eight (K-8) shall include art and music education to help each student foster creative thinking, spatial learning, discipline, craftsmanship and the intrinsic rewards of hard work.
- (b)** Local boards of education are encouraged to fully implement the art and music curriculum adopted by the board of education through both art and music classes, as well as integration into other core academic subjects.

In addition, Tennessee graduation requirements stipulate one full credit of fine arts, and many students elect to focus concentration on sequential course offerings in multiple arts disciplines, including visual arts, dance, media arts, theatre, and vocal and instrumental music. As the economic development of Tennessee becomes increasingly dependent upon skills and outcomes that are embedded in the Tennessee Standards for Arts Education, such as critical and creative thinking, problem solving, collaboration, reflection, and persistence, it will become even more important to ensure that Tennessee students are engaged in sequential standards-based arts instruction. Arts education can also reach a diversity of learners by embodying learning modalities, helping all students learn. For these reasons and others, it is important to consider

several supporting factors when implementing the Tennessee Standards for Arts Education. The National Association for Music Education and the National Art Education Association have developed National Opportunity to Learn Standards to correspond to the implementation of standards-based arts education instruction, and local boards of education are encouraged to implement the support needed to facilitate quality fine arts instruction.

2016 Revision Process Overview

The Tennessee State Board of Education and the project leadership team partnered with multiple arts agencies such as state arts education teachers associations, higher education institutions, and arts education leadership councils in order to create and disseminate a stakeholder feedback survey and recruit nominations for the writingteam application process. After the writing team was selected, they conducted a careful examination of the data from the state arts education standards feedback survey and created principles to guide the development of the 2016 Standards for Arts Education. The resulting standards are organized in a way that brings more unity to all of the arts disciplines while maintaining the integrity of each specific content area. It is an attempt to bring the rich content of the previous standards to more modern understandings of standards so that districts can create high quality curriculum guides and students can have the most robust arts learning possible. If implemented with fidelity, the goal of the revised standards will be to teach all students to become quality artists capable of not only performing and creating artistic works with great fidelity, but also expressing meaning and understanding through the arts.

The next section will explain the overarching framework that houses the standards. It is important to note that some content areas will present the information in a different sequence in order to bring focus to the standards. For example, you may see the “Create” domain appear first in Visual Arts while the “Perform” domain appears first for music. This is not a mistake but an intentional presentation of the priorities for the major work of the content area. It is also important to note the major difference in visual presentation between previous state standards versions and the current drafts (not in final format versions). The previous standards were essentially a listing of 6-9 (depending on the specific arts content area) statements followed by a listing of grade/level specific performance indicators. Eleven foundational statements consistent among all of the arts content areas guide the updated standards, and the actual standards that follow are content and grade/level specific. Another significant consideration is that, depending on the particular grade and content area, not all of the 11 foundations are weighted equally in terms of expected instructional time or importance towards comprehensive artistic growth. Each content area and grade level

will refer to the “major work of the grade” to communicate which foundations are expected to be prioritized in order for students to gain mastery consistent with college and career readiness in the specific art form.

Shared between all fine arts disciplines are the eleven foundations and the four overarching domains. The Tennessee Portfolio of Student Growth System implemented the use of the “Perform, Create, Respond, and Connect” Domains in 2011, and the 2016 Standards for Arts Education continue to group all of the revised standards in similar domains, listed below. It is important to keep in mind that the order of the domains will depend on each specific content area.

Domains:

P= Perform (Music, Dance, Theatre); Present (Visual Arts) Produce; (Media Arts)

Cr= Create

R= Respond

Co= Connect

As mentioned previously, each domain has two or three “foundations” that are common among all fine arts disciplines, totaling eleven overarching statements of requisite behaviors for artistic growth. Again, it is important to keep in mind that not all foundations are implied to be weighted equally. The weighting changes depending on the grade and course expectations for the specific fine arts disciplines.

Foundations:

P= Perform (Music, Dance, Theatre); Present (Visual Arts); Produce (Media Arts)

1. Select, analyze, and interpret artistic work for performance/presentation/production.
2. Develop and refine artistic techniques and work for performance/presentation/production.
3. Convey and express meaning through the performance/presentation/production of artistic work.

Cr= Create

1. Generate and conceptualize artistic ideas and work.
2. Organize and develop artistic ideas and work.
3. Refine and complete artistic work.

R= Respond

1. Perceive and analyze artistic work.
2. Interpret intent and meaning in artistic work.
3. Apply criteria to evaluate artistic work.

Co= Connect

1. Synthesize and relate knowledge and personal experiences to artistic endeavors.
2. Relate artistic ideas and works with societal, cultural, and historical context.

A Guide to the Coding of the Updated Standards

The standards are coded with the grade level, content area, domain, foundation, and a letter might also be used to delineate subsections of the particular foundation. Some foundations will contain more standards than others, depending on the content and grade level.

Examples:

K.VA.P.1.A Select art objects for personal portfolio and display, explaining why they were chosen.

Kindergarten (K) is the grade, Visual Arts (VA) is the content, Present (P) is the domain, 1 is the foundation “Select, analyze, and interpret artistic work for presentation”, and A is the actual standard.

6.IM.P.2.C Demonstrate musical literacy on the instrument, individually and in ensemble settings, by adequately sight-reading a varied repertoire of music. For example: Demonstrate an understanding of basic elements associated with successful sight-reading.

Sixth Grade (6) is the grade, Instrumental Music (IM) is the content, Perform (P) is the domain, 2 is the foundation “Develop and refine artistic techniques and work for performance”, and C is the third standard under this foundation.

Additional Considerations

The following are several considerations to provide context around the revised standards for arts education:

1. Literacy in the Arts Classrooms

Literacy is an important concept in all academic areas. Rather than being a stand-alone subject area, literacy provides a pathway for cognition, enabling students to learn content efficiently and express themselves effectively. The arts, like all subject areas, help to reinforce literacy through the careful study of discipline specific vocabulary, the review of primary sources in the content, and a variety of engagement opportunities specifically in the artistic domains of “Respond” and “Connect”. However, the predominance of Tennessee Standards for Arts Education prioritizes the principles of artistic literacy, such as visual thinking strategies, aural literacy (audiation), and notation literacy (decoding symbolic systems of music notation to create and interpret meaning). To the goals of college and career readiness, it would be counter productive for school leaders to suggest that an arts teacher limit the implementation of the Tennessee Standards for Arts Education during instructional time in order to reinforce learning in English language arts classrooms. Arts teachers’ instructional efforts are best leveraged when creating synergy towards the multiple meanings of literacy instruction, and the multiple meanings are embedded as appropriate to each arts discipline in the Tennessee Standards for Arts Education.

2. Major Work of the Grade

As previously noted, the specific grade level and discipline within the arts will prioritize instructional time within certain foundations. Not all of the content in a given grade/course is emphasized equally in the standards. Some foundations require greater emphasis than others based on the depth of the ideas, the time that they take to master, and/or their importance to arts learning or the demands of college and career readiness. In addition, an intense focus on the most critical material at each grade allows depth in learning. That is not to say the other foundations are not important, only that the urgency towards mastery does not require the same amount of instructional time depending on the course and experience level of the young artists. For example, it might be common in level one beginning band and orchestra to prioritize instructional time in foundation P2 “Develop and refine artistic techniques and work for performance” and, for example, prioritize P3 “Convey and express meaning through the performance” more heavily as the student progresses though the middle school and high schools levels of instrumental music. While P1 “Select, analyze, and interpret artistic work for performance” would be covered during instruction, the relative instructional time needed to achieve the standards would not be comparable.

3. Grade Bands

Within the Tennessee Standards for Arts Education, elementary school is defined as grades K-5; middle school as grades 6-8; and high school as grades 9-12. It is important to note that in some content areas, the student point of entry is dependent upon certain factors and districts should exercise care when developing curriculum maps and course offerings. For example, to become college ready in most ensemble-based performing arts coursework, instruction should start in middle school and progress sequentially through high school. The Tennessee Standards for Arts Education are constructed to reflect this common expectation.

4. Opportunity to Learn Standards

The Tennessee Standards for Arts Education are written to reflect conditions described in the basic level programing from the National Opportunity to Learn Standards for Music and Arts Education.

Tennessee Academic Standards for Fine Arts Education

Dance and Theatre Introduction

The fine arts have always been an intrinsic part of a quality, well-rounded education—the kind of education Tennessee educators strive every day to offer our students. The incorporation of dance into public school education offers many of the necessary life skills that will help students to be productive and successful citizens in society, in addition to preparing students for paths of dance at the collegiate or possible career level. The skills offered through the arts, and in dance specifically, are exactly those Tennesseans strive to teach our students in all disciplines: positive self-expression and self-confidence, productive communication, teamwork and collaboration, critical analysis and evaluation, self-discipline, a strong work ethic, and the motivation to continuously strive towards excellence in any given task. To that end, these new teaching standards for dance serve to give all stakeholders in our students' education—teachers, parents, administrators, students, and community members—a rigorous and effective tool to facilitate dance education in our schools.

When writing these new standards, the writing team relied on the National Core Arts Standards (NCAS), a voluntary framework to guide arts education across America. (Read more about the NCAS [here](#).) In the foreword to the NCAS it states,

The central purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large.

With this explanation in mind, these standards were built the framework of the NCAS which is built on four key domains: Creating, Performing/Presenting/Producing, Connecting, and Responding. Within each of these domains are foundations and standards to support the development of curriculum, programs, and learning in dance. By keeping the domains and foundations of the NCAS, there is continuity not only across fine arts in Tennessee, but also across the US.

Each domain houses standards for each grade level through grade 8; then, standards for varying levels of dance and theatre proficiency in high school: beginner (HS1), intermediate (HS2), advanced (HS3), and pre-professional (HS4). There are instances where the standards between (HS3) and (HS4) look similar at each level. In these instances, the underlying concepts should increase in rigor from year to year.

This framework allows for greater teacher flexibility while also increasing rigor in the discipline and keeping many of the positive elements from the original Tennessee state standards. On the following page is an outline for a suggested progression through the foundations, intended to help guide instructors through the new format and language of

the dance standards.

Overall, this updated set of standards is designed for teacher flexibility. Teachers are the best judges of how to plan, build, implement, assess, and differentiate instruction. Teachers have access to and support from a variety of resources and should be able to use those resources in the way they see fit to best facilitate their instruction. These standards are purposefully broad for the sake of district curriculum development. Tennessee is a broad and diverse state with many cultures, practices, and values. It is important that every district be given autonomy to design a curriculum that is authentic to their population.

Standard D.P1.A	
Grade Level	Standards
K	K.D.P1.A Make still and moving body shapes that show lines (e.g., straight, bent, and curved), change levels, and vary in size (large/small). Join with others to make a circle formation and work with others to change dimensions.
1	1.D.P1.A Demonstrate locomotor and non-locomotor movements that change body shapes, levels, and facings. Move in straight, curved, and zig-zagged pathways. Find and return to place in space. Move with others to form straight lines and circles.
2	2.D.P1.A Demonstrate clear directionality and intent when performing locomotor and non-locomotor movements that change body shapes, facings, and pathways in space. Identify symmetrical and asymmetrical body shapes and examine relationships between body parts. Differentiate between circling and turning as two separate ways of continuous directional change.
3	3.D.P1.A Judge spaces as distance traveled and use space three-dimensionally. Demonstrate shapes with positive and negative space. Perform movement sequences in and through space with intentionality and focus.
4	4.D.P1.A Make static and dynamic shapes with positive and negative space. Perform elevated shapes (jump shapes) with soft landings and movement sequences alone and with others, establishing relationships with other dancers through focus of eyes.
5	5.D.P1.A Integrate static and dynamic shapes and floor and air pathways into dance sequences. Establish relationships with other dancers through focus of eyes and other body parts. Convert inward focus to outward focus for projecting out to far space.

DOMAIN: Perform

Foundation P1

Select, analyze, and interpret artistic work for presentation/performance/production.

Standard D.P1.B

Grade Level	Standards
K	K.D.P1.B Demonstrate tempo contrasts with movements that match to tempo of sound stimuli.
1	1.D.P1.B Relate quick, moderate, and slow movements to duration in time. Recognize steady beat and move to varying tempi of steady beat.
2	2.D.P1.B Identify the length of time a move or phrase takes (e.g., whether it is long or short). Identify and move on the downbeat in duple and triplemeter. Correlate metric phrasing with movement phrasing.
3	3.D.P1.B Fulfill specified duration of time with improvised locomotor and axial movements. Differentiate between "in time" and "out of time" to music. Perform movements that are the same or of a different time orientation to accompaniment. Use metric and kinesthetic phrasing.
4	4.D.P1.B Accompany other dancers using a variety of percussive instruments and sounds. Respond in movement to even and uneven rhythms. Recognize and respond to tempo changes as they occur in dance and music.
5	5.D.P1.B Dance to a variety of rhythms generated from internal and external sources. Perform movement phrases that show the ability to respond to changes in time.

DOMAIN: Perform

Foundation P1

Standard D.P1.C

Grade Level	Standards
K	K.D.P1.C Identify and apply different characteristics to movements (e.g., slow, smooth, or wavy).
1	1.D.P1.C Demonstrate movement characteristics along with movement vocabulary (e.g., use adverbs and adjectives that apply to movement such as a bouncy leap, a floppy fall, a jolly jump, and a joyful spin).
2	2.D.P1.C Select and apply appropriate characteristics to movements (e.g., selecting specific adverbs and adjectives and applying them to movements). Demonstrate kinesthetic awareness while dancing the movement characteristics.
3	3.D.P1.C Change use of energy and dynamics by modifying movements and applying specific characteristics to heighten the effect of their intent.
4	4.D.P1.C Analyze movements and phrases for use of energy and dynamic changes and use adverbs and adjectives to describe them. Based on the analysis, refine the phrases by incorporating a range of movement characteristics.
5	5.D.P1.C Contrast bound and free-flowing movements. Motivate movement from both central initiation (torso) and peripheral initiation (distal), and analyze the relationship between initiation and energy.

DOMAIN: Perform

Foundation P2

Standard D.P2.A

Grade Level	Standards
K	K.D.P2.A Demonstrate same-side and cross-body locomotor and non-locomotor movements, body patterning movements, and body shapes.
1	1.D.P2.A Demonstrate a range of locomotor and non-locomotor movements, body patterning, body shapes, and directionality.
2	2.D.P2.A Demonstrate a range of locomotor and non-locomotor movements, body patterning, and dance sequences that require moving through space using a variety of pathways.
3	3.D.P2.A Replicate body shapes, movement characteristics, and movement patterns in a dance sequence with awareness of body alignment and core support.
4	4.D.P2.A Demonstrate fundamental dance skills (e.g., alignment, coordination, balance, core support, kinesthetic awareness) and movement qualities when replicating and recalling patterns and sequences of locomotor and non-locomotor movements.
5	5.D.P2.A Recall and execute a series of dance phrases using fundamental dance skills (e.g., alignment, coordination, balance, core support, kinesthetic awareness, clarity of movement).

DOMAIN: Perform

Foundation P2

Develop and refine artistic techniques and work for performance.

Standard D.P2.B

Grade Level	Standards
K	K.D.P2.B Move safely in general space and start and stop on cue during activities, group formations, and creative explorations while maintaining personal space.

1	1.D.P2.B Move safely in general space through a range of activities and group formations while maintaining personal space.
2	2.D.P2.B Move safely in a variety of spatial relationships and formations with other dancers, sharing and maintaining personal space.
3	3.D.P2.B Adjust body-use to coordinate with a partner or other dancers to safely change levels, directions, and pathway designs
4	4.D.P2.B Execute techniques that extend movement range, build strength, and develop endurance. Explain the relationship between execution of technique, safe body-use, and healthful nutrition.
5	5.D.P2.B Demonstrate safe body-use practices during technical exercises and movement combinations. Discuss how these practices, along with healthful eating habits, promote strength, flexibility, endurance, and injury prevention.

Tennessee Academic Standards for Fine Arts Education

Media Arts Introduction

The fine arts standards (dance, media arts, music, theatre, and visual arts) are organized using the same overarching framework. First, the standards are divided into four distinct artistic processes, called domains. Each domain includes a series of ideas that unite the fine arts within those artistic processes, called foundations. Table 1 illustrates the four domains and foundations for media arts.

Table 1. Media Arts Domains and Foundations.

CREATE	PRODUCE	RESPOND	CONNECT
1. Generate and conceptualize artistic ideas and work. 2. Organize and develop artistic ideas and work. 3. Refine and complete artistic work.	1. Select, analyze, and interpret artistic work for production. 2. Develop and refine artistic work for production. 3. Convey and express meaning through the production of artistic work.	1. Perceive and analyze artistic work. 2. Interpret intent and meaning in artistic work. 3. Apply criteria to evaluate artistic work.	1. Synthesize and relate knowledge and personal experiences to artistic endeavors. 2. Relate artistic ideas and works with societal, cultural, and historical context.

The last layer in our framework is the standard. Each foundation includes standards that move students towards a deeper understanding of the media arts. Standards are building blocks that form a comprehensive, sequential education and describe student learning. Included with each foundation are enduring understandings and essential questions that connect each grade level and provide a context for the standards. Altogether, this framework sets the goals for the development of artistically literate citizens, preparing students not only for college and career, but also for a lifetime enhanced by and with the arts.

Enduring Understandings & Essential Questions

Enduring understandings and essential questions are included with each set of standards to guide conceptual thinking as students intentionally construct learning about the content of the standards. The enduring understandings and essential questions link individual standards back to big ideas that create connections to the arts, other academic subjects, and life. Enduring understandings are big ideas that students will explore and revisit over the course of their sequential artistic study and beyond K-12 education, into their lives as artistically literate citizens. Essential questions are designed to inspire authentic exploration of concepts in order to connect the content of the standards with essential understandings. These questions are open-ended and meant to be revisited several times and explored in many ways. The answers to essential questions are likely to evolve as students move toward mastery of the standards (National Coalition for Core Arts Standards [NCCAS], 2013).

Curriculum and Pacing

These standards outline sequential learning across grades and course levels and are best implemented when students have access to sequential courses within and across arts disciplines. It is up to individual districts to create curriculum that best suits the needs of their students. The amount of time spent on each standard within a grade level or course may be different. Media arts standards may be used both as a stand-alone content area and integrated within the other fine arts.

High School Levels

Within the standards, there are three levels of high school learning. A description of these levels is included below (NCCAS, 2013).

HS 1	HS 2	HS 3
<p>Students at the HS 1 level have developed the foundational technical and expressive skills and understandings in media arts necessary to solve assigned problems or prepare assigned repertoire for presentation; make appropriate choices with some support; and, may be prepared for active engagement in their community. They understand media arts to be an important form of personal realization and well-being and make connections between media arts, history, culture, and other learning.</p>	<p>Students at the HS 2 level are, with minimal assistance, able to identify or solve media arts problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and, create and refine media arts productions that demonstrate technical proficiency, personal communication, and expression. They use visual arts for personal realization and well-being and have the necessary skills for and interest in participation in media arts beyond the school environment.</p>	<p>Students at HS 3 level independently identify challenging media arts problems based on their interests or for specific purposes and bring creativity and insight to finding artistic solutions. They are facile in using at least one art form as an effective avenue for personal communication, demonstrating a higher level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as media arts learners. They are capable of taking a leadership role in arts activity within and beyond the school environment.</p>
<p>This level of achievement is attainable by most students who complete a high school level course in the arts beyond the foundation of quality K-8 instruction.</p>	<p>This level of achievement is attainable by most students who complete a rigorous sequence of high-school level courses beyond the HS 1 level.</p>	<p>This level and scope of achievement significantly exceeds HS 2 Level. Achievement at this level is indisputably rigorous and substantially expands students' knowledge, skills, and understandings beyond the expectations articulated for HS 2 achievement.</p>

Artistic Literacy, Visual Literacy, Textual Literacy

Literacy is a complex term with multiple definitions including: a set of skills, the knowledge and understanding of a particular content area, or the act of learning (Burnett, 2005). In the media arts standards, there are several types of literacy, which can involve some or all of these definitions as students engage in communication, interpreting and constructing meaning, using materials and techniques, and relating personal, historical, or contextual knowledge to artistic endeavors. The three specific areas of literacy that are included within the media arts standards are artistic, visual, and textual literacy, which have been defined in more detail below.

Artistic literacy is the knowledge and understanding required to participate authentically in the media arts. Fluency in the language of the media arts is the ability to Create, Produce, Respond, and Connect through symbolic and metaphoric forms that are unique to the media arts. It is embodied in specific lifelong goals that enable an artistically literate person to transfer visual arts knowledge, skills, and capacities to other subjects, settings, and contexts (NCCAS, 2013). Artistic literacy fosters connections among the arts and between the arts and other disciplines, thereby providing opportunities to access, develop, express, and integrate meaning within the media arts and across a variety of content areas.

Visual literacy is a general term used to describe the ability to engage with visual images. Understanding and analyzing the contextual, cultural, ethical, aesthetic, intellectual, and technical components involved in the production and use of visual materials requires visual literacy skills. Visual literacy is developed as a result of intentional practice in effectively finding, interpreting, evaluating, using, and creating images and visual media. An individual who is visually literate is both a thoughtful consumer of and contributor to visual materials (Hattwig, 2011).

Textual literacy is a term that has traditionally been used to describe reading, writing, and analyzing written text. However, many goals including engagement, understanding, and making meaning are common throughout each of the areas of literacy. When building textual literacy, it is common to ask students to cite evidence within the text to support inferences. This is similar to asking students to cite evidence within visual images to support inferences to meaning, mood, and purpose. Another link between textual, visual, and artistic literacies is the consideration of how context impacts the meaning of the material being studied. The media arts standards provide a unique opportunity to build textual literacy skills as visual and artistic literacy skills are developed due to the similarities between the areas of literacy.

Tennessee Academic Standards for Fine Arts Education

Visual Arts Introduction

The fine arts standards (dance, media arts, music, theatre, and visual arts) are organized using the same overarching framework. First, the standards are divided into four distinct artistic processes, called domains. Each domain includes a series of ideas that unite the fine arts within those artistic processes, called foundations. Table 1 illustrates the four domains and foundations for visual arts.

Table 1. Visual Arts Domains and Foundations.

CREATE	PRESENT	RESPOND	CONNECT
1. Generate and conceptualize artistic ideas and work. 2. Organize and develop artistic ideas and work. 3. Refine and complete artistic work.	1. Select, analyze, and interpret artistic work for production. 2. Develop and refine artistic work for production. 3. Convey and express meaning through the production of artistic work.	1. Perceive and analyze artistic work. 2. Interpret intent and meaning in artistic work. 3. Apply criteria to evaluate artistic work.	1. Synthesize and relate knowledge and personal experiences to artistic endeavors. 2. Relate artistic ideas and works with societal, cultural, and historical context.

The last layer in our framework is the standard. Each foundation includes standards that move students towards a deeper understanding of the visual arts. Standards are building blocks that form a comprehensive, sequential education and describe student learning. Included with each foundation are enduring understandings and essential questions that connect each grade level and provide a context for the standards. Altogether, this framework sets the goals for the development of artistically literate citizens, preparing students not only for college and career, but also for a lifetime enhanced by and with the arts.

Domains

There are four artistic processes in which our standards can be grouped: Create, Present, Respond, and Connect. These domains are explained in more detail below. See Appendix A for a comparison between the 2016 Foundations and the prior Tennessee Visual Arts Standards.

Create

Creation is the dominant foundation for the visual arts and is listed as the first domain in our content area due to its importance. The Create domain can be divided into three spiraling behaviors: 1) generating and conceptualizing artistic ideas and work; 2) organizing and developing ideas and work; and 3) refining and completing artistic work.

In the prior versions of the standards, using materials and developing technique were found in the Perform domain. This version of the standards includes materials and techniques as part of Create behaviors. A crosswalk has been included in Appendix A to illustrate the adjustment.

Present

The skills included in the Present domain have not been included in prior versions of the standards. However, Present will seem familiar to educators and students since the content of the domain is already happening within most visual arts curricula. High school students selecting work for their portfolios, middle school students planning, creating, and displaying art to inform their peers on social issues, and kindergarten students selecting one work of art to leave at school to display and one to take home to share with their family are all examples of how to meet standards within the Present domain.

The content of the Present domain is organized into three big ideas about the presentation of artwork: 1) selecting, analyzing, and interpreting artistic work for presentation; 2) developing and refining artistic techniques and work for presentation; and 3) conveying and expressing meaning through the presentation of artistic work. In other words, the standards in foundation P1 focus on the process that supports the selection of art for different purposes, the standards in foundation P2 are centered around consideration for preservation and presentation of art, and the standards in P3 explore the role of presentation spaces and the interactions that occur between the space and the people who view it.

The phrase “traditional and emerging spaces” appears several times within this domain. This phrase captures the inclusiveness of where and how art can be displayed without placing boundaries on the time, space, or format of the display. The spaces to display artwork within schools and communities vary throughout the state. Therefore, more autonomy is given to districts and educators to determine the most effective ways for students to master these standards. Also, since these standards will be used to guide instruction over the next six years, listing specific presentation spaces might have the unintentional consequence of excluding presentation spaces, which have yet to be created.

Respond

The Respond domain outlines standards in three overarching areas: 1) perceiving and analyzing artistic work; 2) interpreting intent and meaning in artistic work; and 3) applying criteria to evaluate artistic work. While the 2016 Respond standards closely align with the prior Respond standards, there are several notable differences. (See Appendix A for a crosswalk between the prior standards and the 2016 foundations.) First, the term “image” was selected for use in R.1.A, while the term “art” was used in R.1.B. The intent of using “image” is to provide educators and students autonomy to explore visual culture and the impact of images as a way to develop visual literacy. In contrast, R.1.B focuses more on analyzing images that were intentionally created as artwork.

Another difference can be found within the R.2 and R.3 standards. In R.3, students critique artworks, which can include interpretation. However, interpretation is a valuable process in itself, used to gain insights into the meaning of artwork. In R.2, students use a variety of strategies of interpretation including analyzing context, media, or subject matter while using appropriate art vocabulary (e.g., the elements of art and the principles of design).

Connect

The Connect domain includes two foundations: 1) synthesizing and relating knowledge and personal experiences to artistic endeavors; and 2) relating artistic ideas and works with societal, cultural, and historical context. The visual arts standards are also connected to other fine arts content areas by the standards framework, including the domains and foundations. Cn.1 asks students to make connections between art and other life experiences (which can include their study of other school subjects, like reading, math, science, and social studies). Cn.2 is very similar to our prior standards for history and culture.

Enduring Understandings & Essential Questions

Enduring understandings and essential questions are included with each set of standards to guide conceptual thinking as students intentionally construct learning about the content of the standards. The enduring understandings and essential questions link individual standards back to big ideas that create connections to the arts, other academic subjects, and life. Enduring understandings are big ideas that students will explore and revisit over the course of their sequential artistic study and beyond K-12 education, into their lives as artistically literate citizens. Essential questions are designed to inspire authentic exploration of concepts in order to connect the content of the standards with essential understandings. These questions are open-ended and meant to be revisited several times and explored in many ways. The answers to essential questions are likely to evolve as students move toward mastery of the standards (National Coalition for Core Arts Standards [NCCAS], 2013).

Curriculum and Pacing

These standards outline sequential learning across grades and course levels and are best implemented when students have access to sequential courses within and across arts disciplines. It is up to individual districts to create curriculum that best suits the needs of their students. The amount of time spent on each standard within a grade level or course may be different. For example, art history courses in high school will use the same standards. However, students in an art history course may spend considerably more time within the Respond and Connect domains.

High School Levels

Within the standards, there are three levels of high school learning. A description of these levels is included below (NCCAS, 2013).

HS 1	HS 2	HS 3
<p>Students at the HS 1 level have developed the foundational technical and expressive skills and understandings in visual arts necessary to solve assigned problems or prepare assigned repertoire for presentation; make appropriate choices with some support; and, may be prepared for active engagement in their community. They understand visual arts to be an important form of personal realization and well-being and make connections between visual arts, history, culture, and other learning.</p>	<p>Students at the HS 2 level are, with minimal assistance, able to identify or solve visual arts problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and, create and refine visual arts productions that demonstrate technical proficiency, personal communication, and expression. They use visual arts for personal realization and well-being and have the necessary skills for and interest in participation in visual arts beyond the school environment.</p>	<p>Students at HS 3 level independently identify challenging visual arts problems based on their interests or for specific purposes and bring creativity and insight to finding artistic solutions. They are facile in using at least one art form as an effective avenue for personal communication, demonstrating a higher level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as visual arts learners. They are capable of taking a leadership role in arts activity within and beyond the school environment.</p>
<p>This level of achievement is attainable by most students who complete a high school level course in the arts beyond the foundation of quality K-8 instruction.</p>	<p>This level of achievement is attainable by most students who complete a rigorous sequence of high-school level courses beyond the HS 1 level.</p>	<p>This level and scope of achievement significantly exceeds HS 2 Level. Achievement at this level is indisputably rigorous and substantially expands students' knowledge, skills, and understandings beyond the expectations articulated for HS 2 achievement.</p>

Artistic Literacy, Visual Literacy, Textual Literacy

Literacy is a complex term with multiple definitions including: a set of skills, the knowledge and understanding of a particular content area, or the act of learning (Burnett, 2005). In the visual arts standards, there are several types of literacy, which can involve some or all of these definitions as students engage in communication, interpreting and constructing meaning, using materials and techniques, and relating personal, historical, or contextual knowledge to artistic endeavors. The three specific areas of literacy that are included within the visual arts standards are artistic, visual, and textual literacy, which have been defined in more detail below.

Artistic literacy is the knowledge and understanding required to participate authentically in the visual arts. Fluency in the language of the visual arts is the ability to Create, Produce, Respond, and Connect through symbolic and metaphoric forms that are unique to the visual arts. It is embodied in specific lifelong goals that enable an artistically literate person to transfer visual arts knowledge, skills, and capacities to other subjects, settings, and contexts (NCCAS, 2013). Artistic literacy fosters connections among the arts and between the arts and other disciplines, thereby providing opportunities to access, develop, express, and integrate meaning within the visual arts and across a variety of content areas.

Visual literacy is a general term used to describe the ability to engage with visual images. Understanding and analyzing the contextual, cultural, ethical, aesthetic, intellectual, and technical components involved in the production and use of visual materials requires visual literacy skills. Visual literacy is developed as a result of intentional practice in effectively finding, interpreting, evaluating, using, and creating images and visual media. An individual who is visually literate is both a thoughtful consumer of and contributor to visual materials (Hattwig, 2011).

Textual literacy is a term that has traditionally been used to describe reading, writing, and analyzing written text. However, many goals including engagement, understanding, and making meaning are common throughout each of the areas of literacy. When building textual literacy, it is common to ask students to cite evidence within the text to support inferences. This is similar to asking students to cite evidence within visual images to support inferences to meaning, mood, and purpose. Another link between textual, visual, and artistic literacies is the consideration of how context impacts the meaning of the material being studied. The visual arts standards provide a unique opportunity to build textual literacy skills as visual and artistic literacy skills are developed due to the similarities between the areas of literacy.

General Music K-5 | GM

Considering the appropriate standards for K-5 music, it is clear that these years provide the best opportunities for artistic growth in the lives of children. The core arts standards serve as an opportunity to dive deeper into the domains that have traditionally been less emphasized, such as Connecting, Responding, and even Creating. While performance will continue to have a profound influence in our classrooms, the revised standards provide a more comprehensive experience that will empower students to excel in many musical roles. These standards allow opportunities for culturally responsive teaching that provides students with choices, thus facilitating a cooperative and collaborative musical process. Furthermore, these standards will help facilitate a powerful music education that will provide students with a solid foundation as they transition from elementary school into middle school.

Because music at the elementary level is designed to engage students in many musical roles, examples of ways to accomplish the standards are embedded. The goal is to empower teachers to decide how they want to accomplish the standards as opposed to accomplishing every example at once. The examples are also designed to increase rigor in the standards, while at the same time maintaining many of the positive elements found in the previous Tennessee music standards.

One of the primary changes found in the revised standards is the incorporation of movement. Movement is an essential element in music, especially for kinesthetic learners. In many cultures throughout the world, movement is an essential element of musical performance. In the same way that many musicians view the playing of instruments as an extension of their voice, movement can also be construed as an extension of one's internal musicianship. Lastly, the incorporation of movement into the standards will empower teachers to assess students' musical growth through varied means.

On the whole, this set of standards is designed to support teacher flexibility. Teachers are the best judges of how to differentiate instruction. While these standards differentiate by grade level, they do not differentiate within the grade level. For the sake of assessment, teachers have the ability to reference these standards and score their students with whatever rubric they deem fit for a particular activity. In the same way, teachers should have the authority to guide students in their growth, both in the process of music and the elements of music. With respect to the elements of music, we ascribe to the National Core Arts Standards handbook found [here](#).

Within the Perform domain, asterisks have been supplied for several standards. While the standards look similar at each grade level, the concepts should increase in rigor from year to year. The following concepts are assumed in order to accomplish these standards by the following grade levels:

- **K.GM.P1.B** Music contrasts: high/low, fast/slow, loud/soft, same/different, upward/downward, smooth/jerky, heavy/light.
- **K.GM.P3.A** Echo songs, pitch-exploration games, sol-mi and la-sol-mi patterns on neutral syllables, simple songs with limited pitches, pentatonic/diatonic melodies, questions/answers, in circle formation.
- **K.GM.P3.B** Exploring steady beat, iconic notation, chord bordun, with a song/story/poem/recording
- **1.GM.P3.A** Echo songs, pitch-matching games, la-sol-mi patterns on neutral syllables and with pitch names, simple songs with limited pitches, pentatonic/diatonic melodies, questions/answers, in circle formation, simple ostinatos.
- **1.GM.P3.B** Practicing steady beat, simple rhythm patterns in iconic and standard notation, beat vs. rhythm, chord bordun, with a song/story/poem/recording.
- **2.GM.P3.A** Echo songs, pitch-matching games, la-sol-mi-re-do patterns on neutral syllables and with pitch names, songs with limited pitches, pentatonic/diatonic melodies, questions/answers, in circle formation, ostinatos, simple canons, partner songs.
- **2.GM.P3.B** Maintaining a steady beat, rhythm patterns, iconic notation and standard notation, chord bordun, ostinatos, with a song/story/poem/recording.
- **3.GM.P3.A** Pitch-matching games, la, sol, mi, re, do, do' patterns, extended pentatonic/diatonic melodies, questions/answers, in circle formation, in major/minor, partner songs and incanon.
- **3.GM.P3.B** Performing standard notation, ascending/descending, a pitched accompaniment, a bordun, extended rhythm patterns, appropriate technique, with a conductor.
- **4.GM.P3.A** Pitch matching games, sol-la-do-re-mi-sol-la-do' patterns, extended pentatonic/diatonic melodies, questions/answers, in circle formation, in

major/minor, in canon, partner songs, and with proper posture/diction/tone/breath support/placement.

- **4.GM.P3.B** Standard notation, ascending/descending, canon, pitched accompaniment, a chord/broken chord/level bordun, extended rhythm patterns, appropriate technique (mallet technique, tone, etc.), with a conductor in various tempi/dynamics, and a melody.
- **5.GM.P3.A** Pitch matching games, extended scales/modes, questions/answers, in circle formation, in major/minor, in canon, partner songs, and with proper posture/diction/tone/breath support/placement/enunciation).
- **5.GM.P3.B** Standard notation, ascending/descending, canon, a pitched accompaniment, a chord/broken chord/level bordun, extended rhythm patterns, appropriate technique (mallet technique, tone, etc.), with a teacher/student conductor in various tempi/dynamics, and a melody.

Research has shown the benefits of understanding form, especially when it comes to the Create domain. Because of this, Kindergarten places an emphasis on understanding music in the context of a beginning, middle, and end. While it is not necessary for students at this level to understand complex form, it is important for them to understand form in its basic terms.

Lastly, it is important to be aware that these standards are purposefully broad in order to accommodate localized curriculum development. Tennessee is a large and diverse state with many cultures, practices, and values. It is important that every district be given the autonomy to design a curriculum that is authentic to their population.

General Music 6 – 8 | GM

This document represents the collective work of a team of educators from all regions of Tennessee and from all levels of music education, whose fundamental goal is to propose new music standards for the state of Tennessee. The new state standards endeavor to maintain the curricular integrity of music education across the state, build upon traditions of musical excellence established by the previous standards, foster creativity and artistry in all students, and empower music educators to provide a rigorous and relevant music curriculum that fully equips students with the skills, knowledge, and understanding necessary for success in their future musical and non-musical endeavors.

Additionally, the writing team strived to ensure a smooth transition from the 1994 standards to the new state standards. The new Tennessee music standards are intended to mirror, but not replicate, the NCCAS Core Arts Standards. Primarily, the writing team made a purposeful effort to avoid curricular specificity within the new standards, understanding that circumstances differ from campus to campus, and that curriculum should be decided at the local level. Therefore, it is incumbent on the individual teacher to enhance and adjust curriculum to fit the specific needs of his/her instructional situation, while still adhering to the rigor and expectations of the standards.

In addition, while the 1994 standards were structured and applied globally, without regard to content specificity, the new National Core Arts and Tennessee state standards are individualized to address the unique needs of general music, traditional and emerging ensembles, and music theory and history courses. Furthermore, the 1994 standards focused on the varied means in which people participate in or interact with music. In contrast, the new state standards are more specifically geared towards the processes by which people make music, including Creating, Performing, Responding, and Connecting.

Concerning the application of the new state standards, what teachers used to call *standards* are now referred to as *foundations* that fall under the larger umbrella of the *artistic processes*. What the state used to call *grade/course level expectations* and *student performance indicators* are now called *standards*. (See the table below for clarification). Finally, the foundations within each artistic process propose an intended sequence from one standard to the next as a means of developing students' competency with each step of the process.

With specific regard to general music, application of the new standards will enable teachers to make a clearer delineation and differentiation between standards for performing ensembles and general music classes, understanding that, traditionally, students in middle and high school general music class are non-musicians whose life-long participation with music is more geared towards recreational music and are often more fulfilled through Responding and Connecting than Creating or Performing. This is not to say that the new state standards for general music neglect to emphasize Creating and Performing, but to emphasize that these two areas are addressed differently in general music than they are in traditional and emerging ensembles.

General Music 9 - 12 | GM

This document represents the collective work of a team of educators from all regions of Tennessee and from all levels of music education, whose fundamental goal is to propose new music standards for the state of Tennessee. The new state standards endeavor to maintain the curricular integrity of music education across the state, build upon traditions of musical excellence established by the previous standards, foster creativity and artistry in all students, and empower music educators to provide a rigorous and relevant music curriculum that fully equips students with the skills, knowledge, and understanding necessary for success in their future musical and non-musical endeavors.

Additionally, the writing team strived to ensure a smooth transition from the 1994 standards to the new state standards. The new Tennessee music standards are intended to mirror, but not replicate, the NCCAS Core Arts Standards. Primarily, the writing team made a purposeful effort to avoid curricular specificity within the new standards, understanding that circumstances differ from campus to campus, and that curriculum should be decided at the local level. Therefore, it is incumbent on the individual teacher to enhance and adjust curriculum to fit the specific needs of his/her instructional situation, while still adhering to the rigor and expectations of the standards.

In addition, while the 1994 standards were structured and applied globally, without regard to content specificity, the new National Core Arts and Tennessee state standards are individualized to address the unique needs of general music, traditional and emerging ensembles, and music theory and history courses. Furthermore, the 1994 standards focused on the varied means in which people participate in or interact with music. In contrast, the new state standards are more specifically geared towards the processes by which people make music, including Creating, Performing, Responding, and Connecting.

Concerning the application of the new state standards, what teachers used to call *standards* are now referred to as *foundations* that fall under the larger umbrella of the *artistic processes*. What the state used to call *grade/course level expectations* and *student performance indicators* are now called *standards*. (See the table below for clarification). Finally, the foundations within each artistic process propose an intended sequence from one standard to the next as a means of developing students' competency with each step of the process.

With specific regard to general music, application of the new standards will enable teachers to make a clearer delineation and differentiation between standards for performing ensembles and general music classes, understanding that, traditionally, students in middle and high school general music class are non-musicians whose life-long participation with music is more geared towards recreational music and are often more fulfilled through Responding and Connecting than Creating or Performing. This is not to say that the new state standards for general music neglect to emphasize Creating and Performing, but to emphasize that these two areas are addressed differently in general music than they are in traditional and emerging ensembles.

In addition, while the standards for many of the content areas include grade or level differentiation, this distinction was not applied to 9-12 general music. As of this writing, there is only one fine arts requirement at the high school level, implying that students who are not in performing ensembles typically take one general music class, rendering specified levels invalid. Instead of *HS1*, *HS2*, *HS3*, and *HS4*, this course will be coded as *HS*.

Instrumental Music 6-8 | IM

For Instrumental Music 6-8, the major work of the discipline falls within the Perform domain. Concepts covered in the Create, Connect, and Respond domains are accessible only after students are thoroughly versed in the fundamental skills necessary to perform on an instrument. Standards are specifically adapted towards the artistic processes by which people make music: Performing, Creating, Responding, and Connecting. The foundations within each artistic process propose an intended sequence of scaffolding skill levels as a means of developing students' competency.

Literacy in the instrumental music classroom is being able to read, write, and perform music. Just as the study of various languages promotes overall literacy, reading and writing musical notation, expressive markings, and harmonic structure unlocks new patterns of thought, exploring the analytical, mathematical, and linguistic centers of the mind. Musical literacy is decoding at its best. The language of music encompasses the senses of touch, sight, and hearing. These processes demand the student to balance their physical and intellectual actions and personal discipline in ways not explored in other academic areas.

The activity of instrumental music provides students opportunities for high and varied levels of critical thinking. Students of instrumental music develop a second written language and artistically-enhanced physical skills. They learn to work independently and within groups, as critical thinkers, problem solvers, and contributing members of a larger unit. Problem solving in the instrumental classroom is immediate and continuous as the music is being produced. Creative decision making, individually and in groups, results in final artistic products. Instrumental music instruction cultivates an individual who is capable of multi-tasking, managing time, working alone, and collaborating with others.

Instrumental Music 9-12 | IM

For Instrumental Music 9-12, the major work of the discipline falls within the Perform domain. Instrumental music instruction cultivates an individual who is capable of multi-tasking, managing time, working alone, and collaborating with others.

Finally, there is not an intentional pairing of grade level with ability level or mastery level. It is expected that some grade 11 or 12 students may be first-year ensemble members and/or at a musical level of HS1 or HS2; and an inverse situation may exist wherein a grade 9 student may be at a HS2 or HS3 level as a musician. Therefore, the standards are written for flexible application in high school choral and instrumental ensembles, wherein assigning musical or developmental level is at the discretion of the individual teacher.

Vocal Music 6-8 | VM

For Vocal Music 6-8, the major work of the discipline falls within the Perform domain. Concepts covered in the Create, Connect, and Respond domains are accessible only after students are thoroughly versed in the fundamental skills necessary to perform on an instrument. Standards are specifically adapted towards the artistic processes by which people make music: Performing, Creating, Responding, and Connecting. The foundations within each artistic process propose an intended sequence of scaffolding skill levels as a means of developing students' competency.

Literacy in the vocal music classroom is being able to read, write, and perform music. Just as the study of various languages promotes overall literacy, reading and writing musical notation, expressive markings, and harmonic structure unlocks new patterns of thought, exploring the analytical, mathematical, and linguistic centers of themind. Musical literacy is decoding at its best. The language of music encompasses the senses of touch, sight, and hearing. These processes demand the student to balance their physical and intellectual actions and personal discipline in ways not explored in other academic areas.

The activity of vocal music provides students opportunities for high and varied levels of critical thinking. Students of vocal music develop a second written language and artistically-enhanced physical skills. They learn to work independently and within groups, as critical thinkers, problem solvers, and contributing members of a larger unit. Problem solving in the vocal classroom is immediate and continuous as the music is being produced. Creative decision making, individually and in groups, results in final artistic products. Vocal music instruction cultivates an individual who is capable of multi-tasking, managing time, working alone, and collaborating with others.

Vocal Music 9-12 | VM

For Vocal Music 9-12, the major work of the discipline falls within the Perform domain. Concepts covered in the Create, Connect, and Respond domains are accessible only after students are thoroughly versed in the fundamental skills necessary to perform on an instrument. Standards are specifically adapted towards the artistic processes by which people make music: Performing, Creating, Responding, and Connecting. The foundations within each artistic process propose an intended sequence of scaffolding skill levels as a means of developing students' competency.

Literacy in the vocal music classroom is being able to read, write, and perform music. Just as the study of various languages promotes overall literacy, reading and writing musical notation, expressive markings, and harmonic structure unlocks new patterns of thought, exploring the analytical, mathematical, and linguistic centers of the mind. Musical literacy is decoding at its best. The language of music encompasses the senses of touch, sight, and hearing. Vocal music instruction cultivates an individual who is capable of multi-tasking, managing time, working alone, and collaborating with others.

Finally, there is not an intentional pairing of grade level with ability level or mastery level. The appearance of pairing grade 9 with HS1, grade 10 with HS2, and so on, is to provide two different options for viewing the standards and determining the appropriate developmental level of a high school ensemble or individual student. It is expected that some grade 11 or 12 students may be first-year ensemble members and/or at a musical level of HS1 or HS2; and an inverse situation may exist wherein a grade 9 student may be at a HS2 or HS3 level as a musician. Therefore, the standards are written for flexible application in high school choral and instrumental ensembles, wherein assigning musical or developmental level is at the discretion of the individual teacher.

Music Theory 9 – 12 | MT

This document represents the collective work of a team of educators from all regions of Tennessee and from all levels of music education, whose fundamental goal is to propose new music standards for the state of Tennessee. The new state standards endeavor to maintain the curricular integrity of music education across the state, build upon traditions of musical excellence established by the previous standards, foster creativity and artistry in all students, and empower music educators to provide a rigorous and relevant music curriculum that fully equips students with the skills, knowledge, and understanding necessary for success in their future musical and non-musical endeavors.

Additionally, the writing team strived to ensure a smooth transition from the 1994 standards to the new state standards. The new Tennessee music standards are intended to mirror, but not replicate, the NCCAS Core Arts Standards. Primarily, the writing team made a purposeful effort to avoid curricular specificity within the new standards, understanding that circumstances differ from campus to campus, and that curriculum should be decided at the local level. Therefore, it is incumbent on the individual teacher to enhance and adjust curriculum to fit the specific needs of his/her instructional situation, while still adhering to the rigor and expectations of the standards.

In addition, while the 1994 standards were structured and applied globally, without regard to content specificity, the new National Core Arts and Tennessee state standards are individualized to address the unique needs of general music, traditional and emerging ensembles, and music theory and history courses. Furthermore, the 1994 standards focused on the varied means in which people participate in or interact with music. In contrast, the new state standards are more specifically geared towards the processes by which people make music, including Creating, Performing, Responding, and Connecting.

Concerning the application of the new state standards, what teachers used to call *standards* are now referred to as *foundations* that fall under the larger umbrella of the *artistic processes*. What the state used to call *grade/course level expectations* and *student performance indicators* are now called *standards*. (See the table below for clarification). Finally, the foundations within each artistic process propose an intended sequence from one standard to the next as a means of developing students' competency with each step of the process.

With specific regard to music theory, application of the new standards will enable teachers to make a clearer delineation and differentiation between standards for performing ensembles and music theory classes. Namely, while Performance may be a component of music theory, Creating, Responding, and Connecting may be more stringently emphasized in music theory than in an ensemble setting.

In addition, while the standards for many of the content areas include grade or level differentiation, this distinction was not applied to 9-12 music theory. As of this writing, there is only one fine-arts requirement at the high school level, implying that students typically take one music theory class, rendering specified levels invalid. Instead of *HS1*, *HS2*, *HS3*, and *HS4*, this course will be coded as *HS*.

Tennessee Academic Standards for Fine Arts Education

Music Glossary

AB form: (see *binary form*)

ABA form: (see *ternary form*)

A cappella: Unaccompanied vocal music.

Ability: Natural aptitude in specific skills and processes; what the student is able to do without formal instruction.

Accompaniment: A vocal or instrumental part that supports or is background for a principal part or parts.

Alla breve: A tempo marking indicating a quick duple meter with the half note rather than the quarter note getting the beat (2/2 rather than 4/4); sometimes referred to as *cut time*.

Analog: Non-digital material that does not transfer or convert sound into binary code (e.g., acoustic piano, microphone, monitors, etc.).

Analyze: To examine in detail the structure and content of the artistic piece.

Anticipation (guitar): Placing an accent before beats 1 and 3, often performed as an upward strum tied to downbeats of 1 and 3.

Arpeggio: A term used to describe the pitches of a chord as they are played one after the other, rather than simultaneously.

Arrange: To create an adaptation of a composition.

Articulation: In performance, the characteristics of attack and decay of tones and the means by which these characteristics are produced.

Artistic foundations: Fundamental practices and procedures, as adopted by the state of Tennessee, used to govern art instruction at the K-12 levels; formerly known as *standards*.

Artistic literacy: Technical knowledge of vocabulary, technique, and skill and the appropriate interpretation thereof to carry out the artistic processes of creating, performing, and responding to music.

Artistic processes: The four broad methodologies of artistic study--perform, create, connect, respond--through which young artists present an artistic text, generate original art, appraise and assess musical works, and relate music to historical and cultural contexts.

Atonal: Music in which no single tone is the home base or key center.

Audiate: To hear and comprehend sounds in one's mind (inner hearing), especially in the absence of an outside stimulus.

Audience etiquette: A code of conduct expected from those attending musical performances, which can vary from one setting to the next.

Aurally: Pertaining to the ear or the sense of hearing.

Basic harmonic accompaniment: I-IV-V chord progression used as an accompaniment.

Beat: Underlying steady pulse present in most music.

Binary form: A musical form consisting of two main sections.

Blues progression: I-IV-I-I; IV-IV-I-I; V-IV-I-I. Sometimes referred to as twelve-bar blues.

Blues scale: A major scale in which the third and seventh are lowered a half-step.

Body percussion: The use of the body to create un-pitched sounds (e.g., pat, clap, snap, stomp).

Bordun: Accompaniment created by sounding two tones, an interval of a fifth, continually throughout a composition.

Bowing: The technique of using the bow on a stringed instrument.

C Position (piano): Notes included in the 5-finger hand position starting on C (C, D, E, F, G).

Chant: (1) the rhythmic recitation of text without a sung melody; (2) a type of singing characterized by a simple melody line and free rhythm.

Chord: a combination of three or more pitches sounded simultaneously.

Chordal: music characterized more by harmony than by counterpoint.

Chord melody guitar style: Chord voicing with melody on top string.

Chord progression (harmonic progression): A succession of two or more chords; a basic progression is I-IV-V, in a given key.

Classroom instruments: Instruments typically used in the general music classroom, including recorders, autoharps, mallet instruments, pitched and unpitched percussion instruments, fretted instruments, keyboard instruments, and electronic instruments.

Collaboratively-developed criteria: Criteria for assessing achievement that have been developed through collective decision making.

Common practice period: End of Baroque period to the beginning of the Romantic period (basically, the Classical period).

Compose: To create music.

Compound meter: A meter that includes a triple subdivision within a beat(e.g., 6/8) or that has a numerator greater than four (e.g., 5/4).

Concert pitch: Actual sound produced by an instrument as distinct from a written note for transposing instruments.

Connect: To develop relationships among artistic ideas, personal meaning, and/or external context.

Create: To conceive and develop new artistic ideas through improvisation, composition, or arrangement.

Diction: Pronunciation and enunciation of words in singing.

Digital: Category of musical equipment that manipulate sound using binary code, such as electronic instruments, digital audio interfaces, MIDI, computer software, etc.

Digital environment: Simulated place made or created through the use of one or more computers, sensors, or other equipment.

Domains: Basic artistic processes that are broken into four categories: Perform,

Create, Respond, and Connect. These are referred to as *domains*.

Double stop: Playing two strings at the same time.

Dynamic levels, dynamics: Degrees of intensity, most commonly applied to volume of the sound, but also relating to character of the piece, especially in Baroque works.

Elements of music: Pitch, rhythm, harmony, dynamics, timbre, texture, form, and tempo.

Embouchure: The proper position of lips in playing wind instruments.

Ensemble: A group of individuals organized to perform artistic work.

Established criteria: Traits or dimensions for making quality artistic judgments of a particular style, genre, cultural context, or historical period that have gained general acceptance and application over time.

Event: The point at which a change occurs in the music (e.g., modulation, entrance of a solo, tempo change, dynamic change).

Expression, expressive: Use of appropriate dynamics, phrasing, style, and interpretation and appropriate variations in dynamics and tempo to convey feelings through art.

Form: The overall structural organization of a music composition (e.g., AB, ABA, call and response, rondo, theme and variations, sonata-allegro) and the interrelationships of music events within the overall structure.

Found sounds: Music produced by nontraditional instruments.

Foundations: Within each basic artistic process (*domain*) there are statements that apply to all disciplines within the arts. These statements are referred to as *foundations*.

Genre: A type or category of music (e.g., sonata, opera, symphony, jazz, march, lullaby).

Grades of difficulty: For purposes of these standards, music is classified into six levels of difficulty:

- **Grade I:** Very easy; easy keys, meters, and rhythms; limited ranges.
- **Grade II:** Easy; may include changes of tempo, key, and meter; modest ranges.

- **Grade III:** Moderately easy; contains moderate technical demands, expanded ranges, and varied interpretive requirements.
- **Grade IV:** Moderately difficult; requires well-developed technical skills, attention to phrasing and interpretation, and ability to perform various meters and rhythms in a variety of keys.
- **Grade V:** Difficult; requires advanced technical and interpretive skills; contains key signatures with numerous sharps or flats, unusual meters, complex rhythms, and subtle dynamic requirements.
- **Grade VI:** Very difficult; suitable for musically mature students of exceptional competence.

Harmonizing instruments: Chordophone instruments capable of producing harmonies as well as melodies, often used to provide chordal accompaniment for melodies and songs.

Heterophonic: Musical texture in which slightly different versions of the same melody sound simultaneously.

Historical context: Conditions of the time and place in which music was created or performed that are vital to the preparation and presentation of an artistic event.

Homophonic: Musical texture in which all parts move in the same rhythm but use different pitches, as in hymns; also, a melody supported by chords.

Iconic notation: Way of writing music (e.g., pitch, rhythm, dynamics) using nontraditional symbols or characters.

Improvise: To create music spontaneously, often within a framework determined by the musical style.

Interval: The relationship between two pitches (e.g., major third, minor third).

Intonation: Singing or playing the correct pitch in tune.

Key signature: The sharps or flats, or absence of either, at the beginning of a piece of music, indicating the sharps, flats, and naturals belonging to the key of the music.

Meter: The grouping in which a succession of rhythmic pulses or beats is organized; indicated by a time signature at the beginning of a work.

MIDI (Musical Instrument Digital Interface): Standard specifications that enable electronic instruments, such as the synthesizer, sampler, sequencer, and drum machine from any manufacturer, to communicate with one another and with

computers.

Modal tonalities: Music based on scales other than major, minor, or pentatonic (e.g., Mixolydian).

Modes: Seven-tone scales that include five whole steps and two half steps; the seven possible modes include: Ionian, Dorian, Phrygian, Lydian, Mixolydian, Aeolian, and Locrian; these were used in Medieval and Renaissance periods and served as the basis from which major and minor scales emerged.

Modulation: The process of changing from one key to another.

Monophonic: Musical texture consisting of a single, unaccompanied melodic line.

Musical periods: Renaissance (1450-1600), Baroque (1600-1750), Classical (1750-1820), Romantic (1820-1900), and Contemporary (1900- present).

Nonstandard notation: Symbols to indicate sounds not typically used in standard notation (e.g., flutter tonguing, clapping, tapping on the instrument or music stand, key or valve clicks).

Notation: Visual representation of musical sounds.

Obbligato: An elaborate melodic part accompanying a solo or principal melody.

Open-ended assessment: Assessment that allows students to demonstrate the learning of a particular goal in multiple ways, such as demonstrating understanding of rhythmic notation by moving, singing or chanting.

Orally: Pertaining to speech.

Orchestration: Specifying the use of particular instruments in a composition.

Ostinato: A short musical pattern that is repeated persistently.

Pentatonic scale: Music based on a five-tone scale; most often referred to the scale using tones, Do, Re, Mi, Sol, and La.

Perform: The process of realizing artistic ideas and work through interpretation and presentation.

Performance medium: Type of ensemble or soloist performing (e.g., band, orchestra, chorus, jazz ensemble, vocalist).

Polyphonic: Musical texture in which two or more melodies sound simultaneously.

Polytonal: Music in which two or more tonalities (keys) sound simultaneously.

Practice tools: Use of metronome, naming notes, isolating rhythms, isolating finger technique, recording oneself. These and many other techniques can be referred to as basic practice tools.

Primary chords: Chords built on the tonic (I), subdominant (IV), and dominant (V) notes of a scale.

Refine: To make changes in artistic works or performances to more effectively realize intent through technical quality or expression.

Respond: To give written or oral feedback, based on a prescribed set of criteria, on the quality of a musical event, while describing how the music was used to convey meaning.

Retardation (guitar): Placing accent after beats 1 and 3, often performed as an upward strum tied to downbeats of 2 and 4.

Rondo: A musical form in which the A section alternates with contrasting sections (ABACA).

Rubric: Established, ordered set of criteria for judging an artistic performance, including descriptors of work at various levels of achievement.

Rudiments: Various rhythms with prescribed sticking combinations used by percussionists.

Scale: a succession of tones.

- **Major:** succession of tones in the following pattern of half steps (H) and whole steps (W): WWHWWWH.
- **Minor:** succession of tones in three different patterns:
 - **Natural:** a minor scale that shares the same key signature as the relative major and is in the following pattern of half steps and whole steps: WHWWHWW.
 - **Harmonic:** Natural minor scale with a raised 7th step.
 - **Melodic:** Natural minor scale with a raised 6th and 7th ascending, and natural minor scale descending.

Sight reading: To read and perform music at sight, without preparation.

Simple meter: Any meter in which the number of beats is a multiple of two.

Singer's formant: A high spectrum peak occurring around 3000Hz in vocal sounds; also associated with “vocal ring” and with the vocal ability to project over background noise (e.g., choir, orchestra); the position of the mouth of the singer so that the sound produced leads to strong overtones.

Social context: Civil and cultural parameters of a distinct time and location during which music was created or performed that are vital to the preparation and presentation of a musical event.

Staff: The five lines and four spaces on which music is notated.

Stage presence: Performer's ability to convey artistic content to a live audience through traits such as personal engagement with the repertoire, exhibited confidence, decorum, eye contact, posture, and facial expression.

Standard notation: Music written on one or more staves, using traditional note symbols and clefs to indicate pitch locations and durations.

Standards: Within each *foundation* (cross-discipline statement) there are explicit descriptions of what students should know and be able to do as a result of art instruction within a specified course of study. These descriptions are referred to as *standards*.

Style: The distinctive or characteristic manner in which the elements of music are treated (e.g., the style of Copland, Baroque style, French style, fugal style).
Style Periods: Historical Periods.

Symbols of musical expression: Commonly accepted written symbols for expressive elements such as dynamics, tempo, articulation, phrasing, and style.

Syncopation: An arrangement of rhythm that places emphasis on weak beats or weak parts of beats.

Tennessee Bandmasters Association (TBA): the band governing body that maintains the graded music list for wind band literature at large ensemble assessment events (<http://www.tennesseebandmasters.org/>).

Technical accuracy: The ability to perform with appropriate tone, intonation, diction, articulation, attacks, and releases and to play or sing the correct pitches and rhythms.

Technique: The mechanical skill required to effectively engage in a musical work.

Tempo: The speed of the music.

Ternary form: A musical form consisting of three main sections.

Texture: The general pattern of sound created by the elements of a work or passage.

Timbre: Characteristic tone color which distinguishes one instrument or voice from another.

Time signature: The numbers placed at the beginning of a composition to indicate the meter of the music. The upper number indicates the number of beats in a measure; the lower number indicates the kind of note that receives one beat.

Tone: A musical sound that has the properties of pitch, duration, volume, and timbre.

Transpose: To adapt a composition for a medium other than its original one (e.g., vocal music transcribed for instruments or a piano work transcribed for orchestra).

University Interscholastic League (UIL): The organization that provides sight reading parameters for Tennessee large ensemble assessment events (<http://www.uiltx.org/music>).

Unison: Singing or playing the same notes by all singers or players, either at exactly the same pitch or in a different octave.

Variation: The manipulation of a theme by the use of melodic, rhythmic, and harmonic changes.

Vocables: Audible, indecipherable sounds and/or syllables used by vocalists to convey musical ideas or intent.

Vocal production (vocal technique): A singer's vocal tone as determined by the combination of correct posture, effective breathing, raised soft palate, tonal placement, and diction.
