Ladies and Gentlemen:

I am pleased to present the 2006 Crime in Tennessee report for the sixth consecutive year we have released these statistics. The information contained in the report is based upon crime statistics information submitted by all law enforcement agencies in Tennessee to TBI's Tennessee Incident Based Reporting System (TIBRS) Program. TIBRS is the state version of the FBI's National Incident Based Reporting System (NIBRS) Program. The report for 2006 is only being released electronically. More detailed statistical information may be found for individual agencies, counties and the state at www.tncrimeonline.com.

The TBI is mandated by T.C.A. §38-10-101 et seq. to create a program to collect crime statistics from all law enforcement agencies in the state. The TIBRS program collects comprehensive data on crime incidents including information on the offense, victim, offender, arrestee and relationship between the victim and offender. Because of the type of data collected, the TIBRS program provides a more accurate and detailed depiction of the crime events in each community than the data published by the FBI in their annual Crime in the United States report.

Tennessee continues to be one of the most populous states in the nation where all crime statistics are reported by NIBRS compliant agencies and the efforts by Tennessee's law enforcement agencies are a model for the nation. The success of the TIBRS Program is the result of the continued cooperation of all law enforcement agencies in the state. The TBI continues to provide TIBRS training to commissioned and non-commissioned law enforcement personnel. Over 28,000 personnel have received training during the last several years. TBI is committed to this effort and will continue to provide the training and technical assistance necessary to collect the most accurate and comprehensive crime statistics for Tennessee and its citizens.

As you review this report, please remember that we strongly discourage any ranking of the agencies. There are many demographic, socio-economic and other factors that are beyond the control of law enforcement that cause the nature and type of reported crime to vary from place to place and ranking agencies based on the reported crime numbers would not be fair to the agencies or the communities.

I am very proud of the efforts of all participating law enforcement agencies in the state that allow this report to be produced. Our combined efforts have resulted in a successful program and this annual report detailing the nature of crime occurrences in our state.

Sincerely,

Mark Gwyn
Director

Introduction

Who Reports?

All law enforcement agencies as well as colleges and universities report crime statistics monthly to the TBI. The law enforcement statistics are submitted to the FBI each month by the TBI. All sheriff's departments, municipal police departments, drug task forces, colleges and universities, and state agencies are compliant.

2006 Data Footnotes

The following agencies have footnotes on their data pages:

Sheriffs' Departments:

Benton County	Marion County
Bledsoe County	McNairy County
Cumberland County	Pickett County
Hickman County	Polk County
Lauderdale County	Rutherford County

Police Departments:

Note: This report is based on a "snapshot" of the database as of April 16, 2007. As the above agencies make updates to their 2006 data, the changes will be reflected at www.tncrimeonline.com

What is Incident Based Reporting?

Incident based reporting views a crime and all of its components as an "incident". In order to obtain important data, facts recorded and preserved about the incident are organized into specific categories or segments. The vehicle used for recording these facts is a "data element". Data elements provide information about crime and its involvement with victims, offenders, property, arrestees, etc.

What is TIBRS?

The Tennessee Incident Based Reporting System (TIBRS) program is an incident based reporting system designed to collect data on every single crime occurrence and on each incident and arrest within the occurrence. The most significant difference between TIBRS and the traditional Uniform Crime Reporting (UCR) system is the degree of detail in reporting. Unlike the summary system that collects only eight Part I crimes (Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson), TIBRS collects 22 crime categories made up of 47 specific crimes called Group A offenses (see page 534). Additionally, arrests are reported for 11 Group B offense categories (see page 542). Under the old summary UCR program, only the most serious offense was reported. In TIBRS, up to 10 offenses can be reported in an

incident, providing a more accurate picture of crime. Because of the differences between UCR summary data and TIBRS data, any cross-comparisons would provide inaccurate results in trend analysis.

Pitfalls of Ranking

In the past, crime data has been used to compile rankings of individual jurisdictions and institutions of higher learning. These crude and/or incomplete analyses have often created misleading perceptions which adversely affect geographic entities and their residents. The FBI has a longstanding policy against ranking cities, counties, states and universities/colleges on the basis of crime data alone.

Locales should not be ranked because there are many factors that cause the nature and type of crime to vary from place to place. TIBRS statistics include only jurisdictional figures along with reported crime, clearance or arrest data. Rankings ignore the uniqueness of each locale. All jurisdictions are affected in some degree by:

- Population density and degree of urbanization of the locality and surrounding area;
- Variations in composition of the population;
- Number of residents vs. the "policing population" i.e., residents plus daily commuters, transients, tourists, shoppers, etc.;
- Economic conditions;
- Modes of transportation and highway systems;
- Cultural conditions;
- Family conditions with respect to divorce and family cohesiveness;
- Climate;
- Effective strength of law enforcement agencies;
- Administrative and investigative emphases of law enforcement;
- Policies of other components of the criminal justice system, i.e., prosecutorial, judicial, correctional, and probational;

The attitudes of a jurisdiction's citizenry toward crime and the crime reporting practices of its residents are known to have an effect on the number of crimes coming to the attention of law enforcement.

Because of concerns regarding the proper use of TIBRS data, the TBI has the following policies:

- The TBI will not analyze, interpret, or publish crime statistics based solely on a single dimension interagency ranking.
- The TBI will not furnish agency-based crime statistics to data users in a ranked format.
- When providing/using agency-oriented statistics, the TBI cautions and, in fact, strongly discourages data users against using rankings to evaluate locales or the effectiveness of their law enforcement departments.

Crime Rates

Crime rates in *Crime in Tennessee* reflect all 22 Group A Offense Categories. Crime rates in the FBI *Crime in the United States* are only based upon 8 Index Offenses. The crime rates in Tennessee (TIBRS) will be a more accurate reflection of the crime occurrences in the state.

$$\text{Crime Rate} = \frac{\text{Number of Offenses}}{\text{Population}} \times 100{,}000$$

Trends

The *2006 Crime in Tennessee* publication is incident based data. This is the sixth year this data has been published. The FBI takes the TIBRS data and converts it to their summary system, which only includes the most serious offense in an incident. In the UCR summary system, the number of victims is counted if the most serious offense is homicide, assault, kidnapping or rape. We strongly discourage trying to compare the TIBRS data for 2006 to any data previously released by the FBI in the *Crime in the United States* publications. The data sets are not comparable due to the number of types of crimes reported and the fact that multiple offenses are reported in one incident to TIBRS. Trend information for Tennessee is included in the Statewide section of the report.

Crime Counts

All crimes reported in *Crime in Tennessee* are based upon crimes that occurred in 2006. If a person is arrested in 2006 for a crime that occurred in 2005, the arrest will not be included in the 2006 counts since the actual crime occurred in 2005.

Differences between the Tennessee Incident Based Reporting System (TIBRS) and the FBI's UCR Summary reporting system – TIBRS collects information on up to 10 offenses occurring in the same incident. Information is collected on the offense circumstances, victims, offenders, arrestees, and property. Information is collected on all of the above applicable components for 22 Group A Offenses. Group B offenses including DUI, Drunkenness, and Bad Checks only include arrest information.

The FBI Summary system applies a hierarchal rule and only collects information on the most serious offense occurring in an incident and drops the others. Information is only reported on 8 Crimes in Summary. Arrest information is only reported on other offenses including drugs, forgeries, and frauds.

Population Estimates

The report uses the latest U.S. Census population estimates available at the time of publication.

STATE AGENCIES

2006

NOTE: THE GREAT MAJORITY OF STATE LEVEL LAW ENFORCEMENT AGENCIES ARE NOT FIRST RESPONDERS TO CRIME INCIDENTS BUT PROVIDE INVESTIGATIVE, TECHNICAL, OR FORENSIC SUPPORT TO OTHER AGENCIES INCLUDING SHERIFF'S DEPARTMENTS, MUNICIPAL POLICE DEPARTMENTS, AND DRUG TASK FORCES.

THE AGENCIES THAT USE THE INVESTIGATIVE, TECHNICAL, OR FORENSIC SUPPORT PROVIDED BY THESE STATE LEVEL LAW ENFORCEMENT AGENCIES MOST OFTEN ARE FIRST RESPONDERS, AND THEREFORE IT IS THEIR RESPONSIBILITY TO SUBMIT CRIME STATISTICS TO THE TIBRS PROGRAM AND THE NUMBERS WILL BE INCLUDED IN THEIR DATA. REPORTS ARE NOT SUBMITTED BY STATE LEVEL AGENCIES IN THESE CASES IN ORDER TO AVOID DUPLICATE REPORTING AND THE RESULTING INFLATED STATISTICS AND INACCURATE DATA.

APPENDIX

2006

TIBRS Offense Definitions

Group A Offense Definitions

Since all Group A offenses occurring in an incident are to be reported, care must be taken to identify all such offenses involved in an incident. Care must also be taken to ensure that each offense that is reported is a separate, distinct crime, rather than just a part of another offense. For example, every robbery includes some type of assault; but because the assault is an element of the robbery, only Robbery should be reported. If during a Robbery, the victim is forced to engage in sexual acts, both Robbery and Forcible Rape should be reported, as forced sexual intercourse is not an element of Robbery. A rape case might also involve the crimes of Motor Vehicle Theft and Kidnapping, and they should all be reported. Burglary is another example because it usually includes a larceny offense. Because Burglary is defined in terms of theft, only the burglary is to be reported.

NOTE: In TIBRS the classification of felony and misdemeanor does not apply; the offenses are classified according to the definitions and the facts of the incident. However this does not change what a person is charged with under Tennessee statute. The following pages contain the definitions to be used in determining the offense that has occurred. There are 47 definitions of Group A offenses that follow. They are listed in alphabetical order.
