
Educator Vacancy Report 2024-25

The Background:

The State Board of Education's 2022-25 Master Plan requires the State Board to review data provided by the Tennessee Department of Education on educator workforce shortages at least annually. This data can inform state policy decisions as well as advanced planning by districts and education preparation providers.

Connection to the [Master Plan](#):

This item supports the State Board's strategic focus on Teachers and Leaders outlined in the Master Plan by providing updated data on areas of educator shortage.

The Recommendation:

This item is for informational purposes only; no action is required.
