PEDESTRIAN SIGNALS

**PEDESTRIAN GENERAL NOTES**

1. Where pedestrian signal heads are provided at pedestrian steel crossings, the signal shall include accessible pushbutton signals and countdown Timers. The standard pushbutton signal and countdown timer is specified by reference. See Sect. 4E.07.

2. Pushbutton stations shall incorporate a location time meeting the requirements of Sect. 4E.07.1.b. Some pushbutton stations may also be provided with audible signals. Refer to Sect. 4E.07.1.d.

3. Pedestrian pushbuttons shall be provided with tactile warning墻 units and audio signals.

4. The cost of pedestrian pushbutton signal heads includes the frame, sign, ADA compliant pushbutton, and mounting hardware.
