Public Design Hearing

SR-46 from near SR-100 in Hickman County to near I-40 in Dickson County, TN

Thank you for attending the State Route 46 Design Public Meeting.

The proposed project includes the widening of State Route 46 to five lanes with a two-way left turn lane. The southern terminus of the two proposed segments will tie into the intersection State Route 100 in Hickman County. The northern terminus of the two proposed segments will tie into existing State Route 46 just beyond Turkey Creek Road. The proposed improvements along State Route 46 will include 10 foot shoulders, curb and gutter and sidewalk as well as improvements at the intersections of side roads along the roadway for improved safety and ADA compliance

In total, the proposed improvements for the combined segments along State Route 46 will include approximately 6.0 miles of roadway construction work.

Purpose of Meeting

- Discuss proposed SR-46 Widening
- Provide preliminary plans for public review
- Receive input from the public
 - Comment cards
 - Record verbal comments
- Answer questions and address concerns

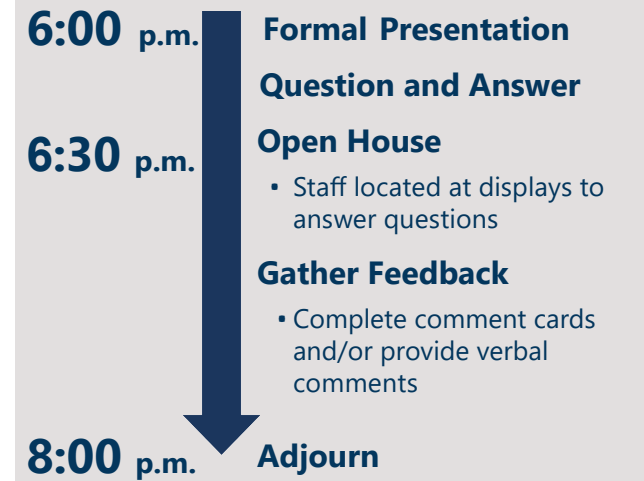

Purpose & Need of Project

The primary purpose of the proposed project is to improve local and regional connectivity by improving traffic flow and reducing crashes on the SR-46 corridor between the Cities of Columbia and Dickson as well as to I-40.

This project has been identified as an IMPROVE Act project and would meet the intent of the legislation by improving an important infrastructure facility in Dickson and Hickman Counties.

- ✓ System Linkage
- ✓ Transportation Demand
- ✓ Traffic and Capacity
- ✓ Roadway Deficiencies
- ✓ Safety
