
2025 Master Plan Report

The Background:

As required in the State Board's Master Plan, the State Board will publicly report on progress toward expected outcomes through the production and publication of an annual report. This report item is the State Board's third and final annual report for its current Master Plan. The State Board will approve an updated Master Plan at its first quarterly board meeting of 2026.

The 2025 Master Plan Report includes the outcomes, actions, and next steps for the State Board within each of the four strategic focus areas defined in its Master Plan.

Connection to the Master Plan:

This item publicly reports on the progress and outcomes related to all the strategic focus areas outlined in the Master Plan.

The Recommendation:

This item is for informational purposes only; no action is required.
