CULVERT PROTECTION TYPE 2 GENERAL NOTES

1. Culvert protection type 2 may be used at any culvert, inlet or outlet, including those which convey a significant amount of runoff. It consists of one or more erosion prevention measures which serve to remove sediments from on-site runoff.

2. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

3. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

4. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

5. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

6. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

7. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

8. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

9. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

10. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

11. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

12. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

13. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

14. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

15. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

16. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

17. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

18. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

19. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.

20. Culvert protection type 2 is shown on this diagram with endwall in place. Culvert protection type 2 may be used with any type of culvert endwall or with box culvert applications.
