DAVID B. RAUSCH
Director

December 30, 2025

Ladies and Gentlemen:

I would like to present the 2024 Hate Crime annual report. This report is published by the TBI presenting information on reported crimes motivated by bias that occurred in Tennessee. The information contained in the report is based on crime statistics information submitted by law enforcement agencies, colleges and universities in Tennessee to TBI's Tennessee Incident Based Reporting System (TIBRS) program. TIBRS is the state version of the FBI's National Incident Based Reporting System (NIBRS) program. Please see [https:// crimeinsight.tbi.tn.gov/](https://crimeinsight.tbi.tn.gov/) for additional information.

The groups toward which bias-motivated crimes may be directed are based on the national definitions and conform to the same standards used in the annual Hate Crime report published by the FBI for the United States. Any offense may be motivated by bias. The bias motivation is an element of the offense and is not reported as a separate crime occurrence.

I am very proud of the efforts of all participating law enforcement agencies, colleges and universities in the state to provide the data necessary to produce this report. Our combined efforts have resulted in this annual report detailing the nature of bias-motivated crime occurrences in our state.

Sincerely,

David B. Rausch
Director

INTERNATIONALLY ACCREDITED SINCE 1994

INTRODUCTION

This report examines hate crimes reported to the Tennessee Incident Based Reporting System (TIBRS) by Tennessee law enforcement agencies, colleges, and universities for the year 2024. Reporting agencies were contacted and asked to verify the accuracy of the hate crime data reported for their jurisdiction. An examination of the reported data revealed several trends and noteworthy facts that are detailed in the body of this report.

BIAS MOTIVATION

Hate crimes are often committed based on differences in personal characteristics such as appearance, language, nationality, or religion. The key element of any hate crime is the presence of a bias motivation. The criminal act alone does not define a hate crime; rather, the investigation of the crime must conclude that the offender was bias motivated. Eight bias categories are used when reporting hate crimes: Anti-Racial, Anti-Ethnicity/National Origin, Anti-Religious, Anti-Sexual Orientation, Gender Bias, Gender Identity Bias, and Non-Specific.¹

Please note that there is an “Unknown” bias code in the Non-Specific category. The purpose of the “Unknown” bias code is to serve as a category for those offenses thought to be bias motivated and which are currently under investigation. These crimes demonstrate the characteristics of a hate crime; however, a specific bias motivation code/category has not been determined. Therefore, it should be noted that a hate crime *may or may not have* transpired. Once a conclusion is made, the agencies are responsible for removing the “Unknown” bias code and properly categorizing the crime. Incidents that do not involve facts and/or evidence of the offender’s bias motivation are to be reported as “None.”

METHODOLOGY

The TBI collects hate crime data regarding criminal offenses that are motivated, in whole or in part, by the offender’s bias against a race, religion, sexual orientation, ethnicity, ancestry, gender, gender identity, or disability and are committed against persons or property. It is difficult to know with certainty whether a crime was a result of the offender’s bias because motivation is subjective. Law enforcement investigation is crucial for accurate hate crime reporting because it must reveal sufficient evidence to lead a reasonable person to conclude that the offender’s actions were motivated by his or her bias. Only then can law enforcement report an incident as a hate crime.

¹ Global Law Enforcement Support Section, and Crime and Law Enforcement Statistics Unit. “Hate Crime Data Collection Guidelines and Training Manual Version 3.0.” *FBI*, FBI, 1 Mar. 2022, <https://le.fbi.gov/file-repository/hate-crime-data-collection-guidelines-and-training-manual.pdf/view>.

CATEGORIES OF BIAS CODES

Anti-Religious		Anti-Sexual Orientation
Jewish	Mormon	Male Homosexual (Gay)
Catholic	Jehovah's Witness	Female Homosexual (Lesbian)
Protestant	Eastern Orthodox – Greek	Homosexual (Gay & Lesbian)
Islamic	Other Christian	Bisexual
Multi-Religious Group	Buddhist	Heterosexual
Atheism/Agnosticism	Hindu	Anti- Gender
Other Religion	Sikh	Male
Anti-Racial/ Ethnicity/ Ancestry		Female
American Indian/Alaskan Native	Native Hawaiian/ Other Pacific Islander	Anti- Gender Identity
Asian	White	Transgender
Black or African American	Arab	Gender Non-Conforming
Hispanic or Latino	Non-Specific	Anti-Disability
Other Race/Ethnicity/Ancestry	Unknown	Physical Disability
Multi-Racial	None	Mental Disability

DATA COLLECTION

All law enforcement agencies are mandated by the Federal Hate Crimes Statistics Act of 1990 to report all hate crimes to the Attorney General. This report utilizes data collected through the Tennessee Incident Based Report System (TIBRS) to identify bias motivated offenses. The national data collection guidelines stipulate that a hate crime may involve multiple offenses, victims, and offenders within one incident. Counting crimes follows the same standards used in the Crime in Tennessee publication. Crimes Against Persons and Robbery are a count of the individual victims while Crimes Against Property count as one offense for each incident, regardless of the number of victims.

This report uses the minimally accepted designations for race and ethnicity as established by the Office of Management and Budget (OMB) and published in the Federal Register. The revised standards have six minimum categories for data on race and three categories for data on ethnicity. In complying with published standards, the following racial designations are used in the hate crime data collection program: White, Black or African American, American Indian/Alaskan Native, Asian, Native Hawaiian or Other Pacific Islander, and Multiple Races. The ethnic/ancestral designations are Hispanic, Arab, and Other Race/Ethnicity/Ancestry.

EVIDENCE A CRIME IS MOTIVATED BY BIAS

Because motivation is subjective, it is difficult to know with certainty whether a crime is the result of the offender's bias. Therefore, before an incident can be reported as a hate crime, objective facts must be present to lead a reasonable person to conclude that the offender's actions were motivated by bias. While no single fact may be conclusive, facts such as the following are supportive of finding a bias.

- The offender and the victim were of a different race, religion, disability status, sexual orientation, and/or ethnicity/national origin. For example, the victim was black and the offender was white.
- Bias related drawings, markings, symbols, or graffiti were left at the crime scene. For instance, a swastika painted on a synagogue.
- Bias related verbal comments, written statements, or gestures were made by the offender which indicated his or her bias. For example, the offender shouted racial epithets at the victim.
- Certain objects or items that indicate that bias was involved. For instance, the offenders wore white hooded robes covering their faces, or a burning cross was left in front of the victim's house.
- The victim is the member of a racial, religious, disability, sexual-orientation, or ethnic/national origin group which is overwhelmingly outnumbered by other residents in the neighborhood where the victim lives and the incident took place. This factor loses significance with the passage of time; i.e., it is most significant when the victim first moved into the neighborhood and become less and less significant as time passes without incident.
- Several incidents occurred in the same locality at or about the same time and all the victims were all of the same race, religion, disability, sexual orientation, or ethnicity/national origin.
- A substantial portion of the community where the crime occurred perceived the incident as motivated by bias.
- The victim was engaged in activities promoting his/her race, religion, disability, sexual orientation, or ethnicity/national origin. For example, the victim was a member of NAACP or participated in gay rights demonstrations.
- The incident coincided with a holiday or a date of particular significance relating to race, religion, disability, sexual orientation, or ethnicity/national origin such as Martin Luther King Jr. Day or Rosh Hashanah.²

FEDERAL AND LOCAL HATE CRIME LEGISLATION

Hate crimes have been the topic of several discussions and forum in legislation across the country for multiple decades. The push for legislative action often occurs after a highly publicized incident in which some form of bias is determined to be the main motivation for the offense. These incidents involving hate crimes have significantly contributed to the development and enhancement of federal and/or state hate crime statutes.

The chart below details some significant Hate Crime Statutes at both the Federal and State levels.

Tennessee Hate Crime Statutes (State)		United States Hate Crime Statutes (Federal)	
1989	Tennessee Code Ann. 39-17-311	1969	Hate Crimes Provision Act
Criminalizes intentional desecration of places of worship and burial as well as the state or national flag.		Permits federal punishment for bias motivated crimes based on religion, race, and national origin.	
1990	Tennessee Code Ann. 39-17-309	1990	Hate Crime Statistics Act
Establishes intimidation of others from exercising civil rights through injury or threat of injury as well as damaging or defacing real or personal property as a Class D felony. Also allows victims to seek remedies in criminal or civil court in addition to the provided penalties.		Requires all law enforcement agencies in the United States to submit annual hate crime data to Attorney General. Establishes guidelines for data collection and states that data will only be used for research and/or statistical purposes. Attorney General will publish an annual summary of data acquired.	
2008	Tennessee Code Ann. 40-35-114	1999	Hate Crimes Prevention Act
Amends Criminal Sentencing Reform Act of 1989 so court may consider enhancing defendant's sentence when victim vulnerable due to age or physical or mental disability. Also enhances sentence if victim was intentionally selected due to defendant's belief or perception of race, religion, color, disability, sexual orientation, national origin, ancestry, or gender.		Prohibits intentional bodily injury based on race, religion, or national origin. Adds gender, sexual orientation and disabilities as federal hate crime categories. Offenses prosecuted as felonies when fire, firearm, or explosive is used to attempt or achieve bodily injury or death.	
		2009	Matthew Shepard & James Byrd, Jr. Act
		Extends Federal Hate Crime Act of 1969 to include crimes motivated by individual's actual or perceived gender, sexual orientation, gender identity, or disability.	

2022-2024 BIAS MOTIVATION OCCURRENCES

Bias Motivation Type	2022		2023		2024	
	Total	% of Total	Total	% of Total	Total	% of Total
Race/Ethnicity/Ancestry Bias	94	74.60%	62	50.82%	94	71.76%

Unknown (offender's motivation not known)	126		86		22	

AGENCIES REPORTING A BIAS OF UNKNOWN

The 2024 offenses reported with an Unknown Bias are being reviewed and the number should be decreasing. Please check <https://crimeinsight.tbi.tn.gov/> for updated information. Below is a list of agencies reporting Unknown bias. For the purpose of this report, all data analysis will exclude the category of Unknown.

Agencies Reporting a Bias of Unknown	#
Collierville Police Department	1
Elizabethton Police Department	11
Franklin Police Department	1
Hamilton County Sheriff's Office	1
Lewisburg Police Department	1
McMinnville Police Department	1
Morristown Police Department	1
Nashville Metro Police Department	4
Tennessee College of Applied Technology at Elizabethton	1

A bias motivation of "Unknown" is generally not a Hate Crime. Whoever entered the report did not know if there was a bias motivation or not. However, if the incident is entered with a bias of "Unknown" rather than "None," the incident will be classified as a Hate Crime.

COMPARISON OF OFFENSE TYPES MOTIVATED BY BIAS

Hate crimes, by their nature, are committed against individuals, and as such society is almost never applicable as the victim of a bias motivated offense and as such Crimes Against Society will not be examined in this report. With this in mind, this report will be looking at Crimes Against Persons and Crimes Against Property. Crimes where the bias is reported as “Unknown” will not be included in this report. Please note, one crime may have multiple types of bias motivation, accounting for the difference in overall crime reports when looked at in comparison to bias motivations.

Crimes Against Persons	
Offense Type	Total
Murder	0
Kidnapping/Abduction	0
Forcible Rape	1
Aggravated Assault	10
Simple Assault	34
Intimidation	53
Total	98
Crimes Against Property	
Offense Type	Total
Arson	7
Destruction/Damage/Vandalism	24
Robbery	0
Theft- Shoplifting	1
Theft From Building	1
Theft- All Other Larceny	1
Total	34

Bias Motivated offenses categorized as Crimes Against Persons account for 74.24% of reported hate crimes in 2024, with Crimes Against Property making up the remaining 25.76%. Among the specific types of offenses reported as being bias-motivated, the most common is Intimidation, making up 40.15% of total reports, followed by Simple Assault making up 25.76%.

CRIMES AGAINST PERSONS

Race/Ethnicity/Ancestry Bias was shown to be the most common bias motivation in all reported assault types, making up 69 of 98, or 70.41% of reported bias motivations in assault offenses. Sexual Orientation Bias was the second most commonly reported type of bias motivated assault with 16 victims, or 16.33% of the total.

When examining bias motivated crimes by the type of weapon reported to have been used, the most often in a given incident is Personal Weapons (Hands, Fists, Feet, Arms, Teeth, Etc.), accounting for 29 of 45 weapons used, or 64.44% of the reported weapons.

CRIMES AGAINST PROPERTY

The TIBRS category of Crimes Against Property includes offenses such as Burglary, Counterfeiting/Forgery, Destruction/Damage/Vandalism, Fraud, Robbery and Theft – All Other Larceny. As with the past two years, bias motivated crimes categorized as Destruction/Damage/Vandalism made up the majority of reported Crimes Against Property in 2024.

When examining a 3-year trend of bias motivated Destruction/Damage/Vandalism incidents, a mix of increases and decreases can be observed. While across most biases incidents decreased, Race/Ethnicity/Ancestry motivated biases raised to 16 after holding at 11 incidents the previous 2 years.

The above chart shows the relationship between Crimes Against Persons and Crimes Against Property, with the more prevalent type of crime varying based on the type of bias. Crimes Against Persons occurred more often in every bias category notably occurring nearly 3 times as frequently in Race/Ethnicity/Ancestry Bias incidents, and over 3 times as often in Sexual Orientation Bias.

HATE CRIME VICTIMS

The most commonly reported victims of a Bias Motivated Crime were those falling into the Under 18 age range at 31.71%, followed by the 25-34 and 35-44 age ranges at 21.14% and 15.45% of the total respectively.

Looking at Hate Crime victims by race, people categorized as White make up over half of, or 68.29%, of reported victims. Black or African American victims make up the other large portion of those affected by Bias Motivated crimes, comprising 27.64% of reported victims. The remainder is made up of Asian victims, American Indian or Alaska Native victims, and victims whose race could not be sufficiently determined by the entering agency.

WHERE AND WHEN?

A facet of information to consider when examining occurrences of Hate Crimes are exactly when and where they are reported to occur. When looking which day of the week Hate Crimes were reported to have occurred in 2024, the amount of reported incidents per day fluctuated throughout the week. Thursday had the most reported incidents, with 19.85% of reports, while the following day, Friday, had the least with 7.63%.

Looking at Hate crimes by the Time of Day at which they were reported to have occurred throughout 2024, showed that the majority of incidents were reported to have happened disproportionately in the late afternoon from 3:00pm-5:59pm with 37.40% of report incidents. Conversely, the early morning hours of 3:00am-5:59am have the fewest incidences of bias motivated crime, making up only 2.29% of incidents.

When looking at the locations Hate Crimes occurred in 2024, the most broadly reported category was that of Residence/Home, comprising 28.75% of locations. The next most widely reported location was Educational Facility, making up 17.50% of reports. Please note, multiple location types may be chosen for each incident.

HATE CRIMES AND CLEARANCES

As can be seen in the chart above, the majority (71.07%) of Hate Crimes were not cleared. However, when a Bias Motivated crime is cleared, it tends to be by arrest rather than exceptional clearance, with 27 of 35 clearances being by arrest. Below is a chart showing which crimes were cleared by arrest in 2024.

Hate Crime Incidents Cleared by Arrest	
Offense Type	Cleared
Crimes Against Persons	
Aggravated Assault	4
Simple Assault	9
Intimidation	11
Crimes Against Property	
Destruction/Damage/Vandalism	2
Theft- Shoplifting	1
Total	27

The following pages show a breakdown of 2024's reported Hate Crimes by the agencies that reported them, the reported type of criminal activity, and the type of bias present.

Anti-Race/Ethnicity/Ancestry

Agency	Crimes Against Persons	Victim Count
Anti-White		
Chattanooga Police Department	Simple Assault	1
Chattanooga Police Department	Intimidation	1
Clarksville Police Department	Forcible Rape	1
Collierville Police Department	Intimidation	1
Johnson City Police Department	Aggravated Assault	1
