INSTRUCTIONAL BULLETIN NO. 14-15

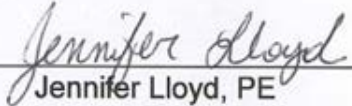

Regarding Bridge ID Numbers

Effective immediately, section 4-650.00 is added to the Guidelines

PURPOSE: To add Existing Bridge ID numbers on the plans for all bridges within the project limits.

4-650.00 BRIDGE ID NUMBERS

The designer shall add the Bridge ID number for all existing bridges within the project limits (either on the mainline, side street or overpassing the project) to the Present Sheet(s). Bridge ID numbers can be found on the Transportation Planning Report (TPR). Bridge ID numbers can also be queried on state routes, interstates and many major local roads in ETRIMS. For roads where the bridge ID number is not shown on the TPR or in ETRIMS, the designer should request the information from the Survey Section.

Jennifer Lloyd, PE
Civil Engineering Director
Roadway Design Division
