

Traffic Control Phasing Plan

Potential Short-Term Closure and Detour Route Details

- Existing lanes remain open for construction of new bridge (+/- 5 years)
- Single-lane, short term night and weekend closures not requiring a detour can be expected throughout construction
- A potential up to five-week full closure of I-55 to complete roadway transition from existing to new bridge
- Short Term Full Closure reduces construction duration an estimated 4-5 months
- Notifications will be made ahead of any potential closures
