The Pathways to Opportunity are Paved with Skills

Kacey Thorne—Director Skills Architecture
Western Governors University

Darin R. Hobbs—Vice President, Academic Records, Credentials, and Career
Western Governors University
Problem We Are Trying to Solve

Learners need to gain new skills, reskill, or upskill across their lifetime.

Pathways are static and inflexible, presenting learners with fixed options that don't always consider their unique needs.

Academic achievements don't reflect the skills employers care most about.

Learners don't have the information or the tools to communicate the value of what they've achieved.

Learner records are flat, paper transcripts that tell little to nothing of a learner's journey.
Enabling Pathways to Opportunity

Surface credentials to a learner-owned record and achievement wallet

Build skills-denominated credentials

Provide powerful career and education pathway compassing
WGU Achievement Architecture

The design and configuration of academic achievements based on open technical standards to enable the interoperability of skills, pathways, achievements, and records at scale for more equitable pathways to opportunity.
Foundational Interoperability

- **Open Skills**: Enable a common language of skills.
- **Open Pathways**: Enable composition of personalized learning pathways.
- **Open Achievements**: Enable verifiable and sharable digital achievements.
- **Open Records**: Enable digital assertions to a learner owned record.

A Rich Skill Descriptor (RSD) is made up of a contextualized skill statement and associated metadata that enables the interoperability of skills.
Open Skills Management Tool (OSMT)

A free, open-source tool to facilitate the production of RSD-based open skills libraries

A branded hosting platform for your skills definitions, designed to fit seamlessly into existing technology infrastructure

Existing programs, curricula, and job descriptions can all use these open libraries

“Rosetta Stones” for understanding skills in a portable, machine-actionable way
A coalition of education providers, employers, and technology companies with a shared mission: make skills-based education and hiring standard practice for the majority of organizations in the United States.
OSN Goals

Accelerate
Accelerate the adoption of skills-based education and hiring.

Reduce
Reduce technological and operation barriers.

Open
Open more pathways to career opportunities for learners and workers.

Establish
Establish a network of open skills libraries and skills data.

Build
Build a community of partners to expand opportunity to all.
OSN Accomplishments

- Partnered with more than 750 employers, educational organizations, and technology providers.
- More than 1,700 individual members from around the world.
- Active work groups, including Governance, Technical, Policy, and Open Recognition.
- Completed 14 spring pilot projects to support ongoing RSD work with over 40 collaborative partners.
Develop collaborative RSD libraries to publish for open use

Use Cases
Implement RSD data for a variety of use cases

Best Practices
Develop best practices for RSD implementation

Flourish
Identify additional technology needs for RSD implementation to flourish
The Open Skills Network is the foundation for the future of equitable worker development.

MISSING SKILLS 5

CPT Coding [OPERATIONAL] [HARD] 5 Training Resources
CPT CODING

LEARNING RESOURCES
To get educational support for this skill have a look at these available programmes:

- Associate of Applied Science in Medical Assisting
  Ivy Tech Community College of Indiana
  MEAS - AAS

- Outpatient Insurance Basic Coding
  Ivy Tech Community College of Indiana
  MEAS 137

- Technical Certificate in Medical Assisting
  Ivy Tech Community College of Indiana
  MEAS - TC

- Certificate in Medical Office Administration
  Ivy Tech Community College of Indiana
  MEGA-CT

- Certificate in Outpatient Insurance Coding
  Ivy Tech Community College of Indiana
  OINC - CT
