June 26, 2020

Ladies and Gentlemen:

I would like to present the 2019 Law Enforcement Officers Killed or Assaulted (LEOKA) annual report. This report is published by the TBI presenting information on reported incidents of assaults or deaths of law enforcement officers in the line of duty that occurred in Tennessee. The information contained in the report is based on crime statistics information submitted by law enforcement agencies, colleges and universities in Tennessee to TBI's Tennessee Incident-Based Reporting System (TIBRS) program. TIBRS is the state version of the FBI's National Incident-Based Reporting System (NIBRS) program. The information collected by TBI conforms to the national standard as presented in the FBI's annual LEOKA report. Please see <https://crimeinsight.tbi.tn.gov/> for additional information.

I am very proud of the efforts of all participating law enforcement agencies in the state to provide the data necessary to produce this report. Our combined efforts have resulted in a successful program and this annual report, providing information on incidents involving assaults and deaths of our law enforcement officers.

Sincerely,

Director
David B. Rausch

Law Enforcement Officers Killed or Assaulted 2019

The current report presents analyses of incidents in which law enforcement officers were killed or assaulted in the line of duty in 2019. The information is collected through the Tennessee Incident-Based Reporting System (TIBRS). Incident-based reporting views a crime and all of its components as an “incident”. In order to obtain important information, facts recorded and preserved about the incident are organized into specific categories or segments. The vehicle used for recording these facts is a “data element”. Data elements provide information about crime and its involvement with victims, offenders, property, arrestees, etc.

Offenses included for analyses:

Murder and Non-negligent Manslaughter – The willful (non-negligent) killing of one human being by another.

Note: Deaths of law enforcement officers by accidental causes do not meet the FBI’s reporting criteria for a LEOKA offense

Aggravated Assault – An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.

Simple Assault – An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.

Intimidation – To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

Stalking – To intentionally and repeatedly follow or harass another person in such a manner as would cause that person to be in reasonable fear of being assaulted, suffering bodily injury or death.

In 2019, a total of 224 agencies reported Law Enforcement Officers Killed or Assaulted (LEOKA).

Chart 3: Officer by Gender

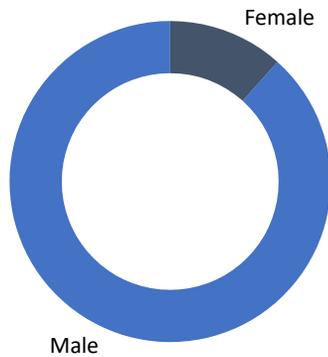

Chart 4: Officer by Age

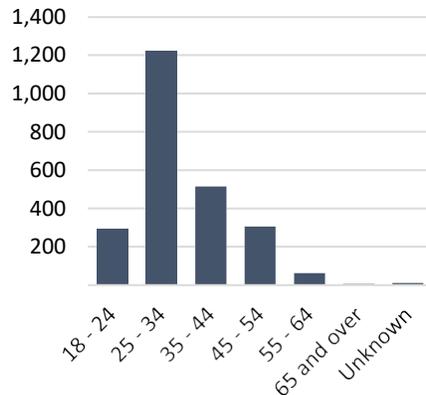

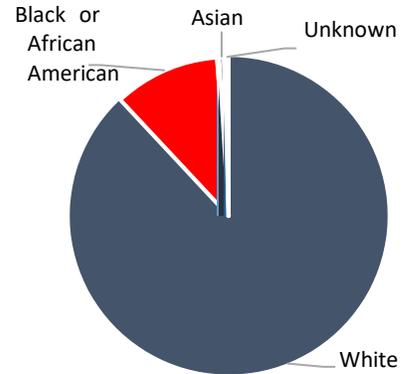

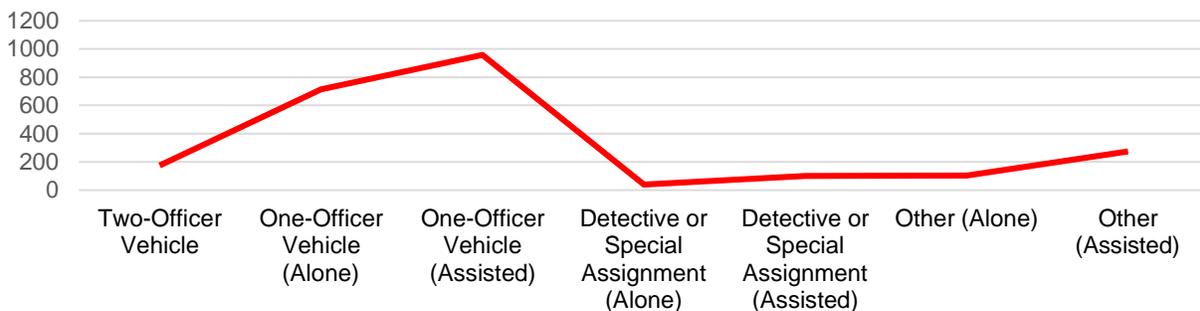

Chart 5: Officer by Race

Per TIBRS, Vehicle Assignment describes if the Law Enforcement Officer was alone or assisted during a LEOKA incident. The category of “*Other (Alone)*” refers to officers assaulted while in other capacities, (i.e. foot patrol), and “*Other (Assisted)*” refers to law enforcement assistance only.

Chart 6: Vehicle Assignment

A total of 40.5% of police officers who were victimized had a Vehicle Assignment of *One-Officer Vehicle (Assisted)*, whereas 30.2% had a Vehicle Assignment of *One-Officer Vehicle (Alone)*. Further findings revealed that the most frequent offense reported with *One-Officer Vehicle (Assisted)* assignment was *Simple Assault* at 58.6%.

LEOKA Injuries and Weapons Used

Per TIBRS, up to five injury types can be reported per victim. Injury Type is a required data element when reporting Aggravated and Simple Assaults. There were 2,297 reported injury types in 2019. The category of *None* comprised 70.9%, while 26.6% of incidents were reported with an *Apparent Minor Injury* in 2019.

The table to the left displays the weapon types used to assault officers who were involved in a LEOKA incident in 2019.

The weapon category of *Personal Weapons (Hands, Feet, Teeth, Etc.)* was the most frequently reported weapon type at 58.5%, followed by *Motor Vehicle/Vessel* as a weapon type accounted for 13.7%.

Per TIBRS, up to three weapons can be reported per incident. Findings found that the total number of all firearms combined made up 9.5% of all weapons types reported in LEOKA incidents.

Timing of LEOKA Incidents

When comparing the frequency of LEOKA incidents by day of week, most incidents occurred on *Wednesday* (16.3%) and *Saturday* (15.6%) in 2019. LEOKA incidents were less likely to occur on *Sunday* and *Monday*.

Most incidents occurred between *6:00 p.m. and 8:59 p.m.*, followed by *9:00 p.m. - 11:59 p.m.* During these times, Simple Assault was the most commonly reported LEOKA offense type.

Chart 9 illustrates the monthly breakdown of the 2,416 LEOKA offenses in 2019. *June* (10.6%) accounted for the highest reported month, followed by *September* at 9.2%.

Notably, from *September* to *October*, LEOKA incidents decreased 20.7% from 223 incidents to 177 incidents. This could be attributed to the change of time, weather, or increase of traveling due to the holiday season.

While the months of *June* through *September* comprised the highest reported months of the year, LEOKA occurrences remained relatively consistent during the hotter months in 2019.
