</table>

**Note:**
- Maximum fill height is measured from the bottom of the top slab. To obtain the total fill height from the flow line, add the height of the box.
- When top side is the riding surface (No Fill), the concrete cover to the top rill of reinforcing shall be 2-1/2 inches.

The following bar information applies to all fill cases in the table above:
- Bars LNT Size = 4 Spacing = 12 in.
- Bars LND Size = 5 Spacing = 12 in.
- Bars W6 Size = 6 Length = 5.00 ft. Spacing = 12 in.
- Bars W8 Size = 8 Length = 6.00 ft. Spacing = 12 in.
- Bars WNF Size = 8 No. = 1 Space = 12 in. Length = 155 ft.
- Bars EWF Size = 4 No. = 2 Spacing = 12 in.
