HOW TO READ THIS REPORT

The Teacher Preparation Report Card contains four (4) domains: Candidate Profile, Employment, Satisfaction, and Provider Impact. Each domain is comprised of multiple metrics. To date, data has not been collected for the Satisfaction domain, so it will be unscored this year. A provider must have at least ten total completers and must generate a score on at least one half of the metrics in each domain in order to generate an overall performance category rating. For more information, please refer to the technical guide.

Providers are awarded a performance category based on their ability to successfully prepare Tennessee educators. This is calculated using the percentage of points earned across all metrics. Category 1 represents the lowest performance, and Category 4 represents the highest performance.

The 2017 Teacher Preparation Report Card will include data on three cohorts of completers (2013-14, 2014-15, and 2015-16). Performance on each metric is displayed in the format shown in the graphic on the right.

The score of **77.2** earned this EPP **1.7** of **3** possible points on this metric. This score increased **8.6** percentage points from 2016.

- ① Scores in this range are below the scored range and earn an EPP no points.
- ② This is the scored range. Scores in this range earn an EPP partial points proportionate to their score.
- ③ This range is above the target score. Values in this range earn an EPP maximum points.

Completer Placement Across Tennessee

The mission of the Martha Dickerson Eriksson College of Education is to prepare competent, caring, and reflective professionals who seek to improve the lives of others through teaching and learning. Candidates must complete four milestones as they progress through the program. Each milestone requires a review of the candidates' GPA, course completion, TBI clearance, and required assessments. Program completers (undergraduate, MAT, or job-embedded) complete the most comprehensive assessment program available - the edTPA. Data are collected annually to evaluate each candidate, licensure programs, and the EPP. Analysis of the data is evaluated by faculty at an annual data retreat to facilitate program and EPP improvement.
