# Broadway Viaduct Replacement

## Public Involvement Opportunity

In an effort to mitigate the closure and traffic detour's impact on downtown Nashville, the Nashville Department of Transportation is considering implementing specific routes for entertainment vehicles during the 8-week bridge closure from July - September.

NDOT brought the plan before the Metro Transportation Licensing Division today for discussion. NDOT will be holding stakeholder meetings to gather input, but in the meantime, **you can send your comments on the routes to Billy.Fields@nashville.gov**. The plan will then be brought to the commission again on June 22 for a final decision.

Over the course of the project, TDOT has been coordinating with NDOT and other city departments about traffic management plans, traffic signal timing and incident response during the summer closure. We will continue to do so as we near the June soft closure and July full closure.
