Effective Immediately, the TDOT Highway System Access Manual (HSAM) and associated Deviation Request forms have been updated.

These updates include the following:

- Revisions to staff titles throughout the manual and forms to reflect organizational changes implemented through TDOT EPIC.
- Updated embedded links to align with recent website restructuring.
- Corrections to unit labels on several left-turn lane warrant charts within both the main manual content and the appendix.
- Addition of a new template designed for TDOT projects requiring multiple deviation requests. This template is intended to accompany the HSAM-1 Deviation Request form.
