HOW TO READ THIS REPORT

The Teacher Preparation Report Card contains four (4) domains: Candidate Profile, Employment, Satisfaction, and Provider Impact. Each domain is comprised of multiple metrics. To date, data has not been collected for the Satisfaction domain, so it will be unscored this year. A provider must have at least ten total completers and must generate a score on at least one half of the metrics in each domain in order to generate an overall performance category rating. For more information, please refer to the [technical guide](#).

Providers are awarded a performance category based on their ability to successfully prepare Tennessee educators. This is calculated using the percentage of points earned across all metrics. Category 1 represents the lowest performance, and Category 4 represents the highest performance.

The 2016 Teacher Preparation Report Card will include data on two cohorts of completers (2013-14 and 2014-15). Performance on each metric is displayed in the format shown in the graphic on the right.

- 1 The provider's score on the metric is noted by the dark blue circle.
- 2 The state average is marked with a vertical gray line.
- 3 If the provider scores below the minimum standard, zero points are earned for the metric. If the provider scores at or above the target, all possible points are awarded.
- 4 If the provider scores within the shaded range, it earns a proportionate share of the points available.
- 5 Below the graphic is an example of the proportionate points earned for the illustrated case.

Completer Placement Across Tennessee

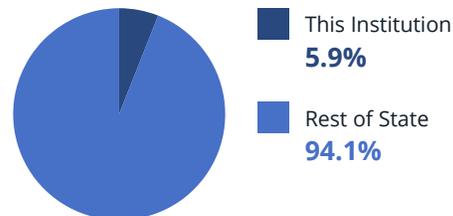

Situated in Northeast Tennessee, East Tennessee State University is a state-supported, coeducational institution with a student population of over 13,500, including undergraduate and graduate. While the majority of students are from the southEast region of the US, typically over 40 states and over 60 foreign countries are represented. ETSU’s Clemmer College of Education consists of six academic departments, a K-12 laboratory school, two child-care centers, and three Centers of Excellence. ETSU’s teacher education students are immersed in P-12 classrooms throughout their program and complete a year-long clinical residency in schools during their final three semesters. Each teacher candidate works closely with a mentor teacher to improve outcomes for students and schools. Additionally, each candidate completes a performance-based, subject-specific assessment. Graduates have robust academic content knowledge, and strong skills in instruction, assessment, and behavior management.
