

# Congestion Mitigation and Air Quality Improvement (CMAQ) Program

## Strategic Air Quality Initiatives: Diesel Emission Reduction Projects

Through this Strategic Initiative, TDOT provides funding to reduce transportation-related emissions from existing diesel engines. Project awards are available to vehicle fleet and equipment owners for eligible diesel emission reduction solutions in PM 2.5 Non-Attainment Counties (Eligibility Map Below).

### Eligible Project Types

- Diesel Engines and Equipment, including:
  - Locomotive Engines;
  - Freight Handling Equipment;
  - Diesel Engine Retrofits;
  - Airport & Port Equipment; and/or,
  - Idle-Reduction.

### Tennessee CMAQ Eligible Project Areas

### Project Applications

- 2017 Call for Proposals – Opens June 15th, 2017
- Projects must demonstrate a reduction in transportation-related emissions in one or more CMAQ PM 2.5 eligible counties
- The grant competition is open to both public and private entities (*private companies require a public sponsor*).
- Application materials will be posted to <https://www.tn.gov/tdot/article/cmaq-funding>
- Contact [TDOT.CMAQ@tn.gov](mailto:TDOT.CMAQ@tn.gov) for more information.
