

Qualified Products Lists

Table of Contents

List 1. TRAFFIC CONTROL MATERIALS

Section A. Snowplowable Reflective Pavement Markers and Replacement Lenses

1. Snowplowable Reflective Pavement Markers
2. Replacement Lens for Snowplowable Markers
3. Raised Reflective Pavement Markers

Section B. Preformed Plastic Pavement Markings

1. Type 1 – 60 mils
2. Preformed Thermoplastic

Section C. Temporary Tape (Removeable and Non-Removeable)

1. Permanent Preformed Tape
2. Preformed Contrast Tape
3. Temporary Removeable Preformed Tape
4. Preformed Blackout Tape

Section D. Alternative Pavement Marking Materials

1. Audible Pavement Markings
2. Wet Reflective Pavement Markings

Section E. Bituminous Pavement Marker Adhesive

Section F. Flexible Surface- and Ground-Mounted Delineator Posts

Section G. Guardrail and Barrier/Parapet Delineation

1. Concrete Barrier/Parapet Delineation
2. Guardrail Post Delineation
3. Guardrail Beam Delineation
4. Concrete Barrier/Parapet Delineation Enhancement

Section H. Workzone Traffic Drums

List 2. Waterproofing Membranes and Materials

Section A. Bridge Deck Waterproofing Membranes

Section B. Joint Waterproofing Membranes (12" Plus Width)

List 3. Structural Steel Coatings

Section A. NEPCOAT List A – 3-Coat System

1. Inorganic Zinc/Epoxy or Urethane/Aliphilic Urethane
2. Organic Zinc/Epoxy or Urethane/Aliphilic Urethane
3. Organic Zinc Primer/Topcoat
4. Inorganic Zinc Primer/Topcoat
5. Epoxy Spot and Full Prime and Finish Coat
6. Non-Epoxy Spot and Full Prime and Finish

Section B. Two-Coat System – Epoxy Spot and Full Prime and Finish Coat

Section C. Two-Coat System – Non-Epoxy Spot and Full Prime and Finish Coat

List 4. Air-Entraining and Chemical Admixtures for Concrete

Section A. Air-Entraining Admixtures

Section B. Chemical Admixtures

1. Type A – Water Reducers
2. Type B – Retarders
3. Type C – Accelerating Admixtures
4. Type D – Water Reducing and Retarding Admixtures
5. Type E – Water Reducing and Accelerating Admixtures
6. Type F – Water Reducing and High-Range Retarding Admixtures
7. Type S Admixtures

Section C. Chemical Admixtures for Precast Concrete

Section D. Miscellaneous Chemical Admixtures for Concrete

List 5. Joint Sealers and Fillers

- Section A. Cold Pour (One-Component Joint Sealer)
- Section B. Cold Pour (Two-Component Joint Sealer)
- Section C. Hot Pour Joint Sealer
- Section D. Water-Activated Polyurethane Foam Grouts
- Section E. Preformed Joint Fillers (Bituminous and Non-Bituminous)

List 6. Traffic Control Detection Loop Sealants

List 7. Preformed Compressive Joint Seals with Lubricant Adhesives

- Section A. Preformed Elastic Compressive Joint Seals with Lubricant Adhesives
- Section B. Preformed Gland Joint Seals with Lubricant Adhesives

List 8. Epoxy Resin Systems

List 9. Elastomeric Bridge Joint and Bridge Joint Systems

- Section A. Elastomeric Bridge Joints
- Section B. Expansion Joint Systems for Reinforced Concrete Pavement at Bridge Ends (STD-1-5)

List 10. Reflective Sheeting

- Section A. Reflective Sheeting
 - 1. Engineering Grade and High-Intensity Encapsulated Lens
 - 2. Microprismatic
 - 3. Flexible Delineators and Type 2 Object Markers
- Section B. Work Zone Sheeting
 - 1. Work Zone Sheeting – Signs
 - 2. Work Zone Sheeting – Barricades, Channelizers, and Vertical Panels

List 11. Biodegradable Asphalt Solvents

List 12. Coatings for Concrete

- Section A. Applied Texture Coatings
- Section B. Concrete Curing Compounds
 - 1. Type 1-D Concrete Curing Compounds
 - 2. Type 2 Concrete Curing Compounds

List 13. Patching Materials

Section A. Asphalt Patching Materials

1. High-Performance Cold Patch Materials
2. Elastomeric Patching Materials – Hot-Applied
3. Elastomeric Patching Materials – Cold-Applied

Section B. Concrete Patching Materials

1. Rapid-Set Cementitious Patching Materials
2. High-Performance Cold-Patch Materials
3. Two-Component Epoxy-Type Patching Materials
4. Cosmetic Repair Epoxy-Type Patching Materials
5. Structural Materials and Components
6. Polymer-Modified Cementitious Structural Patching Vertical and Overhead
7. Elastomeric Patching Materials – Hot-Applied
8. Methacrylate Binder Resin System
9. Elastomeric Patching Materials – Cold-Applied

List 14. Anti-Stripping Additives

Section A. Liquid Additives

Section B. Fiber Additives

List 15. Pre-Packaged Concrete Mixtures

List 16. Pre-Packaged Grout

List 17. Erosion Prevention and Sediment Control (EPSC)

Section A. EPSC Products for Use with Standard Drawings

1. EC-STR-3B – Temporary Silt Fence
2. EC-STR-3C – Temporary Silt Fence with Backing
3. EC-STR-3D – Enhanced Silt Fence
4. EC-STR-4 – and 4A Enhanced Silt Fence Check
5. EC-STR-6 – Rock Check Dam
6. EC-STR-6A – Enhanced Rock Check Dam
7. EC-STR-8 – Filter Sock

8. EC-STR-19 – Catch Basin Protection
9. EC-STR-35 – Filter Berm
10. EC-STR37 – Sediment Tubes
11. EC-STR-39 and 39A – Curb Inlet Protection
12. EC-STR-40 through 51A – Catch Basin Filter Assembly
13. EC-STR-1 – Dewatering Structure
14. EC-STR-38 – Floating Turbidity Curtain

Section B. Rolled Erosion Control Products (RECP)

1. RECP Type I
2. RECP Type II
3. RECP Type III
4. RECP Type IV

Section C. Turf Reinforcement Matting (TRM)

1. TRM Class I, 6.0 to 8.0 lbs./ft², Sheer Stress
2. TRM Class II, 8.0 to 10.0 lbs./ft², Sheer Stress
3. TRM Class III, 10.0 lbs./ft², Sheer Stress

Section D. Hydraulic Erosion Control Products (HECP)

1. HECP Type 1
2. HECP Type 2
3. HECP Type 3
4. HECP Type 4

Section E. Flocculants

1. Polyacrylamide
2. Organic/Synthetic Flocculants

Section F. Soil Binders and Tackifiers

Section G. Dust Palliatives

List 18. Manhole Steps

List 19. Epoxy Powder for Reinforcing Steel

List 20. Stressed Cable Grouts

List 21. Release Compounds for Asphalt Mixes

List 22. Masonry Anchors

Section A. Mechanical Type

Section B. Cementitious Type

Section C. Epoxy Type

Section D. Epoxy Type (Encapsulated)

Section E. Epoxy Type (Injection Technique)

List 23. Concrete Waterproofing

Section A. Non-Penetrating Type Sealers (Non-Traffic Bearing)

Section B. Penetrating Type Sealers

Section C. ~~Non-Penetrating Coal-Tar Epoxy Sealers~~ No Longer Active

Section D. Epoxy-Urethane Overlay Systems for Bridge Decks (1/2-inch Thickness or Less)

1. Polymer-Modified Cementitious System
2. Type 1 Thin Overlay (Epoxy-Urethane)
3. Type 2 Thin Overlay (Low-Modulus Epoxy)

List 24. Concrete Latex Modifiers

List 25. Pressure Injected Epoxy Systems

List 26. Anti-Graffiti Products

List 27. Rebar Splices

List 28. Pile Accessories

List 29. Flashing Arrow Panels/Arrow Boards

List 30. Portable Changeable Message Signs

List 31. High Friction Surface Treatments for Roadways

Section A. Asphalt Roadway

Section B. Concrete Roadway

Section C. Concrete Above-Grade Surfaces

List 32. Recycled Plastic Guardrail Blockouts

List 33. MASH or NCHRP-350 TL-3 Approved Sign Post Hardware

List 34. Approved Roadside Safety Hardware (NCHRP-350)

Section A. High Tension Cable Guardrail Systems

1. Guardrail Guarantee
2. High Tension Cable Guardrail Systems
3. Cable Guardrail End Terminals

Section B. Median Guardrail End Terminals

1. S-GRT-2 – Type 38 Guardrail End Terminals
2. Median Guardrail End Terminals
3. Flared Guardrail End Terminals
4. S-GRT-3 – Type 21 Guardrail End Terminals

Section C. Crash Cushions

1. Sacrificial Systems
2. Non-Gating, Reusable Systems
3. Non-Gating, Low-Maintenance Systems
4. Gating, Sand-Filled Arrays
5. Gating, Non-Redirective Crash Cushions
6. Miscellaneous Crash Cushions

Section D. Temporary Work Zone Traffic Control Devices

1. Truck- and Trailer-Mounted Attenuators
2. Non-Gating Work Zone Attenuators

Section E. Work Zone Channelizing Devices

1. Portable Precast Concrete Barriers
2. Steel Traffic Barriers
3. Water-Filled Plastic Channelizing Devices

Section F. Miscellaneous Roadside Hardware

List 35. There is no List 35 currently

List 36. Geotextiles and Geosynthetics

Section A. Geotextiles and Geosynthetics (Type I, II, III, and IV)

1. Geotextiles and Geosynthetics Type I
2. Geotextiles and Geosynthetics Type II
3. Geotextiles and Geosynthetics Type III
4. Geotextiles and Geosynthetics Type IV

Section B. Geotextiles and Geosynthetics for Use in Standard Drawings

1. EC-STR-3A – Temporary Filter Barrier and EC-STR-3B – Temporary Silt Fence
2. EC-STR-3C – Temporary Silt Fence with Backing
3. EC-STR-3D – Enhanced Silt Fabric
4. EC-STR-2 – Temporary Sediment Filter Bag

Section C. Geogrids for Reinforced Soil Slopes

1. Geogrids for Reinforced Soil Slopes Type I
2. Geogrids for Reinforced Soil Slopes Type II
3. Geogrids for Reinforced Soil Slopes Type III
4. Geogrids for Reinforced Soil Slopes Type IV

List 37. ADA Detectable Warning Truncated Domes

List 38. Retaining Wall Systems

Section A. Proprietary Gravity Wall Systems

1. Bin/Crib/Precast Large Format Blocks
2. Gabion Walls

Section B. Mechanically Stabilized Earth (MSE) Wall Systems

1. Segmental, Precast Facing
2. Modular Block Facing
3. Other Facing Types
4. Specialty Wall Types – Anchor Walls, Soil Nail Walls, Secant/Tangent Walls Engineer/Install

List 39. Warm Mix Asphalt

List 40. Pavement Sealers and Treatments

Section A. Standard Fog Seals

Section B. High-Performance Fog Seals

Section C. Rejuvenating Sealers

Section D. Pavement Rejuvenators

Section E. Bituminous Pavement Treatments

Section F. Trackless Tack Coats

1. Emulsions (Trackless Tack Coat)
2. Hot-Applied (Trackless Tack Coat)

List 41. Rockfall Mitigation

Section A. Rockfall Fence (TN Type I, II, III, and IV)

1. Rockfall Fence (TN Type I)
2. Rockfall Fence (TN Type II)
3. Rockfall Fence (TN Type III)
4. Rockfall Fence (TN Type IV)

Section B. Rockfall Slope Drape (TN Type I, II, III, and IV)

1. Rockfall Slope Drape (TN Type I)
2. Rockfall Slope Drape (TN Type II)
3. Rockfall Slope Drape (TN Type III)
4. Rockfall Slope Drape (TN Type IV)

Section C. Rockfall Pinned Slope Mesh (TN Type I, II, and III)

1. Rockfall Pinned Slope Mesh (TN Type I)
2. Rockfall Pinned Slope Mesh (TN Type II)
3. Rockfall Pinned Slope Mesh (TN Type III)

List 42. Spray Applied Liner Material

Section A. Geopolymer and Cementitious Material

Section B. Resin-Based Material

List 43. Closure Pour Material

List 44. Work Zone Traffic Control Products

Section A. Digital Speed Limit Sign Assembly

Section B. Speed Feedback Sign Assembly

Section C. Temporary Portable Rumble Strips

List 45. MASH Approved Roadside Safety Hardware

Section A. Longitudinal Barriers

1. W-Beam Guardrail
2. Thrie Beam Guardrail
3. Cable Barrier Systems
4. Bridge Parapets, Concrete
5. Bridge Parapets, Combination
6. Bridge Parapets, Metal
7. Alternate Systems: Roller Barriers
8. Alternative TL-5 Median Barrier Systems
9. Alternative Aesthetic Systems
10. Other Attachments: Glare Protection
11. Other Attachments: Fence Attachments (Generic Systems for Motorcycle Safety or WZ Access)
12. Anchors for Longitudinal Barriers

Section B. Guardrail End Terminals

1. Tangential
2. Flared
3. Median Guardrail End Terminals

Section C. Crash Cushions (Redirective Only)

1. Reusable
2. Low Maintenance
3. Self-Restoring

Section D. Category I Work Zone Devices

1. Plastic or Rubber Cones
2. Flexible Delineator Posts and Tubular Markers (Surface- and Ground-Mounted)
3. Work Zone Traffic Drums
4. Lights for Work Zone Traffic Drums
5. Pedestrian Channelizers (< 100 lbs.)

Section E. Category II Work Zone Devices

1. Longitudinal Channelizers for Traffic Control (Gating Devices with More Than 5-Foot Deflection)
2. Mobile WZ Devices: Moveable Barriers (Quick Change)
3. Mobile WZ Devices: Mobile Barriers
4. Other Lightweight TCDs

Section F. Category III Work Zone Devices

1. WZ Barriers: Portable Precast Concrete, Free-Standing
2. WZ Barriers: Portable Precast Concrete, Anchored
3. WZ Barriers: Steel, Anchored
4. WZ Barriers: Steel, Free-Standing
5. WZ Crash Cushions: Non-Gating (Permanent Devices, May Not Need Foundation)
6. Other TCDs (\geq 100 lbs.)

Section G. Category IV Work Zone Devices

1. Attenuators: Truck-Mounted
2. Attenuators: Trailer-Mounted
3. WZ_TCD: Variable Message Signs
4. WZ/TCD: Arrow Board Trailers
5. WZ/TCD: Temporary Signals
6. WZ/TCD: Work Zone Lights
7. WZ/TCD: Other trailer-mounted devices (AFAD, SAWS, DADs, etc.)

List 46. Miscellaneous
