TO ALL PLAN HOLDERS:

RE: Addendum # 1
SR-205 (Airline Road), Intersection at Arlington Trail; TDOT PIN 131079.00

QUESTIONS RECEIVED:

Q1. Are there any tabulated quantities associated with item 202-01?

A1. A tabulation for Removal of Structures and Obstructions has been added to sheet 2F. See attached revised sheet.

Q2. Can I get a copy of plan holders?

A2. Yes, a current plan holders list has been provided as a part of this addendum.

Q3. Is it possible to get a bid form in excel?

A3. No, an excel bid form will not be provided for this project

Q4. There does not appear to be a bid item 105-01 Construction Stakes, Lines and Grades.

A4. This item is not necessary for this project. Associated costs for staking any items should be included within the bid unit price for that item.

Q5. Item 6 in the footnotes says to obtain a cost for the local utility for their cost to provide power to the new signal. MLG&W will not provide this until a cost quote is requested by the contractor and it is only good for 30 days.

A5. It is the contractor's responsibility to obtain an estimate for this service and include within the bid item. Contractors should maintain documentation of the original estimate received from the utility provider. If at the time the utility service provider performs the work the price for the services differs, the contractor shall be reimbursed for the difference between the original and final estimates through a change order.
