

CAMBRIDGE INTERNATIONAL SECONDARY AND ADVANCED COURSES: TENNESSEE COURSE LIST

Cambridge International Secondary and Advanced Courses are part of a high school academic program that is instructionally aligned with curricula, assessments and pedagogy offered by the Cambridge International Examinations Organization.

International General Certificate of Secondary Education (IGCSE) courses are generally taken by freshmen and sophomores. Advanced International Certificate of Education (AICE) courses are generally taken by juniors and seniors, sometimes by sophomores. Passing the corresponding AS and/or A Level examinations can result in the AICE Diploma. College credit awards based on Cambridge AS and A level exams are determined by local postsecondary institutions.
