## HOW TO READ THIS REPORT

The Teacher Preparation Report Card contains four (4) domains: Candidate Profile, Employment, Satisfaction, and Provider Impact. Each domain is comprised of multiple metrics. To date, data has not been collected for the Satisfaction domain, so it will be unscored this year. A provider must have at least ten total completers and must generate a score on at least one half of the metrics in each domain in order to generate an overall performance category rating. For more information, please refer to the technical guide.

Providers are awarded a performance category based on their ability to successfully prepare Tennessee educators. This is calculated using the percentage of points earned across all metrics. Category 1 represents the lowest performance, and Category 4 represents the highest performance.

The 2017 Teacher Preparation Report Card will include data on three cohorts of completers (2013-14, 2014-15, and 2015-16). Performance on each metric is displayed in the format shown in the graphic on the right.

Executive Director
Ben Schumacher

Teach For America joined the Nashville community in 2009 with a mission to help build the movement for educational equity in Nashville by enlisting, developing, and mobilizing our nation’s most promising leaders to teach in Nashville’s highest needs schools. Inspired by their experience in the classroom, these teachers become lifelong leaders and join the diverse, national coalition of alumni who continue the work to challenge systems that limit opportunity for students. Through the development and support provided by Teach For America, over 80% of Teach For America-Nashville alumni continue to work with low-income communities with 76% continue serving in education with over 300 alumni teaching in classrooms across Nashville, 24 school principals, and over 60 in school leadership positions. The impact made by TFA members is felt throughout the school year and beyond. This provider has a partnership with Lipscomb University. The 253 completers reported here also received training from Lipscomb University and are reported on that institution’s report card as well.
