

Thank you for attending the Design Public Meeting for the Future I-69 project. As you enter the room, you will notice displays of the proposed project. TDOT and the design consultant representatives are located at the displays to discuss the project with you and to answer any questions you may have regarding the project. Please take time to discuss the project with them.

The proposed improvement for the Future I-69 corridor from just west of the US-51/US-45E/US-45W interchange to near the western ramps of Exit 1 of Purchase Parkway at the US-51 /Nolan Avenue interchange will improve connectivity and advance the conversion of US-51 to I-69 within this segment. These proposed modifications include the following design features:

- Project Length: 1.6 miles (approx.)
- I-69: 4-lane divided section with raised concrete median barrier. New bridges over S.R. 215(U.S. 45E) and W. State Line St.
- W. State Line St: 2-lane section with 11' lanes, 6' shoulders and curb & gutter
- S.R. 215(U.S. 45E/US-51): 3 roundabouts & dedicated Right Turn Lane at school

We want your feedback!

A court recorder is available for those who desire to make a statement about the project and have that statement included in the official meeting transcript. If you do not wish to make a statement at this time, or if you arrive home and think of something you wish you had told the court reported, you have twenty-one (21) days from the date of this hearing to submit written comments to:
