TDOT AERONAUTICS ENGINEERING UPDATE

Happy Fall Everyone!

We have some exciting updates for you...

FASTER EFFECTIVE DATES ON GRANTS

We want to enable you to start on your projects as fast as possible, so your **grants are now effective the same day that they are formally approved**. So depending on whether your funding request is approved by Aeronautics or by the TAC, the agreement will be effective that day.

- ❖ *Please remember to allow 14 days for the grants to be written and distributed. Also, the duration before receiving the fully executed grant will depend on the expediency of the signing authorities.*

2019-2020 \$1B AIP SUPPLEMENTAL DISCRETIONARY REMINDER

Deadline #2 (for requests for supplemental funding in FY 2019 or 2020) **is October 31, 2018**. Please see updated FAA information located here: https://www.faa.gov/airports/aip/aip_supplemental_appropriation/

A new link has been added to "Request Access for Optional Online Submission". We strongly encourage sponsors to utilize this link so that your information can be submitted electronically.

2018 ACIP ANNUAL MEETING MEDIA

The media (videos, presentation slides, and infographic) from our 2018 ACIP Annual Meetings is now available online! Simply navigate to: <https://www.tn.gov/tdot/aeronautics/planning.html> . Scroll down this page and you'll also find the 2019 KEY DATES AND REQUEST DEADLINES related to next year's grant process.

Feel free to contact your TDOT Project Manager anytime with questions.

Sincerely,

John-Paul Saalwaechter [sawl véktər], P.E. | CE Manager 2
