# Nolensville Pike / State Route 11 Widening Newsletter

**August 2025**

---

## **Phase 1 Project Description:**

The project widens Nolensville Pike from a two-lane to a five-lane road (including a dedicated turn lane and bike lanes). It stretches from south of Burkitt Road to near SR 254 (Old Hickory Boulevard). The project includes reconstruction and widening for approximately 4.4 miles. The proposed improvements are intended to address congestion, improve safety, and accommodate growth in this rapidly developing area.

Due to the size of improvements to SR 11, TDOT has split this project into two phases. Phase One, from north of Mill Creek to near SR 254 in southern Davidson County, is currently under construction.

---

*Holt Road reopens.*

## Phase One Progress

- **Completed Work:**
  - Storm drainage structures placed
  - Buried utilities (water, sewer, and gas) installed
  - Utility poles and overhead electric placed along south end of project (Bluff Road to Shane Point Place)
  - Holt Road construction completed
  - Additional retaining walls completed

*Holt Road paving.*

- **Active Work:**

- Base stone placement along south side of project
- Installation of arch culvert that crosses Nolensville Pike at north end of project
- Setting utility poles and placing overhead electric along the north end of the project (Shane Point Place to Old Hickory Boulevard)
- Grading operations throughout project
- Water, sewer, and gas installation
- Storm drainage placement

*Base stone placement underway.*

- **Upcoming Work:**
  - Storm drainage placement continues
  - Water, sewer, and gas installation continues

*Storm drain placement underway.*
