

---

**Day in the District: Chester County**

---

**The Background:**

The State Board seeks to engage with education stakeholders across Tennessee and plans several Day in the District events for its members to attend. On these days, State Board members have the opportunity to spend time in one of their local districts, meeting with and learning from district and community leaders, community partners, principals, educators, and students.

On September 13, 2022, Mr. Larry Jensen attended a Day in the District in Chester County and spent time engaging with Director of Schools, Troy Kilzer, Chester County Mayor, Barry Hutcherson, Chester County Schools board members, Representative Kirk Haston, school and district leadership, and the staff and students at Chester County High School.

Mr. Jensen will provide an oral report on the day.
