Ladies and Gentlemen:

I would like to present the 2008 Hate Crime Report. This is the annual report published by the TBI presenting information on reported crimes motivated by bias that occurred in Tennessee. The information contained in the report is based on crime statistics information submitted by law enforcement agencies in Tennessee to TBI's Tennessee Incident Based Reporting System (TIBRS) program. TIBRS is the state version of the FBI's National Incident Based Reporting System (NIBRS) program. Please see www.tncrimeonline.com for additional information.

The groups toward which bias motivated crimes may be directed are based on the national definitions and conform to the same standards used in the annual Hate Crime Report published by the FBI for the United States. Any offense may be motivated by bias. The bias motivation is an element of the offense and is not reported as a separate crime occurrence.

I am very proud of the efforts of all participating law enforcement agencies in the state to provide the data necessary to produce this report. Our combined efforts have resulted in this annual report detailing the nature of bias motivated crime occurrences in our state.

Sincerely,

Mark Gwyn
Director

Introduction

All agencies reporting a hate crime incident for 2008 were contacted and asked to verify that the agency did have a hate crime. All information contained in this publication has been verified to be correct by the reporting agencies.

An “Unknown Bias” Hate Crime is a crime that demonstrates the traits of a hate crime but the investigation of the incident has not determined a specific bias motivation code/category. All agencies are urged to properly categorize these Unknown Bias incidents once the investigation is completed and a full determination has been made regarding the bias motivated category assignment of the crime incident. Incidents submitted with a bias code of “Unknown” will be counted as a hate crime in the agency’s statistics.

Bias Motivation

Because of the difficulty in ascertaining the offender’s subjective motivation, bias is to be reported only if the investigation reveals sufficient objective facts to cause a reasonable and prudent person to conclude that the offender’s actions were motivated in whole or in part, by bias against a racial, religious, ethnic/national origin, physical or mental disability, or sexual orientation group. Incidents which do not involve any facts and / or evidence indicating biased motivation on the part of the offender are to be reported as “None”.

Categories of Bias Codes

Anti-Racial

- White
- African American
- American Indian/ Alaskan Native
- Asian/Pacific Islander
- Multi-Racial Group

Anti-Religious

- Jewish
- Catholic
- Protestant
- Islamic
- Other Religion
- Multi-Religious Group
- Atheism/Agnosticism

Anti-Ethnicity/National Origin

- Hispanic
- Other Ethnicity/National Origin

Anti-Sexual

- Male Homosexual
- Female Homosexual
- Homosexual (Gay and Lesbian)
- Heterosexual
- Bisexual

Anti-Disability

- Physical Disability
- Mental Disability

Non-Specific

- Unknown
- None

Methodology

The TBI collects hate crime data regarding criminal offenses that are motivated, in whole or in part, by the offender's bias against a race, religion, sexual orientation, ethnicity or national origin, or disability and are committed against persons, property or society. Because motivation is subjective, it is difficult to know with certainty whether a crime was the result of the offender's bias. Moreover, the presence of bias alone does not necessarily mean that a crime can be considered a hate crime. Law enforcement investigation is crucial for accurate hate crime reporting because it must reveal sufficient evidence to lead a responsible and prudent person to conclude that the offender's actions were motivated, in whole or in part, by his or her bias. Only then can law enforcement report an incident as a hate crime.

Data Collection

According to the national data collection guidelines, a hate crime may involve multiple offenses, victims, and offenders within one incident. Counting of crimes follows the same standards used in Crime in Tennessee. Crimes against persons are a count of the individual victims. When submitting crimes against property, or society, however, agencies count one offense for each distinct incident, regardless of the number of victims.

This report uses the minimally accepted designations for race and ethnicity as established by the Office of Management and Budget (OMB) and published in the Federal Register. The revised standards have five minimum categories for data on race and two categories for data on ethnicity. In complying with the published standards, the following racial designations are used in the hate crime data collection program: White, African American, American Indian/Alaskan Native; Asian/Pacific Islander; and Multiple Races. The ethnic designations are Hispanic and Other Ethnicity/National Origin.

Highlights

- Total reported hate bias offenses increased 38.4% from 2007- 2008. However a large proportion of that increase was in the category of Unknown Bias.
- The 515 hate bias offenses reported in 2008 represented 0.08% of total offenses reported in the Crime in Tennessee Report.
- The proportion of total offenses reported with a hate bias increased from 0.05% in 2006 and 2007 to 0.08% in 2008.
- The category of Disability Bias demonstrated an increase in incidents by 88.1% in 2008 with the sub-category of Anti-Mental Disability showing a 94.4% increase.
- Anti-Ethnic hate offenses were the only category to show a decrease in reported numbers from 2007 to 2008.
- The number of reported hate bias offenses increased 40.0% from 2006 to 2008.
- Males were the victim in 229 reported incidents of hate bias crimes in 2008.
- The most frequent victim age range was 18-24 at 18.1% of all age range groups.
- Reported offenses with Unknown Bias increased from 76 to 178 (134%) from 2007 – 2008. (The number of reported Unknown Bias Crimes should change once an agency's investigation determines if the offense was bias motivated and, if so, the group toward which the bias was directed.)

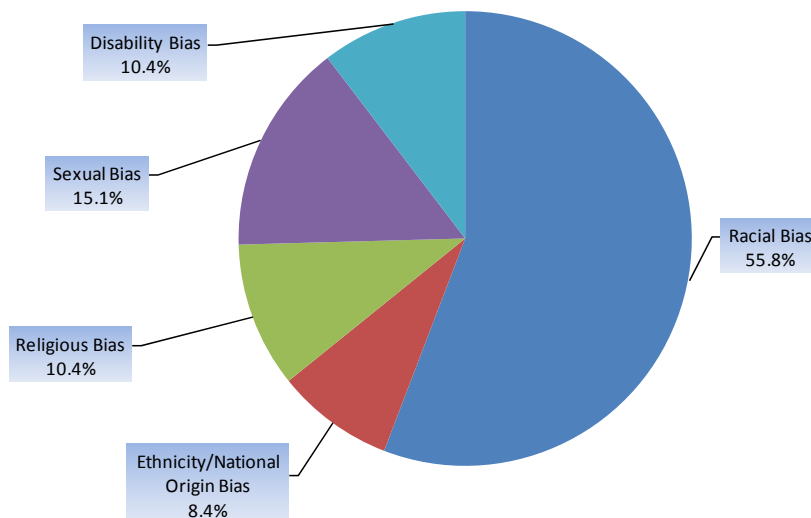

Note: All agencies reporting any hate offenses were contacted and asked to verify all hate bias offenses as being correct.
